awarded the decision. He then met Kelly. The first round was fast and Kelly sent Barr to the floor. Henderson, under the amateur rules, stopped the round. Barr came up for the second round and Kelly so far outclassed him that the fight was stopped. Barr staggered as he was leaving the ring and it was decided to send him to a hospital. Here it was found he had a fractured skull and death followed soon after.

Hospital of Injuries Received at Madison Square Garden.

NEW YORK, Dec. 22—Oscar Aaronson, the bicycle rider, died in the New York hos-pital from injuries resulting from his fall during the six-day bicycle race in Madison Square Garden. Aaronson received his injuries on the third day of the race. It was during a relief of two of the riders by their part-ners. Two of the men who were in the bead came together with a crash, went down on the track and four other riders shot into them. Turville and Aaronson were the worst hurt. Turville was thrown over into a box and Aaronson was carried from the track unconscious. He was re-effort, but collapsed. He was then taken to days since the race. In Swaden twenty from

Movements of Ocean Vessels, Dec. 22. Been Supposed. Barely fifteen years have elapsed, says Good Words, since the automatic coinin-the-slot machine first appeared in public places to supply customers with eigarettes, matches, chocolates, sweetmeats, stationery, etc.; while in its latest phase this contrivanco-in conjunction with a lighted street lamp-has been made available for the automatic purveyance of hot water and hot drinks. Surely, it may be thought, this extremely utilitarian invention can only have been due to the ingenuity of the present generation; and it is, therefore, startling to learn that the automatic machine is one of the oldest projects in everyday use, since it was known a century before Christ, being the invention of that great mathema-
