First Week of Lenten Season Frings No Cessation of Gaiety.

Prominent Enshionables Leaving for Winter Resorts of California and the Gulf and Florida

Counts. In spite of the fact that the Lenten calm

world the week past was marked by a greater number of large social affairs than could be boasted by many of the weeks of the winter season when society was privfleged to be as gay as it chose.

Every hour of Monday and Tuesday afternoons and evenings furnished some event of social importance, of which the dinner dance was chief. On Friday all society was in attendance, for charities' sake, at the birthday party of the Visiting Nurses' association-that is, all those who were not at the two large affairs in Kountze place-but from point of elaborate detail Friday evening furnished the event of the winter season, the annual reception and ball of the George Washington club. Since Wednesday a number of the most

prominent fashionables have left town for the winter resorts of California and the gulf and Florida coasts. Next week promises little aside from the club meetings, of which there are to be a

A GOOD DEAL OF NONSENSE

About "Blood Purifiers" and "Tonics." Every drop of blood, every bone, nerve and tissue in the body can be renewed in but one way, and that is, from wholesome food properly digested. There is no other way and the idea that a medicine in itself can purify the blood or supply new tissues, and strong nerves is rediculous and on a par with the fol-de-rol that dyspepsia or indigestion is a germ disease or that other falacy, that a weak stomach which refuses to digest food can be made to do so, by irritating and inflaming the bowels by pills and cathartics.

Stuart's Dyspepsia Tablets cure indigestion, sour stomach, gas or bloating after meals, because they furnish the digestive principles which weak stomachs lack, and unless the deficiency of pepsin and diastase is supplied it is useless to attempt to cure stomach trouble by the use of "tonics" "pills" and "cathartics" which have absolutely no digestive power, and their only effect is to give a temporary stimulation. One grain of the active principle in Stuart's Dyspepsia Tablets will digest 2000 grains of meat, eggs and similar foods and experiments have shown that they will do this in a glass bottle at proper tempera-

ture, but of course are much more effective in the stomach There is probably no remedy so universally used as Stuart's Tablets because it is not only the sick and ailing, but well peo- will probably be present. ple who use them at every meal to insure

The regular use of one or two of them after meals will demonstrate their merit and efficiency better than any other argument.

The cutting of the birthday cake was one of the features of the afternoon, the cake containing a ring, a thimble and a penny, according to the old custom, and in distributing the pieces a plate was used that was a part of the original set presented George Washington by congress. The association realized a generous sum from the birthday bags and the party was a success in every particular.
