One of the most interesting features of the evening was a vaudeville program. which began at 8 o'clock. A small stage, adequate to the demands, had been erected on the third floor and there were ample seating arrangements. The numbers on the program were all decidedly interesting and many in the audience who had never witnessed a vaudeville entertainment indicated their keen enjoyment by hearty applause

"I hope no one will consider me as one of the performers of the evening," said President Sanborn, While I have been sandwiched in between the vaudeville numbers, I must beg of you not to mistake me for an actor. As pres ident of the Omaha Auditorium, however, I want to tell you our great pleasure at seeing so many people at our exposition tonight.

When the board of directors was formed to take charge of the auditorium project a committee was named, out of which has developed this industrial exposition. The plan was to solicit donations and exhibits of different kinds from jobbers and manufacturers in Omaha and the territory cast of here. We have succeeded in getting between 350 and 400 commendable exhibitssome quite valuable and all aggregating a very good value. The porceeds from this exposition will assist us materially in raising funds for the auditorium without accessitating the solicitation of stock subscriptions from Omaha people.
