KNIGHTS WILL LEAVE OLD DEN

Feel that They Would Not Be Justified in Paying Advanced Rent.

MAY ERECT BUILDING DOWN TOWN

Board of Governors Apparently Unan-Imous for Erection of a New Structure Searer to the Business Center.

It is almost as good as settled that the Knights of Ak-Sar-Ben will forsake their old den in the Coliseum on the first of the year and proceed with the erection of a home of their own. All of the governors are of one opinion-that a wooden structure should be erected for the exclusive use of the knights and to be owned by them. Members of the board who were seen yesterday expressed themselves as follows:

H. J. Penfold-I am in favor of leasing a plot of ground in the business center and erecting a temporary building for three or four years' use. I have no particular plan for the building in mind, but I think it ought to be only about half as big as the Coliseum, as that would give us all the room we require. We want a place especially adapted for our work, with a well appointed shop for building floats and making the other paraphernalia for our festivals. I met about a dozen knights yesterday who expressed their willingness to Stone Marten, advance two or three years' dues, if necessary, to carry out any building arrangement the governors may decide upon. As for as the money is concerned we are all

A. H. Noves-Unless we can get the Collseum for another year on about the same terms we have now I am in favor of putting up a frame building to cost \$5,000 or \$6,000. The location of such a building would depend upon our ability to get special permission from the council to erect a frame structure within the fire limits.

T. A. Fry: We will probably have to put up a building of our own. It ought to be more accessible than our present headquarters-somewhere down town if we can get an ordinance through to allow the erection of a wooden building within the fire limits. I think we will be able to get a piece of ground suitable for the building without rent, as there ought to some charitably disposed citizens with a vacant lot which he would be willing to let the Ak-Sar-Ben use for a few years.

Edgar Allen: It looks as though we would have to put up a building in order to carry or our work. I am not ready to say just what kind of a structure ought to be erected. That is a matter demanding careful consideration by the Board of Gov-

R. S. Wilcox-The Board of Governors will not pay any more rent for the Coliseum than it is now paying. The place is not a other winter tourist points, good for re- very good quality in heavy ribbed woolen desirable one for our business, anyway, and there will be no regret over getting out of it. We may rent a hall for our initiation ceremonies and business meetings and put up a big workshop in which to build and store our floats.

Mel Uhl-I guess we will have to put up a building of our own, but I haven't thought of any particular plans.

J. G. Martin-The Ak-Sar-Ben would do well to have its own home. I am in favor of a building which could be used for both workshop and meeting place. A wooden structure to meet the requirements could be put up for a few thousand dollars. H. Vance Lane-I suppose we will build,

but just where and just how I am unable to

M. C. Peters, Fred Metz and George P. Cronk, the other members of the board of governors, are out of town, but their opinions as to what the knights ought to do toward securing new quarters most likely coincide with the views expressed by their
