One of them would always remain in the buggy, while the other brought to the school August 31, 1881, and would come up and talk to me. The one remained until February 24, 1884, when he who did the talking was a light complextoned man with a light overcoat. The police have his picture, and they tell me his name is Pat Crowe. The picture is a good likeness of the man who talked to me. I could identify him positively. I don't think, though, that I would know the other man, as he always remained in the buggy, which was at some distance from where we stood. Murtagh was taken to the police station

prominent place in your paper? We are authorized to say, in the most positive and emphatic terms, that the state-ment telegraphed from Wichita that Cap-tain David Nation, husband of Mrz Carrie Nation, is about to institute divorce pro-ceedings against his wife unless she re-turns to Medicine Lodge at once, is as false as sin, as he and his wife are in perfect accord. This dispatch contained an inter-view with him where it is alleged that if she went to smashing saloons in Chicago he hoped she would be put in juil and suffer for it—that he took her part and suffer for it—that he took her part and suffer for it—that he took her part and suffer several hundred hard-earned dollars while she was fighting saloons in Wichita, but when she goes out of her sphore ne will have nothing more to do with her should she get into trouble. There are more fakes and falsehoods, in-terviews, etc. emanating from that worst of all whisky places. Wichita, than any other American town, and the whisky jour-nals take them up, publish and circulate and magnify them to accomplish their hellish purposes. Believe nothing on this subject that comes from Wichita, where the officers of the law protect open saloons which they are sworn to suppress. DAVID NATION. which they are sworn to suppress.
