

CAUSES DEMOCRATS TO TALK

Various Opinions Expressed of Ex-President Cleveland's Letter.

BRYAN'S FOLLOWERS DO NOT LIKE IT

Men Formerly Active in Party Politics Endorse Its General Tenor, but Some Think It is Indefinite.

NEW YORK, Dec. 21.—The Herald today publishes the following comments on ex-President Cleveland's statements in regard to the democratic party:

Richard Olney, secretary of state in the Cleveland administration, "I have read an abstract of the article, but I do not care to discuss the subject now. I would prefer to wait until I have read the article in its entirety before expressing an opinion, if I have any to express."

Representative De Armond of Missouri: "I think the former president is correct in his conclusion that it is not necessary for the party to put itself for reorganization purposes into the hands of some of those who deserted it. When he informs us of the time in its history the rank and file of the democratic party were consulted more fully than in 1896 and in 1900 we shall know better how to estimate his epitome of his own deliberations."

Hilary R. Herbert, who was President Cleveland's secretary of the navy: "I endorse the article heartily, excepting insofar as it may be a criticism of the act of the democratic party in supporting Greeley on the liberal republican platform of 1872. If Mr. Cleveland had meant to say that the Greeley movement was taken as a whole, unwise, I should not put my emphatic dissent. The union in 1872 was abnormal. The southern states were in the throes of carpetbag misrule. For the southern people it was a question of life or death. The south turned to Greeley in its distress and he became, in fact, the candidate of the southern, rather than of the northern democracy. The effect of this support was to open the eyes of northern voters, and in the next elections came the tidal wave of 1876. Still Mr. Cleveland is right in saying that the rank and file of the democrats could not be brought into line to support an old antagonist. Taken altogether, there is no answering Mr. Cleveland's arguments."

John De Witt Warner: "My idea is that democrats can best help the party by taking every opportunity to work against the republican party. I agree with Mr. Cleveland that it is not so much the reorganization of the party that is necessary as the return to old principles, the first of which I believe is to make a decided stand on behalf of the people against any fresh attempt by the syndicate that exploits McKinley to loot the American people for its benefit."

Edward M. Shepard: "I will merely say that I welcome any utterance of Mr. Cleveland; it will do good. As to the criticism that he has not sufficiently pointed out what steps should be taken by the democracy in the direction of reorganization, I would say I propose Mr. Cleveland wishes to set people thinking right before they take action."

Howard R. Bayne: "We all realize the facts as they have been set forth by Mr. Cleveland, and many persons have said substantially the same thing before. I do not think that among democrats there can be any difference of opinion as to the necessity for reorganization. Mr. Cleveland's reconciliation scheme all sold democrats will acquiesce in, but if I may be permitted to criticise certain parts of his article, I would say that they are too general to be of any practical benefit in the reorganization of the party."

FINANCIAL PLANK TOO HEAVY

Elliott Danforth Says Free Silver Defeated Democracy in the Last Two Campaigns.

INDIANAPOLIS, Ind., Dec. 21.—Elliott Danforth, ex-chairman of the New York democratic committee, called on Mayor Thomas Taggart this afternoon. Concerning politics, he said:

"I have a great admiration for Mr. Bryan, but I have no hesitancy in stating that the financial plank of the democratic platform was responsible for the defeat of the party both in 1896 and 1900. I hardly think it is possible to continue a policy which has resulted in the defeat of the party twice in succession."

Mr. Danforth, when asked about the rumor to the effect that Senator Jones would resign as chairman of the national democratic committee, said:

"All I know is what I have read in the newspapers. If Senator Jones resigns, in your opinion, will he be selected to take his place?"

"Mayor Taggart of this city is very prominent."

IRRITABLE TEMPER

It is not always a sign of bad disposition in man or woman, but of unstrung nerves due to kidney trouble. Pain in back, dizziness, urine which smells, deposits in the urine, Night Sweats and Swollen Feet are some of the symptoms to watch for carefully. There is, however, no need to suffer nor to cause unhappiness.

Corner Whitman was called and held an inquest and decided that the child had taken her own life, using her own jumping rope for the purpose. No cause can be given for the act. Inez was a very bright and intelligent child, rather quiet, but well beloved by all her playmates and classmates. Her home with her uncle was exceptionally pleasant and comfortable and all pleasures and comforts which money could buy or heart could wish were lavished on the little girl. Hence, her action is more than usually unaccountable.

Wednesday evening about 8 o'clock Mrs. J. C. Brown, one of the most prominent women of Malvern, dropped dead of heart disease. She had just returned from Glenwood, where she had been making some Christmas purchases, and her husband had just driven her home from the depot when she was taken suddenly ill. He assisted her into the house and sent for a doctor, but she died in five minutes in great agony. Her funeral took place today from her beautiful home in North Malvern.

Graduate at Ames.

AMES, Ia., Dec. 21.—(Special).—At the Iowa State College of Agriculture and Mechanical Arts class day exercises were held yesterday and commencement exercises last evening. President Boardman awarding degrees to forty-eight graduates, among whom were four postgraduates. The retiring students were addressed by Hon. W. D. Thompson, president of the Ohio State university. His address commencing week at the college and in fact the last exercises of the kind which will be held at this time of the year there, the college courses having been readjusted to conform with those of the high schools and other colleges of the state, so that graduates may use their degrees in June hereafter.

Heavy Iowa Receipts.

The official records at the stock yards show that there has been a notable increase in receipts of live stock from east of the Missouri river within the last week or two. This is especially true as to hogs, the Iowa shipments constituting about one-third of the total receipts daily. It is stated that the reason for these recent heavy shipments is the fact that the hogs paid here by the packers, Chicago formerly got the bulk of the hogs raised in Iowa, but of late more equitable railroad rates have been made and these, with the good prices paid, cause the shippers to send their stock to the market instead of to Chicago. It is stated that at the present prices Iowa shippers can save money in freight charges and shrinkage by sending their hogs here.

Work of Road Machine.

Street Commissioner Clark says that he has laid the road machine up for the winter. This machine was purchased since Mayor Kelly was in the city, and according to Commissioner Clark, it has more than paid for itself. A great deal more work can be done with the machine than by the old system and the grading when completed is much more satisfactory. In addition to the faster work it does the machine saves a great deal of labor and does the work of several teams in much less time.

Improvements in Horse Barn.

A new brick floor is being laid in the horse and mule barn at the stock yards. When this work is completed the barn will be one of the best of its size at any stock market. Owing to the fact that the horse business here the management of the Stock Yards company proposes to erect an addition to the present big barn within a very short time.
