Each trout in the hatchery and nursery boxes at the present time there are thousands of eggs of three well known varieties of trout—the rainbow brook and lock leven. These, with the black and rock bass, are the only kinds of fish raised at this batchery at the present time as a frequient time, There are, however, a few thousand small salmon at the hatchery, hatched from eggs left by a government fish car a few weeks ago.

Beautiful as Raliabow.

This species of fish from California is almon as beautiful as the rainbow trout and grows to weigh twenty-five to thirty pounds or more. The bass do not begin to spawn until in May and the stock fish are all in the artificial lake on the grounds. The trout in the hatchery will go into the outdoor ponds about May 1. These ponds are \$15 feet in size and three feet deep. They are fed directly from the springs.

Many thousand of the young trout will be taken during the early summer to streams in the northwest and will be turned loose to care for themselves. The total capacity of the hatchery is 2,500,000 fish annually.
