STILL NO CORN OF CONTRACT GRADE

Data Market Sticks Steadily to its Evident Intention of Not Doing Anything-Provisions Open Fairly Steady, but Ease Off Later.

CHICAGO, Dec. 21 - Wheat was fairly active today and May, under the sustaining influence of firm cables, light Argentina shipments, moderate receipts and the heavy flour demand, closed the higher. Corn closed from there's lower in May to The down in December. Oats closed unchanged

and provisions Starfe depressed. While wheat prices were maintained the greater part of the session, the undertone was a trifle cusy. With Liverpool firm, Argentina shipments smaller than the week previous and considerable under a year ago with moderate northwest receipts and an unusually heavy export flour demand reported from Minneapolis, May opened only Mc higher at 739734c and then quickly slumped to 72%c. Here shorts began to take cognizance of the situation as shown by the early news and a reaction began. This was helped along later by reports of an export

early news and a reaction began. This was beiped along later by reports of an export demand. St. Louis purchasing under under which May railled to 73%c. The buige met the usual profil-taking, but the close was gleady, May be higher at 739734c. New York reported 49 londs taken for export. Seaboard clearances in wheat and flour were equal to 151,000 bu. Primary receipts aggregated 653,000 bu., compared with 50,000 bu. last year. Minneapolis and Duluth reported 345 cars, against 410 a year ago. Local receipts were 65 cars. 25 of contract grade. Argentina shipments last week were 65,000 bu., compared with 711,000 bu. the week previous and 1,624,000 bu. a year ago. Trade early was of the usual duliness characteristic of this season, but there was more activity later.

Corn was dull and heavy, both for near and distant futures, but the decline was much the beaviest for the current month's delivery, although the receipts 550 carsagain contained none grading centract. December was for sale at the start and there seemed to be no demand for it. The opening was at 40½2395c and in a few minutes the price touched 35c. When shorts attempted to get it, however, a raily to 20½c followed. The close found this delivery weak, 1½c under yesterday at 25%c. There was a good shipping demand, but bushness as usual was curtailed by a lack of cars. January sold between 36%c and 37%c and 20%c and 20%c and 15%c and elosed by down at 36%c. May sold between 36%c and 35%c. closing ½arc.

The oats market repeated its performance of doing as near to nothing as possible, without losing space on the floor. May sold between 26%c and 25%c and 25%c and 36%c an

ance of doing as near to nothing as pos-sible, without losing space on the floor. May sold between 25%-273% and 25% and closed unchanged at 23%c. Receipts were Provisions were quiet. The market opened fairly steady, but eased later in sympathy with a decline in hogs and the slump in corn. January pork sold between \$12.25 and \$12.20 and closed 5c down at \$12.20; January lard between \$6.85676.87\forall and \$5.82\forall closing 5c lower at \$6.82\forall and January ribs between \$6.30 and \$5.27\forall with the close \$2\forall 6c down at \$6.27\forall close \$2\forall 6c.27\forall close \$2\forall 6c.27\forall 6c.27\forall close \$2\forall 6c.27\forall 6c.27\fo ween 36.37 and a 56.27 c down at 56.27 c down at 56.27 c down at 56.27 c down at 57.27 c down at 57.5 c down at leading futures ranged as follows:

Dressed, weak, turkeys, 80th; chickens, 75408c, fowls, Mehigan, Harle.

METALS—Tin was on the whole slow in the metal market and of a houlday character. Sentiment was still of a bearish nature, despite another rise of £2 at London as the result of a speculative movement in tin, the close there being firm at £1185s. Though the local market responded with an advance of 50 points it was only in a nominal way, as the was treely offered at £26c, which was the closing figure, but found few takers. Copper in London was again a shade higher and closed steady at £718s d, but falled to influence the local situation to any extent, prices remaining unchanged Lend was dull and nominally unchanged here at \$1.7%, while abroad there was an advance of 2s 6d shown to £16 2s 6d. A loss of 2s 6d at London for spelter to £18 10s shows that price to be the lowest for the year, but the local situation ruled very slow at £1.25c/94.1748.

AN UNUSUAL CONDITION

Present Holiday Season Made Exceptional by Continued Manufacturing.

PEOLONGED ACTIVITY NOW IS SIGNIFICANT

Means There is Plenty of Work Ahead for Iron and Stees Shops at a Time When Furnaces Are Usually Banked.

NEW YORK, Dec. 21.-R. G. Dun & Co's Veekly Review of Trade tomorrow will say: Better weather conditions on the Atlantic tribution of all staple lines of merchandise at southern cities have imparted a slightly more aggressive tone to general business. Distinctive holiday business, which at this period of the season means retail distribution, has shown further improvement and no complaint is heard from any quarter, while the jewelry trade is much more active than for several years past.

Unchanged conditions in the leading manufacturing industries in the last week before the holidays means much. At this time in ordinary years furnaces close down in large numbers and duliness is general at mills and shops where iron and steel are handled. Instead of reduction of working force or concessions in price this year, however, reports from the principal cities indicate the existence of contracts that will take months to fill and new sales are made at the former level, despite much talk of cheaper ore next year.

Fuel declined about 25 cents a ton recently, but this is as far as the cost of raw material has been reduced. It is seldom possible to secure prompt delivery of partially manufactured forms or finished products and each week brings more orders from abroad, while the November statement of British exports shows another decrease compared with last year in these products. The again dropped sharply, taking the price about 10 cents below the top and almost to the level prevailing a year ago.

Other industries exhibit the same indiffer-

Trade and Quotations and Fancy Produce, s. light; good stock, 18920c, ns, 5c; spring chickens, 5c; ks, 54245c; geese, 7c; tur- SED POULTRY—Hens, 69	no complaint is heard from any quarter, while the jewelry trade is much more ac-	elisiont short selling of Americans by for- eign professional speculators. This was particularly noticeable in connection with Eric issues, as well as in Northern Pacifics and some of the other issues which have come to the front in the recent movement of the market. The rapid and sustained rise in these values seemed at the begin-	Atch. gen. 4s 102% Rio G. Po

When the statement came out the street promptly jumped at the conclusion that while a firm money market was probable rates might rule easier than 6 per cent and positive stringency need not be feared Leading interests in the financial and railroad world seemed to exert themse ves to help the builts movement and the public apparently shared in the feeling of confidence as in money conditions. Commission houses at any rate had many buying orders and the transactions once more ran up to in the neighborhood of 1,50,000 shares cach day and on Thursday probably amounted to 2,000,000 shares. The investment demand for bonds and stocks is notably large and the fact that the January income disbursements will be of a record-breaking magnitude induces more or less buying of an anticipatory character. This demand is not confined to bonds, but extends to all dividend stocks.

The bunking interests which are in tharge of the more prominent of the latter. The core interests which are in that the order of the latter of the party of the latter.

issued favorities and the newer class of dividend stocks.

The banking interests which are in charge of the more prominent of the latter class of securities have no a fliculty in interesting large and enthusiastic followings in the built campaigns that are now in progress in various stocks. Another circumstance which aided them and powerfully affected the whole market was that in London and Berlin, the revent rise in this market having induced heavy and persistent short selling of Americans by forceign professional speculators. This was particularly noticeable in connection with Eric issues, as well as in Northern Pacifics and some of the other issues which have come to the front in the recent movement of the market. The rapid and sustained rise in these values seemed at the beginning of the week to throw the European bears into a state of panic. Some of the stocks of which they were short sellers were reported to be in scant supply in London and the urgent buying which resulted both advanced Americans in London and brought very large arbitrage buying for foreign account on this side, while considerable amounts of stocks wave been shipped abroad by the steamers leaving this week.

Wool Market.

BOSTON, Dec. 21.—The Commercial Bulletin tomorrow will say of the wool may ket: The market is steady and the sales compare favorably with those of a year ago within the same week. Most of the business done has been in the shape of large-sized blocks of Montana, Oregon and Idaho wool to one or two large mills. The American Weolen company has bought but sparingly. Prices are firm and London cables note private sales at advancing figures. Stocks on hand are large. The sales for the week were 3,127,600 lbs. domestic and 260,500 lbs. foreign, a total of 3,885,550 lbs. against a total of 3,885,600 lbs. domestic and an increase of 47,377 bales foreign over last year. The sales to date show a decrease of 47,377 bales foreign over last year. The sales to date show a decrease of 47,377 bales foreign over last year. The sales to date show a decrease of 187,655,600 lbs. domestic and 25,187,800 lbs. foreign.

HOGS-The supply of hogs was liberal again today, but the market opened up a little stronger. Packers began bidding \$480 and \$482\frac{1}{2}\$, the same as they did yesterday morning, and a good many hogs changed hands at those prices. The heavier hogs sold mostly at \$480, and the lightweights at \$482\frac{1}{2}\$, and as high as \$4.8 was paid. It was a fairly active market on the start and the bulk of the hogs were sold in good season. For a time the feeling was rather weak and a few hogs sold at \$4.77\frac{1}{2}\$, out finally packers bought the rest of them up at about \$4.80. As will be seen from the table of average prices the market today is just a little stronger than it was yesterday. Everything was sold in good season. Representative sales:
