SENATE PASSES THE CHARTER South Omaha's New Bill of Rights

Sent Along to the

Governor.

LINCOLN, March 11.—(Special.)—Without a dissenting vote the South Omaha charter bill was passed by the senate this afternoon. When the bill was announced for its third reading Senator Verson and to authorize the acceptance of certain for its third reading Senator Verson and to authorize the acceptance of certain for its third reading Senator Young made motion that action be deferred until tomorrow morning in order that it might be examined by Senator Baldrige. He understood there were some amendments desired and inasmuch as the bill had never been considered by the senate he thought his motion to defer action for a few hours should carry. The bill, as amended, provided for granting franchises for a period of ten years, the franchise to be granted by the city authorities, unless such action is protested by 5 per cent of the voters. The motion was objected to and the bill went to its final passage, every senator present being recorded as voting for it.

Other bills passed by the senate today were Senator VanBoskirk's bill, senate file 61, which provides for a state veterinarian and the necessary deputies. House roll 130, by Wenzl, an act for the relief of Frederick Urich of Pawnee county, was also passed; likewise house roll 58, which provides that road tax shall be paid in eash in counties not under township organization.

House roll 20, providing for a public library commission and the establishment of a traveling library, was brought up for third reading, but the fact developed that the bill was not this far advanced and,

The fact that these bills were reported back and no reference was made to the Peru Normal bill, which appropriates \$75,500 for new buildings, which was sent to the governor's office with these bills, caused somewhat of a stir among the normalites who have been anxiously awaiting the governor's action on this bill and when it was learned that the bill had been sent back to the house without his signature the supporters of the normal school bill now before the senate were much concerned and there was some hurrying and scurrying and some earnest consultations. Ballot Bill Discussed.

In committee of the whole, with Senator Oleson in the chair, Senator Edgar's bill, senate file 126, which provides for a change in the ballot law, brought forth a protest from the fusion side of the house. The principal objection raised by the reformers was to the clause which prohibits a candidate from having his name on the ballot more than once. Senators Miller and Ransom spoke against the bill, which was defended by its author, Senator Edgar, and by Senator Martin. The fusionists claimed that the adoption of such a ballot would handicap their party, but their objections were met by the republicans and a motion that the bill be recommended for passage was carried by a strictly party vote, the first recorded during the present session. The following were placed on general

Dr. Jameson said his patient's condition was such that a crisis would probably be reached within twenty-four to thirty-six hours, at which time he would either grow gradually worse or gradually better. He thought there was no danger of sudden collapse. The greatest danger is due to his age, which is somewhat against resistance of an attack of pneumonia.

It is understood that none of General Harrison's relatives have been called from out of the city, but they are kept advised rison's physicians are hopeful that pneumonia may not develop and strongly express their hopes, they are nevertheless alarmed, as are the members of his family and his friends.

The doctor announced at 9 o'clock this morning that General Harrison's condition remains unchanged. His temperature is the same as yesterday. The opinion prevails that General Harrison is very ill. General Harrison passed a fairly comfortable night and his physicians announced this afternoon that there had been no change for the worse. He slept until nearly 9 o'clock this morning and when he was aroused he said that he felt much better. Saturday afternoon slight congestion of the left lung developed, and it was feared that pneumonia might result. This congestion was less pronounced today and the physicians believe there is no danger unless complications should arise. The general still has fever. He confidently declares he will soon regain his usual health. Members of the Harrison family have not

and refused to continue the search for bodies. While the firemen maintained that all the bodies had been recovered, the police assert that this had not been done, and Police Lieutenant O'Hara said that the general understanding was that more bodies were in the ruins.

Two Other Disputes. While the firemen and police were arguing and explaining their respective sides in the matter the city building department stepped in. Building Inspector Kielbassa sent a deputy to the scene of the catastrophe and a notice was sent to Jackson Bros., agents for the property to immediately begin the work of pulling down the walls and clearing away the debris. Jackson Bros., were given two hours to comply with the order, their failure to do so to result in the building department performing the task. The real estate firm soon had a number of wreckers at the rules and the work of pailing down the ruins was immediately begun. "W. H. Watkins would hold the Indianapolis franchise which would be turned over to him by Hulen, and I think Packard of Denver will be willing to bring his club to Louisville. As Watkins has his club already signed, Louisville could also have the cream of the Pueblo team, thus making a splendid organization.

"If a team is placed here no Louisville capital will be represented. We have all of the capital we need. The town is what we are after. We have the capital and we have all the players we want, and they are better players than the National league will cast off. Pleased with Old National Park.

The three Western league magnates visited the old National league park and were much pleased with it. The grand stand was burned year before last, but the bleachers are intact and the grounds are otherwise complete. For \$3,000 or \$4,000 the grounds can be put in splendid condition. The National league lease has two more years to run, but Hickey states that the lease will be turned over to him. As Indianapolis cannot play Sunday games, the games which will be scheduled there with Louisville will be transferred to this city. which is an excellent Sunday town.

Watkins and Ruschaupt left for Indianapolis this afternoon, but President Hickey will remain for two or three days. He states that no contracts will be signed. but it is evidently his intention to have everything arranged, so that no time will be lost after the St. Paul meeting authorizes the new circuit. Louisville has been without league ball

for two years and it is the almost unanimous opinion that a good club will be well supported.

Don't Beliene in Doctors, Has Appendicitis But Prevents an Operation.

Astonishes the Town of Pratt, Minnesota; by Coming Home Well.

Pratt, Minn., Feb. 5 .- Mr. John C. Anderson, well known in Pratt and recognized for his prominence in business matters, is now well and sound, after having a disease which doctors said could not be cured without an operation which might prove fatal. Mr. Anderson had appendicitis, that dangerous acute intestinal disorder which carries so many away daily. Doctors wanted him to submit to an operation, but he refused. After going east and consulting with a noted specialist of stomach troubles, he bought a bottle of Cascarine, and after continued use for two months he was cured absolutely. The operation would have cost him \$100.00, and perhaps his life. Cascaripe cost him only \$1.00 and saved his life. 'Thousands of people," said Mr. Anderson, "submit to an operation when there is no need of one, in fact it is becoming a great fad to have some doctor carve you. Cascarine cured me and I advise everyone suffering with any trouble of the bowels, kidneys, liver or stomach to buy a bottle

at once. Cascarine is a laxative tonic, pleasing in taste and pleasing in action. It will not gripe the most delicate stomach. It is the best laxative for mothers, fathers and children. Every good housewife should should have a bottle close at hand. She will find it the most economical article she ever bought. It cures the little ones of stomach troubles and constination. It cures everyone of diseases of the liver, stomach, bowels and kidneys.
