

WILL NOT TAKE PRISONERS

Iowa Board of Control Reverses Decision Concerning Nebraska Convicts

MILITARY EXAMINATIONS ARE STRICT

Death of Des Moines College Man—Macebees to Have State Convention—Farmer Gets Eighteen Months for Paricide.

DES MOINES, March 9.—(Special.)—The State Board of Control, having charge of the various state institutions, this afternoon reached a final decision in the matter of affording temporary quarters for some of the convicts held homeless by the burning of the penitentiary at Lincoln. The board has reconsidered its former decision and will not accept any of the convicts. This is done because the board desired not to set a precedent which would be troublesome and which would bring upon the board much criticism.

While the board reached the conclusion that it has the undoubted right to make a contract for caring for Nebraska prisoners, it would not be good policy to do so. It would necessitate an increase of the guards and attendants at the Iowa penitentiaries and there is no provision for this. The whole proceeding would be irregular and would certainly subject the board to criticism, inasmuch as there are many who are seeking an opportunity to criticize the board for various reasons. The Nebraska authorities have been notified of this decision. It was also learned that there is a probability that Nebraska will not care to send the prisoners out of the state.

The board of control has employed Prof. W. H. Patterson of the chair of sociology in the Iowa State university to prepare the statistical tables for the annual report of the board to the legislature. He was employed for this work last year.

Military Examination.

The military board which examined the first class of elected officers in Grand companies for recommendations as to commissioning them, made a report today, but refused to give out the names of those who passed and those who did not. There were ten in the class, six passed and four failed. The names of those who passed were: Fred W. H. Patterson, George W. Bell, John A. M. Cooper, and one who was conditionally passed. The names of those who failed were: Fred W. H. Patterson, George W. Bell, John A. M. Cooper, and one who was conditionally passed. The names of those who passed were: Fred W. H. Patterson, George W. Bell, John A. M. Cooper, and one who was conditionally passed.

Shorten Routes to Chicago.

Two important railroad extensions in the western part of Iowa appear to be more than probable. The Burlington, which has in contemplation a new line from Mount Pleasant, through Muscatine to Davenport, for the purpose of making a shorter route from Omaha to Chicago than at present. It is said that the construction of this line would give the Burlington a half-hour shorter run for the fast mail train. The Milwaukee also proposes the construction of a short line between Ottumwa and Davenport to shorten its route from Kansas City to Chicago materially.

Death of College Man.

Prof. J. M. Mohan, for many years the president of the Capital City Commercial college in this city and known in the state as a leading educator, died at a sanitarium in this city today, after an illness of nearly six months. He was also a newspaper man and correspondent for a number of newspapers in the state.

Miners Agree on Wage Scale.

The joint conference of miners and mine operators at Ottumwa came to a close this afternoon and resulted in an agreement on the wage scale. The last matter to be considered was the price of coal to miners for their own use, and this was left for another year, at cost, and also the wage for hoisting engineers, etc. The conference was devoted entirely to consideration of minor matters, as it had been evident all week that an agreement would be comparatively easy on the main points to be settled.

Iowa Macebees to Meet.

The Iowa Macebees hold a state convention in Des Moines next week, beginning Thursday, and it is expected there will be 200 or 300 delegates here. The order has been growing rapidly in Iowa the past few years and now numbers about 100 in the state. There are two active candidates for state commander and several for the minor offices. The candidates for state commander are J. M. Eberlin of Des Moines and E. A. Wooley of Marshalltown. The former is temporarily filling the position of state commander by appointment and the latter has been state representative for several years. There are four candidates for representative: C. C. Wooley, Council Bluffs; F. W. Marshall, Sioux City; Paul Steinmetz, Muscatine; and F. T. Lynch, Ottumwa.

Was a Farmer That Was Killed.

The name of the man who was killed yesterday morning on the Northwest railroad between Des Moines and Ames was Aaron Steffy, a farmer living in Story county. Mr. Steffy was walking down the track intending to visit his brother-in-law, Henry Steffy, who lives near the town of Key. He had just sold a lot of mules and intended going to Oklahoma to look for a location. He leaves a wife and ten children. Judge Church in the district court at

HOUSE REJECTS SENATE AMENDMENTS

Usual Horseplay of Legislative Closing Night Carries the Session Over Into the Early Morning Hours.

PIERRE, S. D., March 9.—(Special Telegram.)—The usual horseplay of a closing night was carried on last night while waiting for bills to be engrossed and the conference on the apportionment bill to report. The report was ready and ready to be reported this morning, and a bill reported back it was changed to a call for forty-five senators and ninety-eight representatives. The senate after a short discussion shut off by the previous question adopted the report by a vote of 27 to 17. The report then went to the house, where it was rejected, 46 to 29. An attempt at reconsideration was made on the part of other members of the house anti-combine, but before the roll call Health moved adjournment without day. The session of the state will work under the old apportionment until the next session.

PROHIBITS RUM AND DEBT

Great Western Orders Employees to Be Abstemious and Pay Their Bills.

DEBUQUE, Ia., March 9.—(Special Telegram.)—The superintendent of the Chicago Great Western Railway company has issued a sweeping order to employees which has caused a sensation. In effect it prohibits them from using intoxicating liquor, whether on or off duty, and the penalty for any violation of this rule is the immediate discharge of the offender. The order also commands all employees to pay their honest debts and any failure to do so will cause their immediate discharge unless a reasonable excuse can be given.

Des Moines to Muscatine.

GRINNELL, Mo., March 9.—(Special Telegram.)—The Des Moines, Iowa City & Eastern Railway association, which proposes to build a railroad from Des Moines to Muscatine, via Iowa City, was formed here today with these officers: President, George W. Bell of Iowa City; vice president, A. F. Reynolds of Montezuma; second vice president, Miles Ward of Des Moines; secretary, A. C. Star of Des Moines; treasurer and general manager, D. B. Lyons of Des Moines.

CONSUETO SNUBS MONACO

Duchess Does Not Like His Trade and Uses Plain Language in Rejecting His Courtship.

PARIS, March 9.—(New York World Cablegram—Special Telegram.)—The young duchess of Marlborough, who, after passing a few days at her home in Paris, joined the W. K. Vanderbilt party at Monte Carlo, has just created an enormous sensation by snubbing the prince of Monaco with such severity that even Consuelo's most fervent admirers feel compelled to blame her mildly. The prince, whose yacht was detained at Marseilles by the great strike of dock hands, telegraphed to Monte Carlo asking the women managers to postpone the charity fair two days, because he wished to attend the opening. Learning that the young duchess had arrived, he also telegraphed her, requesting that she would accept his yacht and attend supper the same night aboard his yacht, the Princess Alice. The duchess did not deign to answer personally, but sent out regrets through her secretary. As soon as he reached Monaco the little autocrat demanded explanations through the secretary of Consuelo's friendly of both parties. Consuelo answered bravely: "Tell him that, prince though he is, there are some people who object to associate with a gambling hell keeper."

EMPEROR IS OUT OF DANGER

Unfortunate in Receiving Wound on Same Side of Face as His Delicate Ear.

BERLIN, March 9.—(New York World Cablegram—Special Telegram.)—The emperor is now out of danger. The wound itself was not serious, but by an unfortunate fatality he received it on the same side of face as his delicate ear. The doctors feared inflammation might affect the ear passages, in which event the consequences might easily be of the gravest character. This danger is now believed to have passed, but until the chances of inflammation had gone it was a very anxious time for the emperor. Not satisfied with the epileptic explanation of Wieland's act, he has ordered the exclusive control of the emperor's movements, companions and influences, believing he may have been instigated to the act by an anarchist playing on his weak intellect.

Receives Policeman's Language.

I suddenly awakened in a consciousness, my hold loosened and I was lifted bodily. The same moment one policeman gave my right leg a violent shake and another, in a similar expression, I let out and gave him a hard kick in the chest and if they had not part of the support of the bench behind the whole convoy would have toppled on the floor. That was the only act of violence on my part. I was then borne by eight or ten of them into the members lobby, where they were glad enough to put me on my feet, as they were gasping for breath. They all had their heavy overcoats on. I was then led to the cloak room.

Fight in Gladstone's Day.

Alderman Cream also played a notable part in the famous free fight in the House of Commons, when Gladstone closed the Tories on the home rule bill in 1883. Colonel Sanderson hit out at Cream, who countered with a sharp blow on the colonel's jaw, which not only sufficed for him, but prevented him from being able to talk for a week. John Dillon, M. P., ex-chairman of the Irish party, has given the world the following statement on the effect on the Irish party of the new penal rules: This rule will not silence us. Our policy is one of vigilant activity and has already been shown in the House of Commons. The government is on the defensive, we are on the offensive. We are not deterred by the new rule because it enabled us to explain to the world our policy and under which our men acted and also enabled us to explain to the world that only Irish members defy the charge that they are in 1883 twenty English Tories on the home rule bill did not speak a word.

VARICOCELE AND ITS NEW CURE

Whatsoever may be the cause of Varicocele, its injurious effect is well known.

Whatever may be the cause of Varicocele, its injurious effect is well known. It depresses the mind, weakens the body, disturbs the nervous system and ultimately leads to a complete loss of sexual power. If you are a victim of this dire disease you should remember that you are not alone. I will tell you so frankly, and show you how to get rid of it. My special treatment for Contagious Blood Poison is practically the result of my life, and I will quickly subvert your mind. But if your constitution is infected with syphilitic virus I will tell you so frankly, and show you how to get rid of it. My special treatment for Contagious Blood Poison is practically the result of my life, and I will quickly subvert your mind.

CONTAGIOUS BLOOD POISON

STRICTURE PAINLESSLY REMOVED

IMMENSE IRRIGATION CANAL

To Be Sixty-Five Miles in Length—Backed by Omaha Capitalists.

CODY, Wyo., March 9.—(Special.)—Work has commenced on an immense irrigation canal, in Big Horn county, the water to be taken from the Shoshone river near Ishawood. The ditch will run in an easterly direction down the river to the German branch north of Gardiner. The canal will be sixty-five miles in length. The enterprise is backed by Omaha capitalists.

New Police Examiner.

HIRON, S. D., March 9.—(Special.)—The office of public examiner has been turned over by General Maris Taylor of this city to his successor, Hon. H. N. Cooper of Canton, who is now here preparing to transfer the office to Canton.

IRISH STRUGGLES IN COMMONS

Alderman Cream and John Dillon Tell of the Effect on Their Party.

LONDON, March 9.—(New York World Cablegram—Special Telegram.)—Alderman Eugene Cream, member of Parliament for Southport, and John Dillon, member of Parliament for Cork, who were expelled from the House of Commons by the police. He has written for the World the following account of his surprising struggle last Wednesday morning against tremendous odds: The first intention of the police was to begin with Michael Flavin, but he was a formidable looking fellow and they left him in the middle of the bench, whereas I was thin, weak looking and sitting in a corner seat, they returned to me. I was then struck by a policeman, who was sitting on the bench in front of me, while I firmly grasped the seat with both hands. I was determined not to go while my strength lasted.

WOMAN'S CASTLE OF DEATH

She Imports So Many Consumptives that the Wrath of the Town is Aroused.

PARIS, March 9.—(New York World Cablegram—Special Telegram.)—The people of the thriving, busy town of Limoges, where is shipped much of the finest lace in the world, are so angry at the importation of arms against Mile. de Noulhier, one of the most beautiful aristocrats of France. With this fair patrician charity has become a mania and she sympathizes with the town it impelled. She has been the heart of the town and there she takes by hundreds patients in the last stages of tuberculosis. They are cared for and finally buried gratis. The town people call Mile. de Noulhier's home "the Castle of Death."

GUESTS OF THE AMBASSADOR

Americans in Paris Have in Brisk Social Work a Wonderful Voice Discovered.

PARIS, March 9.—(New York World Cablegram—Special Telegram.)—Despite the fact that many Americans are leaving daily for the winter resorts in Italy and south France, the colony had a brisk social week. The American embassy receptions, discontinued since New Year's, were resumed brilliantly Monday. General Porter's magnificent residence was crowded with distinguished guests. After Mrs. Porter's long absence everybody was eager to attend her first great function. Prince Radolin, the new German ambassador, was the most prominent diplomat present. Radolin's first wife was English and he speaks English beautifully. He was a great favorite among the Americans in St. Petersburg and Berlin. Many of his old American acquaintances having now settled here, the prince is expected to devote much social attention to our compatriots.

CHAMBERMAID DETECTIVES

French Police Find that Spies in Petticoats Are a Useful Addition.

PARIS, March 9.—(New York World Cablegram—Special Telegram.)—Partner Chief of Police Gorn, discussing the news that a staff of women detectives was recently engaged by the Waldorf-Astoria management, declared that more than 5,000 women detectives are constantly employed by the French government. Hotels also employ them, generally disguised as chambermaids. Some of the most useful political spies are women of the world who do this work because they need additional funds to sustain their social position. The French police prefer pretty women who have had trouble with justice and whose penalty has been suspended for a consideration.

THREATS OF VIOLENCE

CONSTANTINOPLE, March 9.—Placards posted in Istanbul by the young Turkey party threaten to meet violence on the part of the government with violence. One placard, directed against Russia and Germany, asserts that Turkey is in the hands of those powers.

MILLIONS OF MEN

Have Been Wrecked on the Rock of Sexual Vice.

Thousands Have Been Rescued by The State Electro-Medical Institute.

Which Combines All of the Curative Powers of Both Medicine and Electricity in Our Electro-Medical Treatment.

Specialists for Diseases of Men

I make no extravagant assertion when I say that millions of men have been wrecked on the rock of sexual vice. The trouble is not so much that they get disease, but rather that they allow it to grow worse through neglect or improper treatment. This fact is responsible in many cases for the most serious and fatal diseases of men.

But if you have a VARICOCELE, STRICTURE, CONTAGIOUS BLOOD POISON, NERVE-SEXUAL DEBILITY or any associate disease of weakness, you owe it to yourself to fully and freely investigate my treatment. My mastery of these maladies is complete. I began a special study of them soon after graduating from college, now nearly a quarter of a century ago, and during all of the years since then they have been my study and my persistent practice. I treat nothing else.

Thus it not only to you, then, that I am better prepared to combat and conquer disease and weakness peculiar to men than the general practitioner, who, instead of concentrating his faculties on a single class of diseases, scatters them over the entire field of medicine and surgery.

Whatever may be the cause of Varicocele, its injurious effect is well known. It depresses the mind, weakens the body, disturbs the nervous system and ultimately leads to a complete loss of sexual power. If you are a victim of this dire disease you should remember that you are not alone. I will tell you so frankly, and show you how to get rid of it. My special treatment for Contagious Blood Poison is practically the result of my life, and I will quickly subvert your mind.

On account of its frightful hideousness Contagious Blood Poison is commonly called the King of Venereal diseases. It may be contracted in any manner. Once the system is tainted with it, the disease may manifest itself in various forms, such as eruptions, swellings, ulcers, etc. It is a most insidious and dangerous disease, and its cure is a matter of life and death.

It matters not how long you have suffered from Stricture, nor how different doctors you have consulted, nor how weak you are, I will cure you. I will cure you just as certainly as you come to us for treatment. I will not do it by diluting cutaneous medicine, nor will I use any other means, but I will cure you, entirely original with me, and perfectly painless. It completely dissolves the stricture and permanently removes every obstruction from the urinary passage, restores the normal discharge, always all inflammation, reduces the prostate gland when enlarged, cleanses and

Men, many of you are now reaping the result of your former folly. Your manhood is failing, following in its train and indicating a general decline of physical, mental and sexual power are totally removed and rapidly replaced by the youthful energy of robust manhood. Hence, all resulting ill and reflex complications, which may be properly termed, associate diseases, and which, in fact, are often more serious than the original ailment that gives rise to them—do, say, disappear completely and forever, with the cure of the main malady.

Most cases can be treated successfully at home. One personal visit is preferred, but if it is impossible, I will send you to call at our office, write us a full history of your case, plainly stating your symptoms. Physically unwell, or otherwise, we cordially invited to consult us. We make no charge for private counsel and glad to furnish you with a list of our references for our promise. If you cannot call today, write. Address

Hotels also employ them, generally disguised as chambermaids. Some of the most useful political spies are women of the world who do this work because they need additional funds to sustain their social position.

PARIS, March 9.—(New York World Cablegram—Special Telegram.)—Despite the fact that many Americans are leaving daily for the winter resorts in Italy and south France, the colony had a brisk social week. The American embassy receptions, discontinued since New Year's, were resumed brilliantly Monday. General Porter's magnificent residence was crowded with distinguished guests. After Mrs. Porter's long absence everybody was eager to attend her first great function.
