Movements in Union Pac fic Affairs Lend New Encouragement.

MERGING OF CENTRAL PACIFIC MEANS MUCH

Notables of the System Are Now in the West on Official Business-Posttion of the Burlington Route.

The merging of the Central Pacific into the organization of the Union Pacific, as outlined in a dispatch to The Bee from Salt Lake City yesterday morning, is regarded by railroad men who have been watching the as the most probable solution of the union | here today and will be taken to the home of

by the Harriman syndicate. this city left here Sunday morning, when of the services. it was stated that a meeting in Salt Lake City was one of the objects of the crip, and tal March 28 are significant when taken in offices in that city, the preceding January connection with ea h other.

#### Looks Good for Omaha.

That a move of this kind should be made, It is asserted, is the most natural sequence to the events that have gone before. new deal will give the Union Pacific a trunk line from Omaha to San Francisco. with Omaha as the headquarters and the base for the direction of the operations. This is taken to mean much for this city and increases the benefits which the city will derive from the new deal.

In the same connection comes the report from Sacramento of the suspension of 200 men in the Southern Pacific shops at the end of last week's work. The newspapers of that city have taken the action to be a possible fererunner of the entire removal of the shops from that place because of the merging of the Central Pacific with the Union Pacific. This has been the skelcton in the closet to the Sacramento people for years and every time there is a reduction in the force in the shops it has been taken as an indication that the shops are to be abandoned there. Officials of the road, however, have explained that the company has been doing work for the Pullman company which has now gone to the new Pullman stops at Denver and that this is but

a 200 cut in a force of 2,900. The Union Pacific at the present time has about all it can care for in the way of shop work. The largest building shop is at Cheyenne, while some work of that nature is done here and in Laramie. An official of the company in discussing the matter the other day said that the work is being cared for now in the several shops and the building of the new shops here was referred to not as a matter of immediate growth. This points in the same direction as the Salt Lake dispatch, that the Union Pacific will soon extend to the Pacific coast, including what is now known as the Central Pacific and that the business of the road will be greatly increased, need-

ing more attention for the rolling stock. The dispatch from Salt Lake suggests the possibility of also merging the Oregon Short Line and the Oregon Railway and Navigation company into the new Union Pacific organization. This would give the road a line to the northwest, which is now working

## Position of the Burlington.

One of the most interesting features of the whole deal is the position of the other roads, and chief among them stands the Burlington. A Wall street correspondent for a western paper stated positively last Saturday that the Burlington would not build its proposed Salt Lake extension. What his authority for such a statement was he did not state, but the men watching the turn of events in this section of the country claim to see a different view of affairs. The indications have been that the Union Pacific and the Central Pacific are coming into closer relations and naturally

## PERSONALS.

Mrs. E. P. Green has recovered from an attack of the grip at Canaseraga, N. Y., by the use of Dr. Miles' Pain Pills.

Among the victims of the grip epidemic now so prevalent, F. Coyle is now recovering at Canton, O., by the use of Dr. Miles Nervine and Pills.

W. E. Nihells of St. Louis, Mo., who was down with grip, is reported much improved. He used Dr. Miles' Nervine and Pills.

The friends of Mrs. L. Denison will be pleased to learn of her recovery from grip at her home in Bay City, Mich., through the use of Dr. Miles' Nervine and Pills.

Everybody says that J. W. Udy is looking splendid since his recovery from the grip at his home in Des Moines, Ia. They all know that Dr. Miles' Nervine was what

Prosecuting Attorney Charles L. De Waele, who has passed the three-score milestone, had a time with the grip, but when seen at his home in Roscommon Mich., the other day he said Dr. Miles' Nervine was what cured him.

At nearly three score and ten Mrs. Galen Humphrey was fighting against odds when the grip attacked her, but she took Dr. Miles' Nervine and now her neighbors in Wareham, Mass., remark on how well she

After an illness of five weeks from the grip Mrs. Harriet Jackson is again about and looking fine. She began taking Dr. Miles' Nervine after the fourth week. Her home is in Bowling Green, Mo.

LOOKS BRIGHT FOR OMAHA under such an arrangement more busines would be diverted to the Union Pacific. An Omaha man seemed to strike the ke note yesterday when he said: "The mo ment the Union Pacific closes up the Ogden gateway the Burlington will commence to lay those tracks as fast as it can.' expected here that the Burlington will build west this summer and this is strengthened by the reports of the reorganization of the

### DEATH OF MRS. HUNTOON Wife of Pacific Express Official Expires Suddenly in St.

Louis.

Mrs. Helen Huntoon, aged 57 years, wife of Sylvester A. Huntoon, purchasing agent for the Pacific Express company, died yesterday in St. Louis from heart disease, with which she has been afflicted for more kale doscopic changes in the ratiroad deals than two years. The remains will arrive of the two roads under the recent purchase Mrs. Huntoon's sister, Mrs. George Tilden, 124 South Nineteenth street, where the fu-The fact that Judge W. R. ## DECIDE ON ELECTRIC LINE QUESTION

Executive Committee of Commercial Club Advises Commissioners.

. C. SHARP AND LABOR UNIONS OF OMAHA

Machinist States that He is Being Driven from Town by Persecution-Match Pactory is

The executive committee of the Omaha immercial club has at last decided upon what it believes to be right in the matter of the franchise to be granted by the county build a line of electric railroad between Omaha and Fremont. The question has been before a special committee of the executive committee for several weeks and the report of that committee was adopted at the meeting yesterday afternoon.

The committee reported that it was unalterably opposed to granting a franchise in that he was in good health before he would perpetuity and believed that the extreme limit should be fifty years. It also favored a bond to be given to enforce the payment the insurance. The demand was refused for all claims for damages by reason of building the road by the company and that the franchise should be forfeited to the county in case the road is not operated within a specified time; that the right of the company to use the highways for road purposes should be limited to the time in which they operate a line between Omaha question has never been brought directly and Fremont. It recommends that the franchise be drawn carefully so that no provision shall be left to inference or double construction, and that maximum rates for the transportation of passengers and freight shall be fixed by the commissioners.

Must Look After Bridges.

Its final recommendation is that the company shall be required to pay all expenses of building and repairing county bridges used by it along the line of travel. As this report was signed by every member of the committee and John S. Knox, one of the committeemen, is one of the promoters of the proposed line, it is believed that the company will accept the conditions recommended by the executive committee, and it is probable that the matter will be brought before the county commissioners disposition

Considerable interest was manifested in Creighton college has perfected plans for a communication from L. C. Sharp, a member of the Commercial club, on the subject the block where it has recently completed of the treatment accorded him by the Censimilar structures. The building is esti- tral Labor union. In his communication he mated to cost \$8,000 and will be completed stated that being unable to sign the scale forthwith. Plans for the erection of a row of the Machinists' union his shop had been declared unfair by the machinists and the by Dr. W. C. Upjohn have been completed boycott had been indorsed by the Central and work on the building will begin this Labor union; that these bodies had so interfered with his workmen and his busines Morris Hussey has let the contract for the that he had decided to move his shop from Omaha to some place where the proprietor of an establishment can conduct it without Architects say that the next thirty days interference from unions, which he dewill determine the fate of plans for the nounced in scathing terms. The subject was referred to a committee consisting of John Steel, John S. Knox and H. J. Penfold

A committee from the Ancient Order of United Workmen lodges of the city appeared before the committee to interest the club in the proposed removal of the state grand lodge of the order to Omaha. The matter was referred to a committee consisting of C. G. Pearse, R. C. Peters street. and Mr. Smith for consideration and investigation.

# Life Assurance

# For Women.

Life insurance as managed to-day, on the endowment plan, for instance is at once an assurance and insurance It is best means of saving, because it is compulsory. Men have found this to be the case, and women should. At thirty, for instance, she can, for about fifty dollars a year, take a twenty-year endowment policy of one thousand dollars, which guarantees her that amount when she reaches the age of fifty. She will not feel burdened by the annual premium of fifty dollars. But she will feel the comfort of a thousand dollars when she is fifty. A woman's assurance for the education of her children is another factor of life assurance worthy of her thought, especially if she be a widow. In this way a mother may provide for the education of her children in case of her death. If the custom of mothers assuring their lives for their children at the time of their children's birth could become more general it would be one of the blessings of mankind. When the matter of life assurance for women is placed on a basis of self protection in old age. for the benefit of children, or as one of the best means of saving money, or even as a wise system of investment, there cannot be the least question of
