TO BE HEEDED NOW. In the Spring You Are Always

Run Down. This Will Tell You Just What To Do For Yourself.

In the spring everybody needs to think about taking a spring medicine. Not only is this a common practice, but a very necessary and healthful one. It is a fact which physicians acknowledge and the people recognize generally. that a spring tonic taken during the months of March, April and May is more conducive to the restoration of health, in cases of those who are sick. than any other course of treatment that could possibly be adopted.

In the spring there are a great many and important changes going on in the body. Perfect health cannot be main-tained while the system is clogged and the organs sluggish, and the person has a languid and weakened feeling, with more or less nervousness and debility. Therefore everybody should take a good spring remedy.

The best spring medicine, indersed and recommended by physicians, druggists and the people, is Dr. Greene's rest, and the stomach too weak to diget food. proof of this, thousands of testimonials

are being constantly published in the

MRS. ETTA SUMNER.

GH! FOR STRENGTH!

Weak Nerves, Tired, Exhausted Bodies.

And Just Why You Should Follow The Complaint of Thousands upon Exactly This Plan. Thousands.

> Health and Strength are Within Your Grasp.

It is the Great Restorative of Brain and Merves.

Oh, those nerves of ours, how they do bother us! Weak, tired, and nervous is the complaint everywhere. We overwork, dissipate, weaken our bodies, ruin our health, and finally break down. Sleeplessness and indigestion

diget food.
It is nerve and brain exhaustion which makes the brain tired, and the arm nerveless, the limbs trembling, the mus.les weak, and the whole body without strength, energy or ambition. It is loss of nerve and vital power which is slowly but surely sapping the very life itself, and unless help is sought from the right source, the end will be shattered nerves, insanity with softening of the brain, nervous prostration, heart failure, paralysis or premature death.

Beware of such symptoms! A well known druggist, Charles W. Eggleston, 329 Park Avenue, Worcester, Mass., suffered from nervous prostra-tion and all its terrible symptoms. He writes the following letter telling what he knows is the best way to get

well. Some time ago I was taken with nervous prostration, I suffered terribly with my nerves and could get no sleep at all. I became fearfully exhausted, my stomach was in a terrible condition

pletely cured of all my troubles.

"Out of the respect I bear the manuappetite. I have taken three bottles have the sick and suffering made well

As this letter is from a dealer in

ANCIENTS HAD SENSE.

Dated Beginning of Year from Opening of Spring

When All Things in Nature Start Afresh.

Some Other Things in Which the Ancients Have Given Us Points.

The ancients began their year with The ancients began their year with the advent of spring. How much more appropriate thus to begin the New Year with the new life of nature in the awakening spring. At this season all processes throughout the natural world start afresh.

The ancients also showed their sagacity and appreciation of the great changes and active processes of springtime, by realizing that this is also the time for renewed life and energy in the human system. They well knew that the blood should be cleaned from impurities and the nerves re-invigo-rated at this season. Hence the establishment of the custom of taking a good spring medicine.

This most sensible and healthy cus-tom is followed by almost everybody at the present day, few people of intelligence venturing to go through this trying time of change from winter to summer without taking a spring med-

MINING IN THE BLACK HILLS

Uncle Sam Comes to the Front with Solid Faces of Ore.

CENTRAL CITY LOOKS FOR A BOOM

Operations of Denver Capitalists in North Lend District Give an Impetus to All Classes

of Business,

DEADWOOD, S. D., March 10,-(Special.) The Uncle Sam mine, on the south end of the Homestake ore belt, twelve miles south of this city, has become one of the best properties in the Black Hills. The announcement has been made that the crosscut that has been in progress for several weeks has now cut the main ledge of ore fifty feet and there is a solid face of ore in the tunnel. The mine was worked a number of years ago on a pay streak that was exceedingly rich. The mine went into the hands of the present owners, the Clover Leaf Mining company, and a large amount of dead work has been done, which has placed the mine upon the list of big paying properties.

The company has acquired a tract of mining ground over a mile and a half long, ated at the present time. The company is the ledge is high enough to pay well for treatment. The principal stockholders of blocked out. the company reside at Wiebaux, Mont. This mine is supposed to be on the southern extension of the great Homestake belt. The character of the ore is the same as in the Homestake mines, but runs better in values. The success of this mine gives encouragement to the Belt Development company of Colorado Springs, which has commenced sinking a shaft at Kirk to catch the Homestake ore.

Business for Central City.

It has been announced that the Denver parties who have purchased the mining ground in the North Lead district will commence operations first in the old Bingham tunnel, which opens into Deadwood gulch, above Central City. The deep shaft will probably be sunk north of the Hidden Fortune mine, which is at the north point of the hill. This will give to Central City a large volume of business. This town, which was one of the first mining camps in the northern Hills, is almost sure to become one of the best business places in

The Homestake company will soon employ several hundred additional men at the DeSmet mine and mill, besides the new cyanide plant that is to be erected by that company on the north side of the Lead hill. The town is surrounded by the cement formation, which is attracting capitalists because of the case with which the ore is evanided. Should the Denver people put their works on the north end of the property that has been purchased it would be a great thing for Central City.

Rich Strike by Galena.

It is stated that a rich strike of gold or has been made by the Galena Mining company in the Strawberry Gulch district east of this city. The company is one that was ago, who failed to make it a winner. The company was reorganized and for the last three years a force of thirty men has been employed. Ore has been found in a numweek is the best one yet and it may decide the company to erect a plant of some Black Hills. sort. He warned his listeners against following Rev. A. H. Kaylor of Allegheny, Pa., who a human being; against pinning their faith is called "the lawyer evangelist," addressed to such a one and thinking of him as the infalible interpreter of the scriptures.

Rev. H. C. Herring, pastor of the First Congregational church, preached last night on "The Transfiguration." He said: 'A door is opened in the midst of Jesus' earthly life, through which the light of

sights of constant misery, His soul was refreshed by a visit from the homeland. "More than this, the transfiguration

ing work of His life. In order that He portals of the unseen world and spoke with His old-time friends of the death He was to die and doubtless of the great issues which were to flow from His death.

"Above all the transfiguration was the seal of God set to Christ's divinity. Above Him the heavens opened and a voice said: This is my beloved Son, hear ye Him.' Moses and Elijah were there, honored prophets of God, but there was no injunction to listen to them. They, as well as the diciples, were commanded to listen to the lowly peasant of Nazareth, as one who bore the authoritative message of God. No wonder that the disciples fell to their faces in fear and awe. The words which rang out above them are still ringing in the ears of men.

"As the world gazes upon the giorious features of the historic Christ, growing more glorious as His centuries pass by, the one command which it needs to hear and heed, is the command of old, 'Hear ye Him; for He whom God hath sent speaketh the words of God.

Trefz on Marriage and Divorce. Before the delivery of his sermon last night Rev. E. F. Trefz spoke on "Marriage

and Divorce." He said: "The time has come when the bench and the bar are discussing means of making the divorce laws of the country more stringent. It is unfortunate that when we look into the causes for divorce we see that the real trouble lies in the lack of the right

kind of home training. "You will remember that Philip Armou said that in selecting a wife be sure that she has a good mother. It is true that the of a good mother makes a good husband? heaven shines. It is this false pride that allows "The transfiguration was a gift granted manhood."

Detroit and New York has bargained for additional ground in the Annie Creek district, south of Ragged Top, and machinery will now be purchased for the extra crushing and roll capacity at the 100-ton cyapide plant. The company now controls several hundred acres of ground in the eyanide

Large Consolidation of Mines.

There is to be a large consolidation of mines effected in the Garden City district this spring. The Rainbow company, with twenty acres of ground; Burns & Little, with eighty acres; Barr & Good, with forty acres, and the South Dakota company, with forty-seven acres, will probably put their ground into one block and organize a new company for the purpose of erecting a cyanide plant. On all of the properties ore has been exposed. Two years ago the old chlorination works, that are located in the district, were remodeled into a cyanide plant and several thousand tons of the ore from these properties were run through. The Chicago and Two Bit shaft has been unwatered and the lower workings are now ready for the miners. A new air compressor and a Prescott pump have been put in and crosscuts are to be run on quartzite in several places, for the purpose of exploiting the Two Bit district thoroughly. This work is to be done by the Redwater company, which is a consolidation of the Great Northern, Hardin, Chicago and Two Bit. Great Eastern and the Hardin Standard companies.

The new company is backed by a number on the trend of the ore vein. There is a of the stock yard and packing men of Chisixty-stamp mill, twenty stamps being oper- cago and some of the railway capitalists of Pullman, Ill. Should sufficient ore be installing a big steel hoist. In the big found in the exploiting of the Chicago and ledge of ore that has been crosscut there Two Bit mine, a smelter will be erected is the old pay streak, which yields some on Redwater, about ten miles north of this of the finest specimen rock ever found in city. In the Hardin mine, which is the the Black Hills. The general average of oldest of the five of the Hardin company's mines, a large amount of ore has been

Golden Return Takes Deadbroke

R. M. Maloney, owner of the Deadbroke mine in Blacktail gulch, has organized the Golden Return Mining company, with W. P. Williams of Chicago and Sol Rosenthal of this city heavily interested. The mine has one of the largest bodies of cement ore in the Black Hills, being about 300 feet wide and forty feet thick, with an average value of \$6 per ton gold. The ore is treated successfully by amalgamation and cyanide. There is a ten-stamp mill with a twenty-five-ten cyanide plant at the mine. The property will be pushed to the front again. R. M. Maloney is well known in Colorado as a mining man. He organized recently the Maloney-Blue Lead Copper company, which is developing the old Blue Lead copper mine in Pennington county. A tunnel 1,400 feet long is being run to tap a big ledge of copper ore. It is stated that the North Star Mining

company of Omaha will erect a ten-stamp mill this season at the North Star mine. nine miles northwest of Custer. The mine is developed by a shaft 335 feet deep and a 200-foot drift on ah eight-foot ledge of \$18 ore. The shaft is to be sunk this spring to the 600-foot level.

The Imperial Mining company has made the second payment on the Modec group-of claims in the Blacktall district. This gives the company a tract of ground over a mile in length.

Senson Opens Early.

The prospect is that the season in the Black Hills will open up early. For the past few days a chinook wind has been blowing, which has taken away practically all of the snow. On every hand there is a feeling manifest that this year will be promoted by Francis C. Grabel four years The There are a good many new mining coma propitious one for the entire Black Hills. panies now in the field with stock to sell, which is making a lively interest in the stock market. Nearly every new company ber of places. The new strike made this plants for the treatment of their ore. This process is doing wonderful work in the

SOUTH DAKOTA'S NEW LAWS

Legislative Session Just Closed is Credited with New Records.

SIFTING COMMITTEE FOUND UNNECESSARY

New Plan Works Better Than Predieted and Both Houses Have Clean Calendars Before Night of Closing.

PIERRE, S. D., March 10 .- (Special.)-The legislative session just closed has made several new records for legislative bodies. While there has been considerable antagonism between the two houses, which at some periods has been open hostility, for needed reforms and legislation, all but there has been no delay in pushing business not come to an agreement.

Early in the ression the house adopted mittee and it was predicted at that time that the list of bills would be so large at the close of the session that there would name from appearing more than once on rived all bills that had got through the of both houses with no necessity of a last night session for any other purpose than to receive the reports of a few conference committees and to allow the presiding officers of the two houses to sign the last bills in the presence of the houses in compliance with constitutional provisions.

Never since the state has been organized has the work of both houses been completed in this manner. The fact that a large number of laws have been passed makes it all the more noteworthy.

Important General Laws.

While a large number of minor bills have been enacted into law, several important general laws have been created. Among the most important of these is the law creating a food and dairy commissioner with extensive powers in regard to looking after the adulteration of food products and the dairy interests of the state. This bill failed two years ago, but was pushed early this session and was enacted in time to allow the appointment of the commissioner to begin his duties at once. The wolf bounty law was entirely changed in its provisions, and as it now stands the total amount which can be used for that purpose in any one year is \$5,000, and this is to be held until the close of the fiscal year and then prorated on the number of scalps prawhile in the main a copy of the old law, contains several new provisions, which it is believed will make it more effective. Another general law enacted is a change main provisions of which is to prevent druggists from handling liquor for any purpose and place the sale of it entirely with licensed saloon keepers. The bill for reorganization of the state militia under the title of the South Dakota State guard, will, it is believed, bring out a good organization, as the state has a large amount of equipment on hand and a state appropriation of \$3,900, besides paying the adjutant general a salary sufficient to allow him to devote his time to the work of thorough re-

organization.

Insurance and Taxation. The bill which sought to curb the building and loan associations passed the senate but failed of passage in the house. In the line of insurance probably the most important enactment was that placing trol of the state insurance commissioner. The matter of taxation and assessment have taken up considerable of the time of the session, and among the many measures introduced, probably the most important one to pass has been the one to provide for a cleaning up of all old taxes prior to last year. It is estimated that there are at least \$4,000,000 of old state, county and district taxes standing out, and that this bill will bring at least \$1,000,000 of

this into the various treasuries. Besides this, acts have been passed to allow the county treasurer to employ a man on commission to search out property which has escaped.

The matter of libraries has received a great deal of attention, and two laws have been passed on that subject, one to provide for the construction of library buildings and maintaining libraries in cities, and the other to provide a fund for libraries in

ountry schools. The bill for revision and codification of the laws, which was passed on the last night of the session after going through the hands of a conference committee, is one which the attorneys of the state hall with jos

Governor is Satisfied.

Governor Herreid feels that the session has treated his recommendations with a great deal of consideration, as out of the sixteen recommendations in his message three have been adopted. Those which even on the measures in which they could | were lost were his recommendation for a chaplain at the penitentiary; a commissioner of immigration; and farmers' instia resolution to dispense with a sifting com- tutes. Those which were carried out, were the recommendation of no sifting committee; manner of making ballots; to prevent be confusion and delay. Just the opposite the ballot; a secretary of the board of reresulted, and when the closing hours ar- | gents; appropriation for a geological survey; orphans' home legislation; power to committee were cleared off the calendars remove officials; a salaried veterinary surgeon; new state fair board, and appropriation for the state fair; pure food and dairs commissioner; county commissioners to be elected by the vote of the whole county; soldiers' home board legislation; the or ganization of a state historical society, and an appropriation for the same.

The matter of expense of "off year" elections was considered, and such expense climinated by the passage of the bills to change the time of election of supreme and circuit court judges to the same date as the general elections; and that of changing the

length of term of county commissioners. One matter of neculiar mention was the fact that for the first time in the history of the state a general appropriation bill was passed before the last night of the session, and without the services of a conference committee to adjust differences between the two houses.

You're Making No Mistake When You Order

It is so thoroughly good and pure-possesses a flavor so honest and satisfying that you are sure to appreciate it. Send in your order for a case.
