Cortege Passes.

MINISTERS MEET IN SPECIAL COUNCIL

Grevity of the Situation Demands Their Immediate and Severe Action to Provide Public Protection.

MADRID, Feb. 13 .- As was anticipated the funeral of Don Ramon de Caompomer was attended by large crowds. The weather was beautiful. The cortege included members of the cabinet and other departments. Mounted guards were stationed at strategic points.

Considerable disorder marked the progress of the procession, but the troops, who were in readiness, prevented any very formidable outbreak until the end of the city was reached. At that point the demonstra- as an indication of his guilt. Now, there tors, which included many students, raised the cry of "Long live liberty!" and having and we want the court to tell us what 'unbroken up into small parties proceeded to various parts of Madrid to renew the demonstration. One band of students began to stone a convent on Torija street, and the

police were compelled to charge them. In the evening fresh riots took place at several points. The gendarmes charged with drawn swords and a number were wounded or bruised. These were carried into the pharmacies and cafes. The demonstrators lieve a search of the primer would bring replied to the charges of the gendarmes with showers of stones.

Thirty Arrests Made.

Altogether some thirty arrests were made during the day, including a military officer, whose arrest resulted in a protest by his brother officers, the matter being referred to the captain general. The authorities have warned the newspapers that they must abstain from criticism of acts of the royal family or the publication of news or omments calculated to fan the present agitation.

During the afternoon the ministers held an important council. The evident intention to deal seriously with offenders against public order seems to be having a most salutary effect. The strong aggressive methods of the civil guards early in the evening resulted in quiet in the later part of it, and Madrid, just before midnight. when this dispatch is filed, is calm, the guards having been almost entirely withdrawn.

Effervescence continues, however, at Barcelons and Granada, where the gendarmes have been reinforced. At Malaga anti-clerical demonstrators stoned a newspaper office and a policeman was wounded by a revolver shot in Torios street.

Towne has for some years been engaged as a junk dealer in Council Bluffs and one day received a barrel of furs and junk from South Dakota which contained a mail sack. The United States authorities investigated and found that, according to the testimony
