WARRANTS OUT FOR FIGHTERS Chicago Reformer Undertakes to Stop Gane-McGovern Match.

INVOKES THE STATE LAW TO ASSIST HIM

Lou Houseman Declares the Contest Will Come Off, but Frank Hall Says All Hands Will Be Arrested Today.

CHICAGO, Dec. 11 .- Warrants for prize fight promoters, principals, referees and managers, were issued to Frank Hall by Police Magistrate Wallace today. Hall declares that he will stop not only the Mc-Govern-Gans contest, scheduled for Thursday evening at Tattersall's, but all future glove contests in this city. He even declares that he will try to secure a warrant for Mayor Harrison's arrest if the

CHARLE STREET, The cancelation of taxes on the records of the city treasurer has caused more or less trouble for a number of years. It is now more than likely all trouble arising from acts of this kind will cease, as it is

known that the administration is opposed to cancelations of any kind. This matter has been brought to the attention of the legal department of the city in more ways than one, but an opinion recently rendered will probably have considerable weight in case applications for cancelation are made in

the future. In a communication recently filed by James J. Fitzgerald the request is made that a certain tax in the sum of \$54 for the grading of Twentieth street from N to J street be cancelled. Mr. Fitzgerald asserts that this work was done by Douglas county and therefore no tax should have been levied. At a meeting of the council held September 23, 1895, a resolution was passed directing this tax to be canceled, and refer-

ence to the records show that the orders were carried out with the exception that lot 8 in block 118 was overlooked. It is the taxes on this one lot that Mr. Fitzgerald wants canceled in order to be placed on an equal footing with other abutting property owners.

we decided not to call a regular meeting until tomorrow." It was said tonight that the board of directors had taken up the charges of mis-conduct made by the Brooklyn club offi-cially against McGraw and Robinson of St. Louis. In a game at Washington Park. It is asserted, these two players assaulted Umpire Gaffney. The board, according to good authority, dismissed the Brooklyn club's complaint. Referring to the statement by President The matter was referred to City Attorney Lambert, who very decidely opposes any such action. He says in this connection that the action of the council at the meeting on September 23, 1895, is simply a nullity and beyond its power, and that such action is vold. Continuing, Mr. Lambert

asserts that the statutes provide, among other things, that no township board, city council or village trustees shall have the power to release, discharge, remit or com-

During the last week in this month the big corporations will pay their taxes and the treasurer will have money enough on hand by January 1 to make a warrant call if he considers it best. When a call is contemplated it takes some time to figure up the amounts in the various funds in order that the warrants outstanding longest may be called first.

Money for Hose Wagon. Specifications and contract for the new hose wagon for the Second ward fire hall

are now in the hands of the city cierk and as soon as signed by the mayor work on the wagon will commence. It will take eighty days to construct this piece of apparatus and judging from the specifications it will be first-class in every respect. It is understood that there is enough money in the "conscience fund" to pay for the wagon. Nothing has been done yet about securing a team, as the city fathers are spending as little money as possible just at this time.

He Has a Bad Arm.

He Has a Bad Arm. John Yonker was arrested late Tuesday aftergoon as a suspicious character but after he was taken to the city fall he con-cluded that he would not be locked up. In the fight that resulted John was rather roughly used and when the night shift went on duty he told them that his left arm had been broken. He was examined by the police surgeon, who found a dislocation. For more than two hours the surgeon and his assistants attempted to effect a reloca-tion, but without success. After John had emerged from the influence of chloroform he confessed that the dislocation occurred four years ago and that his story of an in-jury in the fight was a fake. The disloca-tion had become fixed and nothing short of a steam engine would have replaced it.

who is tainted by either will see in the child the same disease manifesting it self in the form of swollen glands of the neck and throat, catarrh, weak eyes, offensive sores and abscesses and of-tentimes white swell-ing — sure signs of Scrofula. There may be no external signs for a long time, for the disease develops slowly in some cases, but the poison is in the blood and will break out at the first favor-able opportunity. S. S. S. cures this wastable opportunity. S. S. S. cures this wast-ing, destructive disease by first purifying and building up the blood and stimulating and invigorating the whole system.

J. M. Seals, 115 Public Square, Nashville, Tenn., says: "Ten years ago my daughter fell and cut her forehead. From this wound the glands on the side of her face became swollen and burnted. Some of the best doctors here and clsewhere attended her without any benefit. We decided to try S. S. S., and a few bottles cured her en-tirely."

SS makes new and pure blood to nourish and strengthen the body, and is a positive and safe cure for Scrofula. It overcomes all forms of blood poison, whether inherited or acquired, and no remedy so thoroughly and effectively cleanses the blood. If you have any blood trouble, or your child has inherited some blood taint, take S. S. S. and get the blood in good condition and prevent the disease doing further damage.

If the taxes are, as stated, levied for an unauthorized purpose sections 144 and 145 of the statutes provide the only means for relief. The paynent should be made under protest and the the case can be taken up legally." Owing to the large number of changes suggested in the original boiler ordinance in has been deemed best by the judiciary committee of the council to withdraw the first ordinance and substitute another which apparently is better suited to the needs of the city. Owing to the fact that all of the corporations insure their bollers in a guaranty company a clause has been inserted in the new ordinance authorizing the boller inspector to appoint an assistant boiler in-

spector for every such company making application therefor. This deputy inspector is to be examined as to his qualifications before receiving the appointment. The sum of \$5 is allowed to be charged for an inspection, this money being placed in the general fund of the city. A fee of \$3 is to
