LINCOLN, Dec. 14.—(Special.)—The extremely rapid growth of the cattle industry in Nebraska has prompted the proposal of London precinct, sold his eighty-acre several very important measures for the farm on Thursday to a Mr. Haskett of consideration of the next legislature. The measure contemplates an amendment to the Brand Marks Commission act reducing the membership of that commission to one man, and revision for the inspecion of cattle at the markets, inspection of hides and the publication of an af-

ficial brand book. Senator-elect J. R. Van Boskirk of Alliance will probably introduce the proposed tary of the Northwestern Cattlemen's association for several years, and it is said that his bill will reflect the wishes of the other officers and members of the organiza-

The official brand book will tered brand with the brand on the hide and determine whether they are the same in

"It is the general opinion of the cattleshould consist of only one man, permanently employed, but there is no reason why is true that other states require the paya yearly license, but I believe the work of the commission could be made just as effective without raising our present price."

Mr. Van Beskrik made an effort to secure the adoption of a hide inspection bill during the legislature of 1897, but the measure fell through after passing the house of representatives. Last year he made a similar attempt, but the bill passed neither house. Since then, however, public opinion has changed somewhat regarding the measure and in Van Boskirk's district it was one of the campaign issues upon which he was elected.

Judge Gibbons Instructs Cook County Grand Jury to Investigate Chicage's Condition Unsparingly

CHICAGO, Dec. 14.—Rigid investigation of various departments of the municipal government, especially the police department, was demanded of the December grand jury by Judge Gibbons today in his final instructions to that body concerning their course in regard to the prevalence of vice and crime in Chicago. Besides his references to the alleged corruption in the police department, Judge Gibbons scored prize fighting, which he said was plainly against the law. The recent money loan scandal was also referred to. The court traced much of the immorality in Chicago to child labor and the employment of girls and women in factories and stores at small wages for long hours and he said the pubmind should be arcused to the establishment of refuges and homes for those women, who by the recent closing of the dives had been driven to the streets. In reference to the municipal government,

-Officers Exchange Shots with Two Men.

NEW ORLEANS, Dec. 14.—Three arrests were made early today in the vicinity of the sensational holdup on the Illinois Central in the suburbs of this city last night, and but one of the suspects has been identified. Two of them bear close resemblance to descriptions furnished of the robbers, who were said to be at least two in number. A black handkerchief was found on one of the men. A similar article was used for a mask

one of the robbers. Engineer Smith of the train which was held up visited police headquarters today, but was unable to identify the prisoners. As the robbers had their faces covered and it was dark when Smith saw them, his failure to identify the suspects was not considered surprising. Shorily after the robbery two special officers saw a white man and a negro near the Illinois Central tracks. The men had a bag in their possession and the officers called on them to surrender. Instead the white man drew his revelver and a lively fusillade followed between the officers and the men. The latter finally dropped their sack and escaped toward the swamps. The sack proved to be a United States mail bag. This morning near the scene of the shoot ing the police found a cartridge belt stained with blood and full of cartridges. It is difficult to learn what the robbers got away with, but it is said they managed to secure several registered mail pouches and a large quantity of Christmas packages.
