IOWA MEET IS CALLED OFF

No Dual Athletic Contest of College and University.

FIRST OMISSION IN SEVERAL YEARS

has to rely largely on the benefits of training for the excellent showings which it has made in the past."

the Grinnell Athletic management believes that the letter and spirit of the dual league has been broken by the action of the university in arranging its schedule so as to make anything but an earlier date with Grinnell impossible. This action on the part of the university management forces Grinnell to refuse to participate.

Manager Swan of Grinnell Athletic
Team Announces the Decision—
He Frames Excuse Over Too
Early Date Left Open.

GRINNELL, Ia. Feb. 23.—(Special Telegram.)—For the first time in several years the dual athletic meet between the University of Iowa and lowa college will not take place this spring. Manager Swan of the Grinnell Athletic team announced the fact definitely today, saying that the decision and been reached over a week ago.

"My decision not to hold the meet this year will be sincerely deplored by friends of the institution, but it has been made in thing its schedule without consulting Grinnell, which on accomplished and attrempt of the content of the University Athletic management in filling its schedule without consulting Grinnell, so as to leave only, the early date for the meet would be especially diagrated the management in filling its schedule without consulting Grinnell, so as to leave only, the early date for the meet would be especially diagrated for the meet for the meet would be especially diagrated for the meet would be especially diagrated for the meet for the meet would be especially diagrated for the meet for the meet for the meet for the meet for

COLLEGE DISPUTES SETTLED

Last year the meet was held May 11, and Conference of Athletic Associations Formed in Chicago to Adjust Western Athletes' Differences.

CHICAGO. Feb. 22.—The Intercollegiate Conference Athletic Association was formed today at the meeting of the college conference. All questions of eligibility of athletes contesting in its annual meets will pass through the hands of its eligibility committee, consisting of three members of faculties of the nine conference colleges. The management of the annual meet will be in the hands of the local managing committee, consisting of alumni of the "big nine."

Constitution.

NEW YORK. Feb. 22.—The national convention of the Intercollegiate Association for Amateur Athletes was in this city at the Fifth Avenue hotel. About forty delegates were present, representing over a dozen colleges and universities. There are a number of institutions in the association that were not represented. Albert G. Mason of Harvard, the retiring president, presided. It was decided that the annual games of the association should be held in New York again this year on the mast Friday and Saturday in May.

The constitution was amended in several important particulars. It was decided that the faculty committee which passes upon the eligibility of candidates for athlette honors should have its jurisdiction contined merely to the question of the candidates scholastic standing. Herstofore such committees have been accuming to pass upon the eligibility of the candidates as amateur.

inducements. The contest will probably be held in St. Louis.

It is to be a catch-as-catch-can struggle, all holds sliewable and pin falls only to count. Two out of three falls will decide the winner, who as to receive the entire purse or percentage of receipts.

Lawson Promotes Yachting.

Howison Gets the Five Hundred. NEW YORK, Feb. 21.—The bi lard match of 1.800 points, 300 points each night, for a purse of 2000 between Leonard Howison of Canada and Gra C. Morningstar of Chicago, which has been in progress this week in this city, was concluded and won tonight by Howison. Morningstar was thirty-nine points behind his opponent when Howison with the Neely bills, Rathbone says: "The statement there made involves another case of suppression amounting to perversion of suppression amounting to perversion.

Diseases

The history of medical practice is replete with the record of dismal failures in the treatment of Diseases Peculiar to Men.

These particular maladies which are inflicted by nature as penalties for the violation of natural law, and follow as the destructive effects of the specific vicious virus NEW YORK, Feb. 23. - (Special Tele- of contagious disease, usually attack some organ or set of organs embraced in the gram.)-The withdrawat of H. H. Rogers Genito-Urinary System, and not only affect the general health, but impair or desirov and Leonard Lewischn, representing the the essential attributes of manhood, often rendering their victims the prey of their own felly and neglect or of misapplied or imperfect treatment.

Upon surveying the medical field at the beginning of my professional career I was struck with the imperfection of ordinary methods of treatment as administered ing its stock from \$65,000,000 to \$100,000,000, for diseases of the urlnary and genitive organs and associate pelvic infirmities, and I is accounted for today, as details of the resolved to evolve a perfect system of cure for the emancipation of men enslaved by

> The results of my labor in the cure of thousands of men of all ages once afflicted with Nervous Debility, Varicocle, Stricture, Prostatic, Disease, Specific Contagious Blood Poison or other special maladies have demonstrated beyond

a shadow of doubt that I have successfully attained my object. The secret of my success lies in the fact that I discovered, developed and peroted original methods of treatment which are distinctly my own and by which I receive from the American company \$25. treat and cure to stay cured the special male maladies without resort to experiment. I was not content until I had successfully adapted every available scientific principle to the cure of disease in my specialty, and it is a matter of particular pride with In reality, according to the terms of the me that I have the unquestioned command of well-tested and reliable methods of contract, the Guggenheims were to secure affording enslaved manhood certain means of escape from the bondage of physical

> This ability I acquired and possess through the agency of the wonderful power of rue modern specialism. My methods are my own and cannot be measured, nor must

Those should apply to me who would obtain immediate cure of special male in rmities without long and tedious experiment with defective, eld-time methods and questionable procedures of those who cannot reasonably lay claim to experience so ust or professional ability so certain and reliable as mine.

NERVOUS DEBILITY

The direct effect of the treatment is to reduce inflammation and enlargement of the prostate gland, to arrest unnatural discharge and to exert a bland, soothing influence on all the organs of the Genito-Urinary System, which is positively curative of the discases and restores the weakened powers of manhood. The character of the tissues in the urinary channel is so thoroughly changed to normal that return of the malady is impossible.

This truly wonderful treatment has been successfully used by many victims of stricture at their own homes without visiting my offices, but a call and examination are always to be preferred when possible.

SPECIALIST IN DISEASES OF MEN,

And Consulting Physician of the State Electro-Medical

Institute, 1308 Farnam Street, Omaha, Neb.

TOLSON.

BLOOD CONTAMINATION—CONTAGIOUS BLOOD DISEASE

The secret of my success in the cure of every form of blood taint was, in the first place, my discovery of means of directing certain remedies to the blood and different tissues of the body which possess the proven property of antagonizing and destroying all organic poisons, which at the same time, are perfectly harmless to normal, healthy tissues. This is why I cure the most obstinate cases of Contagious Blood Poison after all others have failed.

My treatment is followed by beneficial results as long as it is continued, purfying the body in its inmost recesses, improving function and augmenting natural visor.

These who undergo my system of teratment for blood poison never have occasion to apprehend ill after-effects as when their bodies are saturated with mercury, potash and other deleterious drugs and chemicals.

The myriad of Skin Diseases, Scrofulitic and Rheumatic Affections due to specific blood poison, disappear under my treatment with astonishing rapidity. In all stages of its horribic manifestations, my methods are masters of the disease to the degree of perfection unapproached by other means. Vast numbers of men, cured by me in the past, have never noticed the least sign of the monster's reappearance and are today the happy heads of healthy families. They gratefully attest the safety, certainly and permanency of my specific treatment for the cure of those whose systems have been invaded by the virus of the King of Blood Poisons.

PELVIC AND REFLEX MALADIES

I want every man to know that, in keeping with the requirements of my specialty, I qualified myself years ago, in a most thorough manner, to cure the diseases associated with the main maladies which afflict the male. Over all associate and reflex diseases which are present, at the same time, from other causes, or are brought on by the principal infirmity, and over all the countless nervous mastery, and when I have cured the special disease on account of which the patient first ap and when I have cured the special disease on account of which the patient first applies to me. I remove also every other unnatural or morbid condition so as to be able to dismiss every case cured in every particular to stay cured.

I have overlooked nothing and have never spared a dollar that I discovered could be expended in the acquirement of knowledge or equipment which would render my system of treating the DISEASES PECULIAR TO MEN absolutely perfect in werf minor as well as essential particular.

Mine is the absolute rule of candor with regard to the curability of every case.

Incurable ones I do not undertake, my vast experience enabling me to correctly judge. When I assure you that I can master your disease whatever is nature or cause, you may depend upon being cured of your particular infirmity and made physically a man in the truest sense.

TREATMENT BY CORRESPONDENCE.

Most cases can be treated successfully at home. One personal visit is preferred, but if it is impossible or inconvenient for you to call at our office, write us a full and unreserved history of your case, plainly stating your symptoms. Physicians having stubborn cases to treat are cordially invited to consult us. We make no charge for private counsel, and give to each patient a legal contract to hold for our promises. If you cannot call at the Institute today, write. Address all communica-

This unnatural condition is fraught with more or less physical annoyance and suffering and often with great danger to life. It comes on gradually from several causes, the most common of which is the poisonous effect of specific disease which results in the formation of hard, abnormed tissues and stricture-bands in the line of the urinery channel. In advanced cases when the urine is passed with the utimost difficulty, it frequently happens that inflammation and ulceration occur, followed by perforation of the channel walls and the PASSAGE OF POISONOUS URINE AND PUS INTO LIVE FLESH THE CONSEQUENCE OF WHICH IS THE FORMATION OF FALSE URINARY CANALS OR FISTULAS: For this destructive disease I use a certain solvent, curative treatment known to me, which, when applied to the urinary channel, dissolves and removes all unnatural tissues and leaves the brethral canal perfectly free for the escape of urine from the bladder in an easy and natural manner. CHOCTAW AND CHICKASAW Senate Receives Amended Treaty Further Regulating Affairs on Their Reservations.

WASHINGTON, Feb., 23 .- The secretary of the interior today transmitted to the senate an amended treaty between the Dawes Indian commission, on behalf of the United States, and the Choctaw and Chick-

asaw Indians.

The agreement provides that no child born to any citizen or freelman of either of those nations after September 1, 1901, nor any white person who intermarries with a Choctaw or Chickasaw woman after dressed to the workingmen of Porto Rico, that date shall be entitled to enrollment and that no person whose name appears upon the rolls as a citizen or freedman of any other tribe shall be enrolled as either a Choctaw or Chickssaw citizen or freedman. The treaty also gives authority to either the Choctaws or the Chickasaws to institute legal action to annul the proceedings of the United States courts in admiting persons to citizenship in those tribes under the law of 1896 without due notice. Jurisdiction is given to the United States court for the southern district of Indian Territory to hear such cases and appeal

The rolls of the members of the tribes as made by the Dawes commission are to constitute their final rolls when approved by the secretary of the interior and upon them the allotments of land and the distribution of tribal property is to be made. Miss'ssippi Choctaws settling in the Choctaw-Chickasaw country before September 1 next are to be enrolled. The controversy over the rights of Chickasaw freedmen in referred to the court of claims. The agreement ratifies the townsite law of May 31.
