Speculation Has Been Irregular in Its Tradencies During the Week.
 NEW YORK, March S. — Bradstreet's Financial Review tomorrow will say:
 Although not a little strength was shown in the movement of prices speculation has been tregular in its tendencies throughout the week. The so-called steel deal has been the topic which received the greatest amount of attention in Wall street, but the greatest interest in the matter took the form of a discussion of its general terms and probable effects, rather than any marked disposition to operate either in the shares of the United States Steel Corpora-tion or those of its prospective constituent companies. The activity of the market, in fact, was shown in other parts of the list and advances in this quarter contributed to-pace in Union Pacific, Atchison and the Pacific securities. The grangers also had their share of attention Ruellage strength with and advances in the guarter contributed to-pace in Union Pacific, Atchison and the Pacific securities. The grangers also had their share of attention is usington being a strong feature, on reports of a deal of some the coal region are apprehended.
 Ward there was fear that labor troubles in the coal region are apprehended.
 Wardous specialities also assumed promi-mence, the most conspleuous movement of this kind being in Amaismanted Copper per mining and legislative situation in Mou-tans, where the company is chief interests are centered. The New York local gas stocks also had large advances on favorable intimations. Some bullish interest was dia-played in the Traction securities and more or less activity developed in Sugar and other industrials.
 I. I. S. W. Some bullish interest was dia-stocks were dull, though firm, and the only tendency shown in them was a moderate improvement based on the idea that the majority interests in the various companies will accept the terms offered them and that the new stocks of the pri-terend, which represent their
