Indian Appropriation Bill Gives Senators a Chance to Display Their Knowledge in Matters Ethnological.

WASHINGTON, Jan. 24.—The senate today devoted the day to the Indian appropriation bill and made only fair progress. The chief feature of the debate was a sharp attack by Mr. Pettigrew on the Dawes commission, which he said was extravagant and was accomplishing nothing in the way of results. An interesting announcement made by him was that he did not propose to filibuster against any bill. The ship subsidy bill was not taken up, but tomorrow will be the occasion of a speech on it by Mr. Jones. It then will give way to appropriation bills. Mr. Frye saying today he did not wish to delay them. At the opening today the senate adopted the Pettigrew resolution concerning the reported deportation of A. Mahini, a citizen of the Philippines to Guam.

During the consideration of the appropriation for Indian schools, Mr. Butler said he had visited such schools and had observed there were children present who were not Indians, and asked what proportion of Indian blood was necessary to secure admission to such schools. Mr. Thurston answered that no children are received unless they are regarded as Indians by the tribes. He had, he said, seen in a temple with a woman, evidently an Indian squaw, children of her own who had red hair. It was impossible, he said, to exclude children from the schools merely because they might have red hair or a light skin.

Mr. Butler insisted that many of the children who were attending Indian schools were white and the American Indian school appropriation was not for them. Mr. Teller of Colorado was satisfied Mr. Butler was mistaken. He knew personally, he said, that children were not admitted to the Indian schools whose parents did not maintain their tribal relations. Mr. Jones of Arkansas added that he knew many Indian children who had freckled faces.

Dawes Commission Criticized. Mr. Pettigrew of South Dakota expressed the opinion that the whole Indian school system ought to be overhauled. He was inclined to believe that many of the Indian schools in the east might be better abolished and in this connection he referred to the Carlisle school. Mr. Pettigrew made a vigorous attack upon the Dawes Indian commission, asserting that there was no more corrupt, extravagant body in the service of the United States than that commission. He attacked particularly the increase from \$30,000 to \$300,000 of the appropriation for the commission. He believed the work done by the appraisers of the Indian lands could be better done by the government was paying for it.

Mr. Jones of Arkansas maintained that the criticism by Mr. Pettigrew of the Dawes commission, was not well founded in any respect. The expenditures made by the commission for the appraisal of lands were, he maintained, absolutely necessary in order that the distribution of the Indian lands might be made justly and with careful regard to the rights of the tens of thousands of persons interested. The work, Mr. Jones said, was being done economically and thoroughly.

A resolution was adopted providing for the reading of Washington's farewell address on February 22, by a member of the senate. Mr. Aldrich of Rhode Island reported the war revenue reduction bill from the committee on finance and gave notice that he would call up the measure the first of next week. The expenditures made by the committee had amendments covering the sale of stock and merchandise under consideration, which would be submitted at an early date.

Night Sessions Unpopular. Mr. Stewart of Nevada endeavored to secure an order for a night session for the reading of the district code bill, but Mr. Wellington of Maryland had determined there should be a quorum of the senate present for all matters and forced several roll calls, one of which drew from Mr. Pettigrew the statement that a night session would be of no avail unless a quorum was kept present so night business could be transacted.

Administration in Nebraska Plays No Favorites in Washington Fight.

POSTMASTER CROW SUSPECTED FOR PAT

Omaha Indian Supply Depot Likely to Get Its Appropriation—Complications Over Federal Patronage in South Dakota.

WASHINGTON, Jan. 24.—(Special Telegram.)—Republican senators are carefully watching the republican legislature of Nebraska in its efforts to get together the next ten republican senators from that state to the upper house of congress. While individual preferences are now and then heard expressed in the capital, the consensus of opinion here is that the legislature will not fail to elect two republicans. The senate would be to lose all gains at the last election. But as far as can be ascertained the administration has no candidate, nor will it have, believing that the legislators of Nebraska should settle the question of their representatives in the senate within themselves and not through any outside pressure.

Senator Hanna, when asked by a correspondent of The Bee if there had been any intimation of a desire to have any particular candidates named on the part of the administration, said: "No, there has not nor will there be. The administration is not in the role of making senators. It has no preference. The only desire is to have two republicans from Nebraska elected. Republican senators are always a right to elect their own."

Postmaster Crow, Not Petrick. Joseph Crow, postmaster of Omaha, had hardly finished writing his name on the register of the Raleigh today when he was accosted by a special detective connected with the Washington police force with the remark that he was a considerable distance from the place he was wanted. Crow was visibly disconcerted, but his interrogator was imperturbable and Crow had to appeal to friends who had met him at the train and accompanied him to his tavern to prove that he was not the same Crow desired by the police and citizens of Omaha. Mr. Crow is here on matters connected with the Omaha office.

Cashier from South Omaha.

Thomas B. McPherson, cashier of the Stock Yards National bank of South Omaha, is in Washington on matters connected with the Interior department. Mr. McPherson is the largest individual lessee of lands for stock grazing purposes in the country and he has always matters pending with the department looking to these matters. Mr. McPherson will remain in Washington until Saturday and if possible will secure an audience with the general committee on agriculture, when he will tell the committee why the Great eleazarine bill should not pass.

Hides of Bees for Indians.

The senate committee having consideration of the Indian bill agreed to an amendment giving the hides of beaver to Indians. This is the largest individual lessee of lands for stock grazing purposes in the country and he has always matters pending with the department looking to these matters. Mr. McPherson will remain in Washington until Saturday and if possible will secure an audience with the general committee on agriculture, when he will tell the committee why the Great eleazarine bill should not pass.

For Indian Supply Depot.

The appropriation of \$5,000 for the Omaha Indian supply depot, which was adopted by the committee on Indian affairs, was accepted by the senate today. It is interesting to note that the civil service commission is jumping on the commissioner of Indian affairs for having appointed Superintendent Jordan, the claim being that the superintendent is in the control of the largest individual lessee of lands for stock grazing purposes in the country and he has always matters pending with the department looking to these matters. Mr. McPherson will remain in Washington until Saturday and if possible will secure an audience with the general committee on agriculture, when he will tell the committee why the Great eleazarine bill should not pass.

South Dakota Patronage.

If the republican organization of South Dakota has planned the distribution of federal patronage in the state, it is evident that interesting complications will arise. Friends of the senator say that he must be consulted in this connection and that if he is not consulted he will exercise his senatorial prerogatives in dealing with the nominations submitted to the senate for confirmation. In other words, Senator Kyle has given it out that he is a republican, and so recognized by the administration and by his colleagues in the senate. The pulse of the administration is to appoint a republican as South Dakota appointments are concerned his endorsement is as potent and essential as that of other South Dakota party men.

Land Registrar at Rapid City.

Mr. Gamble will arrive here tomorrow or Saturday. Among matters which he will take up in addition to the Sioux Falls postoffice is the appointment of a land registrar at Rapid City. S. D. Senator Kyle has recommended State Senator Bennett for the place.

Wolcott for Chinese Portfolio.

A report is current here that Minister Conger has expressed a desire to be relieved from the Chinese portfolio, that his wishes in the matter will be respected by the administration and that Senator Wolcott will be offered the position. The report is that the matter could not be obtained tonight on account of Senator Wolcott leaving the senate early in the day.

Disposal of Army Bill.

As usual the senate has won in nearly every contention on the army reorganization proposition. Owing to the manner in which the senate has acted, it will generally be believed that at least a week would be required to bring about a settlement of differences between the two houses, but the imperative necessity for prompt action has led the house conferees to abandon almost every point for which it contended. An agreement was reached last night which insures the disposal of the bill at an early day. Chairman Hull is not satisfied and the army as a rule is disregarded, but so pressing is the demand for legislation that it is decided to beat to take what the senate offered rather than to prolong the dispute and jeopardize the interests of the country in the Philippines.

WASHINGTON, Jan. 24.—(Special Telegram.)—The queen's coffin arrived at the evening and was taken through the queen's private gate, which had not been previously used since her death. Emperor William, to observe the funeral, ordered the coffin to be transferred this morning to the dining room, now hung with deep purple.

Wreathed with Royal Standard.

The date is weather with the royal standard, and on each side are great eagles to guard carefully the royal standard from the draped walls. In one corner magnificent wreaths from all parts of the world crush their blossoms against the other. Among these the most beautiful are from Emperor William and Empress Augusta Victoria. The royal chairs are arranged for the royal mourners.

Lord Pelham Clinton authorizes the statement that there will be no lying in state. However, there is good reason to believe that many persons will be afforded the privilege of seeing their dead queen as she lies in the gorgeously transformed dining room, where she will remain until February 1. In the hope that this may be the case the people are already pouring into the city. If they are disappointed in their hope they will at any rate be rewarded by witnessing a great naval display.

Yesterday King Edward replied to thousands of messages he has received. To those from rulers and great personages he replied in person. To those from minor dignitaries he answered by telegram. He returned thanks. A particularly grateful message went to President McKinley.

Refuses Title of Queen.

The new queen moved ceasing around yesterday seeing that everything should be done in order. She refused to allow herself to be called "Your Majesty." "Your Majesty," said one of her entourage. "Your royal highness, you mean," was the immediate interruption.

Reduction on Tobacco and Beer.

The committee's substitute provisions in regard to cigars, tobacco, beer, etc., are as follows: That on and after July 1, 1901, there shall be allowed a discount of 25 per cent on all sales by collectors to brewers and manufacturers of tobacco and snuff upon the stamps provided for the payment of internal revenue taxes upon beer and manufactured tobacco and snuff, provided that the discount allowed to brewers upon beer stamps shall be in lieu of the discount of 7 1/2 per cent allowed by the act of June 31, 1885. The effect is to reduce the beer tax to \$1.50 a barrel and on snuff and tobacco to 9 cents a pound.

Insurance Policies and Renewals.

As a general rule the reduction of the tax on insurance policies and the renewal, and if provided that in lieu of the present taxes, special taxes shall be imposed, to be paid by the insurance companies, as follows: Life Insurance Companies—4 cents on the amount of the policy for each \$100 fraction of every policy. This provision is modified by the following proviso: That in all policies for life insurance only, issued on the industrial or other weekly or monthly payment plan of insurance, the tax to be paid shall be 20 per cent of the amount of the first weekly premium or 3 per cent of the first monthly premium; and provided further, that the provisions of this section shall not apply to any fraternal benefit society, or order, or farmers' purely local co-operative company or association, or employees relief association, on a lodge system, or local co-operative plan, organized and conducted solely by the members thereof for the exclusive benefit of its members and not for profit.

Annual Returns Required.

All insurance companies are to be required to make annual returns to the commissioner of internal revenue, the returns required being such as will enable the commissioner to levy and collect from the companies the taxes required to be paid by them. In case of nonpayment of the special tax levied against insurance companies it is provided that the delinquent company shall, besides being liable for the payment of double the amount of such special tax, be deemed guilty of misdemeanor and upon prosecution thereof shall pay a fine of not more than \$500.

Conveyances and Deeds.

The rate on conveyances, including deeds to land, is materially reduced. In the existing law all deeds covering values exceeding \$100 are taxed at the rate of 50 cents. The senate committee removes the tax on all deeds where valuations are below \$250 and makes the tax rate 25 instead of 50 cents. Each additional \$500 above \$250 the tax is to be 25 cents. The tax upon bankers is fixed at the rate of \$1 on each \$1,000 of capital and surplus used by them.

Proprietary Articles.

Section 29 of the existing law pertaining to proprietary articles, including drugs, perfumeries, etc., is practically rewritten. The language of the first portion of the section is allowed to stand except that perfumeries and cosmetics are eliminated. The provision is rewritten so that no tax is to be imposed upon any un-compounded drug or chemical wherein the person making, uttering or vending the same does not have or claim to have an exclusive right to the making or preparing of the same, or does not have or claim to have any proprietary right in the exclusive or special use of the name or title thereof, or upon any un-compounded drug or chemical made, uttered or vended under any letters patent issued in this or any foreign country, nor upon any medicines compounded according to pharmaceutical formulas of where the formula is printed on the package, nor on physicians' individual prescriptions.

Senate Committee on Finance Makes Report on War Revenue Reduction.

AMOUNT LOPPED OFF ABOUT \$47,000,000

Tax on Beer Placed at \$1.50 a Barrel, While That on Various Forms of Tobacco is Nine Cents a Pound.

WASHINGTON, Jan. 24.—Senator Aldrich, chairman of the senate committee on finance, today reported the war revenue reduction bill back to the senate. The committee reports a complete substitute for the bill as it passed the house. Senator Aldrich made a statement, explaining the changes, which are as follows:

"Stamp taxes repealed—Promissory notes, mortgages, bills of lading for exports, powers of attorney, protest, charter party, certificates of all kinds, leases, warehousing receipts, telegraphic dispatches, telephonic messages, passage tickets costing less than \$50, express receipts, freight receipts, bonds except bonds of indemnity, legacies to religious, charitable, literary or educational institutions.

"Special taxes repealed—Commercial brokers. "Taxes reduced—Conveyances, insurance, bankers' capital, proprietary medicines, cigars, tobacco and beer." The statement says that having always in view the revenue requirements of the government, the purpose of the committee has been to repeal such of the taxes imposed by the act of June 30, 1898, as are most annoying and burdensome to taxpayers; to retain such as would be kept as a permanent part of our revenue system or at least retained until all war taxes can be repealed, and to reduce others as far as possible, as a possible by some general plan of reduction. Pursuing this general plan it has been possible to reduce the taxes affected approximately one-half.

Taking the estimates of the treasury department as a basis, the reduction of the tax on beer effected by the bill will be nearly \$49,000,000, a reduction somewhat less than was produced by the bill as it passed the house of representatives.

Reduction on Tobacco and Beer.

The committee's substitute provisions in regard to cigars, tobacco, beer, etc., are as follows: That on and after July 1, 1901, there shall be allowed a discount of 25 per cent on all sales by collectors to brewers and manufacturers of tobacco and snuff upon the stamps provided for the payment of internal revenue taxes upon beer and manufactured tobacco and snuff, provided that the discount allowed to brewers upon beer stamps shall be in lieu of the discount of 7 1/2 per cent allowed by the act of June 31, 1885. Effort to Aid Mrs. Maybrick.

NEW YORK, Jan. 24.—Clark Bell, president of the American Aid Society, announced today that he had been formed to take up the Maybrick case at once and that the object of the society was favorable to that for the pardon or acquittal after a fair trial of the American woman accused of murdering her husband. The taking up of the case is due to the attitude which the new king of England is known to have taken toward Mrs. Maybrick. It is said he had made no secret that he favors her pardon.

TO CURE THE GRIP.

Advice of a Famous Physician. First and foremost, REST. Take care of yourself. Your already weakened nerves want rest and must have it. If the attack is severe, go to bed and remain there. More fatalities result from neglect of this precaution than from any other cause. Eat sparingly. Your digestive organs are in no condition to take care of large quantities of food. Drink plenty of pure, cold water. It allays the fever, stimulates the kidneys to action and opens up the pores of the skin. Keep the bowels open with Dr. Miles' Nervine and Liver Pills.

Take three doses of Dr. Miles' Nervine pills for any case of grip, cold, or other extra dose at bedtime. To further control the fever and to overcome the peculiar aches and pains of grip, use Dr. Miles' Pain Pills. They act quickly and effectually and no bad effects result from their use. These remedies have been thoroughly tested more than a million times and their efficacy is thoroughly established. They never fail to give relief. Dr. Miles' Remedies can be found at any drug store and they are sold under a positive guarantee that first bottle of package benefits or money refunded.
