ROME, March 2.-During the reception on the occasion of the anniversary of the birth and coronation of the pope his holiness today made an address, in the course of which he said: "It is one of God's acts of benevolence that, enfeebed by age and fatigues, we do not succumb amidst the difficulties which still come to place obstacles before the free exercise of action by the church. The Doctor She Wanted.

Intelligent women are always doing bright things, and Mrs. A. A. Libby, a competent nurse at Pownal, Me., did a bright thing, and did it in a bright way, when she sent for the doctor she wanted. It all came about in this wise:

Early last winter she was stricken down with the grip, which left her very weak and without appetite.

The sight of food nauseated her.

A lady with whom she was stopping, realizing that it is almost as hazardous, to. neglect the effects of the grip as the disease itself-the effects commonly being a low, vitiated condition of the blood, impaired digestion, loss of appetite and strength and 'ncreased susceptibility to dis-

ease-said she must have a doctor. "I asked the lady," said Mrs. Libby, March 7th, 190c, "if she would get the doctor I wanted. She said she would, and I asked her to go and get a bottle of Hood's Sarsaparilla. She laughed at such an unexpected turn, but got the medicine and I began taking it. My appetite came back, I began to grow strong, and now I am well and have not had a bad cold this winter."

But there is more to be said. Some time previously Mrs. Libby had taken Hood's Sarsaparilla for catarfh, and Baltimore, 89; F. S. Parmelce, Omaha, 86; headache, by which she had been greatly J. J. Hallowell, Philadelphia, 86; J. S. Fan-

Hood's Sarsaparilla is the medicine that acts directly and peculiarly on the blood, ridding it of all impurities and making it rich and abundant, and is positively unequaled for renovating and building up the whole system, curing all scrofulous diseases, catarrh, dyspepsia, kidney complaint, and restoring health and strength after the grip, pneumonia and all prostrating or debilitating sicknesses, also after scarlet fever, diphtheria, and other blood poisoning

Don't fail to take Hood's Sarsaparilla. It will surely do you good.

POPE WARNS OF DANGERS other iniquitous means are exercised freely CONVENTION STILL WORKING

After explaining the situation of civilization he eulogized those who had acquired importance in the propagation of Christian civilization. "By such importance Catholic France, said the pope, 'is more than ever rich and justly proud. However, she is actually

menaced on this account by grave dangers This, indeed, might be a misfortune and a calamity to the interests of religion and the country if the tempest which threatens to disperse such serious efforts and such fine hopes does not turn aside." The pope invoked the aid of God to this

end. He accused especially the evil sects which are unanimous in combating Cathclic institutions in order finally to destroy them, if that is possible. He does not, however, fear for the church, which is strong in divine promises, and even draws therefrom a virtue and a new glory. His holiness eulogized Catholics in the entire world, who are tractable in reverencing the church. His chief regret was the blindness of certain men and he asked with bitterness what would become of future operations if inspired by such principles. which are a bad omen. His holiness reaffirmed the imprescriptible rights of the spostolic see, "of which the pope is not the arbiter, but a trustee or guardian,

whose duties are sacred." Alluding to his last encyclical he said he judged it opportune to declare that the best means of being useful is to watch over that which is inestimable to God, which is harmony in all classes.

Witnesses in Trial of Alleged Wife Murderer at Pekin Rebut Defense's Claim.

PEKIN, 111., March 2.-After having been on trial for exactly three weeks the evidence in the case against Sam Moser, charged with the murder of his wife and three small boys, was concluded at 4:45 o'clock this afternoon, when court adjourned to Monday, at which time the arguments will be made. The probability is that the case will go to the jury by Monday night. The entire day was devoted to rebuttal testimony on behalf of the state. Dr. William E. Schenck and Dr. A. R. Warren, both of them practicing physicians for many years in Pekin, qualified as experts and gave it as their opinion that the defendant was sane and responsible at the time he committed the crime. One of their arguments in favor of the claim of sanity was Moser's escape and his movements

subsequent to the crime. A number of neighbors of Moser, persons who had known him for a number of years. were placed on the stand and all testified they considered him perfectly rational. Lizzie Witzeg, a niece of Rev. Rudolph Witzeg, pastor of the New Amish church, testified that she had worked for Morer and that she considered him sane. Three brothers-in-law of the defendant

held him responsible. The last witness was Mrs. Herman Stoller, sister of the murdered woman, who I am not obliged to go to bed, but go to testified to Moser's sanity. The evidence today was devoid of sensational incidents, though large crowds were present the entire day. ar Office Gains Confidence in Eventunt Triumph of His Methods-Botha's Surrender is a Topte for House of Commons.

LONDON, March 2.- The war in South Africa has again reached a stage which the British newspaper critics are pleased to call the eve of the termination. The rumors of the surrender of General Botha and the collapse of all Boer resistance flourish, to the great benefit of South Afri-

That those who are most responsible for carrying on the war do not share this op-timism is perfectly evident from Mr. Broderick's official utterances and the conversation of his colleagues, including Lord Roberts. Their carefully prepared campaign of thorough organization, which has been maturing during the last six months, is beginning to have its first results and they are perfectly satisfied. The new concentration of troops referred to so enigmatically by the correspondents at the front is only one of the many steps for which General Kitchener has so long been preparing.

That it will lead to the complete disin-

tegration of the more important Boer units and, possibly, to the personal surrender of Generals Botha and Dewet, the British War office earnestly hopes. But it does not go so far as to expect it. General Kitchener is almost as reticent toward his chiefs in Pall Mall as to the general public. When he has taken General Botha into his camp the War office expects to hear of it, but not before. As an official said to a representative of the Associated Press grimly "Armistices are not in Kitchener's line."

Significance of Their Meeting. The meeting of General Kitchener and Sir Alfred Milner at Pretoria, probably occurring Sunday, is generally taken as likely to result in the establishment of a more permanent civil government, in which the severeities of martial law will be somewhat tempered in several sections of the country. But neither in London nor in South Africa are the British officials shutting their eyes to the fact that they have a long job ahead of them, which can only be lightened and by no means solved through the victories over the Boer units.

The glory which the British press some time ago showered on General Dewet has departed from him. In dispatches and editorials he is now belittled as a disappointed raider, deserted by his own men and venting his anger by jambocking his reluctant handful of followers. Officers who have returned from the front are inclined to fear that the clusive Boer leader is merely under a temporary cloud, from which ne may be expected at any moment to emerge, accompanied by a force which, though not formidable in numbers, will be particularly formidable in execution.

The false announcement of General Botha's surrender Thursday will be a matter for discussion in the House of Commons, especially the fact which accompanied the assertion that it was official. This latest "fake" has given rise to many editorials commenting on the deterioration and unreliability of sections of the British press, comparing the latest example with the notorious Pekin massacre reports.

REBEL ACTIVITY INCREASING

Engagement Occurs Near Colon, Republic of Colombia, in Which Insurgents Are Defeated.

KINGSTON, Jamaica, March 2.-Further reports concerning the revolution in Colombia received here by the steamer Louisiana from Colon are to the effect that rebel activity throughout that country, and especially around Colon, is increasing. An engagement occurred at Cispata (Maria la Baja), near Colon, last week, when the attacking rebels fought persistently, but were ultimately driven off with heavy losses by the government forces, who were numerically superior and also lost heavily.

Stagnation of business has resulted and the rate of exchange is nearly 1,200. The government is hampered on all sides and the rebel chances of success are increasing. It is rumored that the British admiral has approved the scheme of building a big naval dock at Port Royal.

Charles D. Smith of the First regiment clipped two seconds off the world's record in the 440-yard run, with E. S. Merrill of Beloit at his heels at the tape. Smith's time was 0:53 2-5.

In the shot-put, J. W. Eggman of Notre Dame university easily outclassed the rest of the field with a throw of forty feet three inches.

W. M. Moran of the First regiment won the 880-yard run in 2:04 4-5, after an exciting finish with H. H. Lord of Chicago. Joe Bredsteen of Wisconsin established record of 10:15 3-5 for the new indoor wo-mile event of the Central association. In the seventy-five-yard low hurdle, Mc-Lean turned the tables on Maloney, winning easily in \$3-5 seconds and clipping onefifth of a second off the indoor record. Frank A. "Appendicitis is but localization of the Grip affecting the intestines, and often the appendix itself; the symptoms of Grip and Appendicitis are coincident." This statement was made by Dr. Lucas

He says: "My kidneys troubled me a great deal, my bowels were very irregular; I had great distress in my stomach; suffered with hillous headaches, had no appetite, could not sleep and was losing fiesh rapidly. I began to take Cramer's. I am now of my third bottle and it is doing wenders for me. My kidneys are better, my bowels are again regular; my stomach no longer troubles me and no more headaches, and as for appetite, don't speak of it; I sleep like a top and have gained thirteen pounds. You can count on me always to recommend Cramer's as the king of medicines."
