ADMITS FIRING THE FATAL SHOT

Claims He Forced Darrell Into Saloon at the Point of His Pistol and That the Prisoner Did No. Violence Willingly.

strong evidence introduced Jesterday afterucon, tending to snow the part William Darrell took in the murder and robbery of Herman Zahu, have made some changes Today he is nervous, restless and uneasy, only sitting still a few minutes at a time. The first witness for the defense was Wilhard Fronning. He said he was in Kingbaum's place when the shooting occurred and that he came out on the street and Phoa in front of Zahn's place with a gun in his hand.

Mrs. Darrell, wife of the defendant, was next called. She is a black-baired, palethat her husband was not a drinking man, but went on occasional sprees lasting several days. On cross-examination by Mr. Stinson it appeared that she had considerable experience in the matrimonial line. She was married to defendant after a brief courtship at Yankton, S. D., January 2, nomination she could not remember. Her first husband was living somewhere in having, as she had learned, obtained a divorce from her. She never knew her husband was in the habit of calling on the inmates of the Williams establishment at Crowell. They moved to Norfolk, Neb., July 26, 1500, and she had lived there with her husband until his arrest.

Darrell on the Stand.

"William Darrell," called Mr. Button. The defendant walked to the witness stand drinking in Kingbaum's and Zahn's saloon with a firm step. His face wore an eager, about 8:30 the night of January 9. Returning he found that Bullis had left Armstrong's for Snyder and he for some time and was quite intimate with Rhen and Gardner.

Whisky, Beer and Dice.

The first thing the three did after reaching Snyder was to drink a couple of hot whiskys apiece in Kingbaum's saloon. They then drank some beer in Zahn's saloon They shock dice, drank beer, ate a lunch, drank more beer and shook dice again, until about 8 o'clock, in the language of the "We was considerably the worse for liquor, we three, and most all in the room." He didn't remember having had a and after he was struck he fired at parties

He came out of the saloon and started south for the hotel and was about opposite ner till about 1 o'clock in the morning, Kingbaum's place, perhaps twenty feet west when he came and woke up witness, who of Zahn's saloon, when his attention was was lying beside the road between Crowell language. He looked around and saw that there was some trouble between Orley and Gardner. They were all bunched up together and all went into the saloon together, and he was very positive that he

ALARMING MORTALITY,

Noticeable Among the Weak and Ailing.

Spring the Time Death Reaps Its Largest Harvest.

There is a Way of Eluding the Grim Destroyer.

Every Spring it is noticeable how many people are taken away that we have been accustomed to see in our daily life. Statistics show that at no other season of

Statistics show that at no other season of the year does so many deaths occur.

Especially large is the mortality among weak and sick people.

The reason for this is apparent. The body that is weakened by age or disease has much to contend with during the Winter months. Insufficient exercise frequently has been taken. Too much starchy and fatty foods have been eaten. The system has been allowed to become run down, and when Spring comes with its bright, sunshiny days, clier people will begin to realize that their vitality has become very low. The same thing is true of people who are naturally sickly and weak. sickly and weak

This is the season of the year when even a strong person feels at his worst. That tired, restless feeling is experienced by too many. There need not be as many deaths this year as usually take place. A little care will ward off many Spring funerals. If one is weak or siling they should take time by the forelock and take Dr. Greene's Nervura blood and nerve remedy. This great medicine has been in many cases, and will continue to be, the means by which the black angel of Death has been driven from the threshold. It dispels the grim destroyer in a scientific way for it purifies the blood and gives strength and vitality to the nerves. It tones up and restores to a healthy condition all of the great life-giving organs of the body.

great life-giving organs of the body.

Dr. Greene's Nervura blood and nerve remedy will enable those who take it to throw off little ill that prove dangerous only when they attack a system already wasted and weakened.

and weakened.

From many people, who have experienced benefit from this greatest of all life-lengtheners, comes the following from the famous General Longstreet of 1217 New Hampshire Ave., Washington, D. C. He says:

"It gives me great pleasure to add my testimony with many others for Dr. Greene's Remedy, which I have used with highly benefical results, and I am able to recommend its virtues from experience. I have used it for catarrh sud have derived help."

Mr. Wellington Hynes, Elizabethtown, Mr. Wellington Hynes, Elizabethtown,

N. Y., writes:

"I feel it my duty to tell how much good Dr. Greene's Nervura has done me. I was so run down that I could not sleep at night and everything worried me. I had no appetite and could not work, my head ached all the time and there was an all gone feeling in my stomach, and I was always looking on the dark side of everything. I began to take Dr. Greene's Nervura blood and nerve remedy and in less than three weeks I felt like a new man. I can now do as much work as is expected of a man my age. I advise anyone who is troubled to take Dr. Greene's Nervura. Do not go to a doctor but get a bottle of Dr. Greene's Nervura. It is cheaper than a doctor's bill."

doctor's bill."

The latter part of Mr. Hynes's advice might be profitably disregarded, however, if you should feel you would like the advice of a physician. You can have such advice and have it free if you will write or call on the greatest known blood and nerve specialist, Dr. Greene, 35 W. 14th St., New York City.

Convict Rhea for the Defense.

The court room was crowded this afternoon and there was a suppressed excitement as William Rhea, the man whose punishment has been fixed at death for the murder of Herman Zahn, took his seat in the witness chair. In answer to questions by Mr. Button, he told of his coming to Snyder with Gardner and Darrell, of their "You git!" and the whole crowd went into the salon together. Darrell was there and witness said to him: "You git "Zahn came running up toward me with his fists like this (holding his fists doubled side and he dropped to the floor."

Gardner Did No Shooting.

He did not know anything about Zahn's watch, but he swore positively that Gardner left by the front door and did none of the shooting out in the street. He said that outside. He left the saloon by the front and Snyder, asleep. The two men went down to the bridge across the Elkhorn and stayed there until morning, then to the Williams place. Much of his testimony was given in a cold, mechanical way. He told how he shot Zahn in a cool, uncon-
