Black Silk Taffeta Tailormade Suits

On Fifth avenue, New York, we believe you will see more stylishly dressed ladies in the space of ten blocks than in any part of the world. We noticed on our recent visit that SILK SUITS were very much in evidence. The skirts and the charming little eton coat, tucked and strapped with tailor bands. Ever alive to the wants of Omaha ladies, we are showing some handsome silk suits at \$30.00.

A lady remarked yesterday, in looking at our new show windows: "Well, people who can make such an elegant display certainly know the secret of selling lovely goods such as ladies want,

Our suits are not the only pretty things we have to show in ready-to-wear apparel. There's the NEW BLACK TAFFETA WAISTS - the NEW DRESS SKIRTS-the NEW WALKING SKIRT-the NEW SPRING COATS-the NEW PETTICOATS-all ready for your approval.

The interest in the condition of the former president is shown by the hundreds of messages from every part of the country which poured into the newspaper of fices and into the Harrison home during the day. :abinet have telegraphed. D. M. Ransdell, sergeant-at-arms of the United States senate, left Washington for indianapolis today when he learned of the

serious condition of General Harrison. The people of Indianapolis who have known the general for so long were not less eager for news from the bedside than the citizens of other cities and states, and the telephones in the newspaper offices were in constant use during the day in

answering inquiries. The news that there seems to be little. if any, hope for recovery came as a shock to the neighbors and friends of the general, although they knew he was a very sick man. They recalled that it was less than a week since they had seen his familiar form in the street. They seldom saw good weather. Twice a day, and sometimes he addressed the public school children, day, and giving details of the storming of oftener, he walked from his home down town and back and of evenings he liked nothing better than to hunt and stroll over the northern part of the

The sudden illness of the general re called to many persons that he had been are retained by those who were in attendseen in public more this winter than for ance. many years and it was remembered, too, that he never before appeared so willing to discuss subjects of general interest. On New Year's day he made a notable address at the dedication of the Columbia club building and since that time has been conspicuously in the public mind by reaof articles in the North American Review. General Harrison was in perfect health ast Wednesday and, contrary to common

eport, was not suffering from a cold or liness of any sort. He was in full postession of the vitality and vigor which characterized these later years of his life to a remarkable extent.

Wednesday morning at 10 o'clock he went down town to the law office of Miller & Belam, where he remained for about an hour and a half talking with several friends He walked all the distance to get the benefit of the exercise. He returned from his afternoon walk without even feeling fatigue and in the evening went to one of the neighbors to make a short call. He then came home and after talking with his wife and playing with baby Elizabeth for an hour, retired early.

Attack is Very Sudden.

Thursday morning he awakened with a pain in his chest which, at first, was hardly noticeable, but later gradually grew worse antil Mrs. Harrison became alarmed and the family physician, Dr. Henry Jameson, was summoned. He pronounced it simply a cold, and at the time feared no alarming Then the lungs became rapidly iffected and the illness was complicated with intercostal neuralgia.

Saturday his condition was serious, but set such as to cause particular alarm. Sunlay, for the first time, the physicians began to have fears for the recovery of the patient, but said little to the public about the seriousness of General Harrison's con dition. The next day it was announced to the newspapers and to the public that the cial.)-Mrs. Uri Gillette, one of the first illness was more alarming than was at white women who came to the Black Hills, first supposed and that there was danger having come in company with her husband that the general would never recover from in 1878, died in this city Sunday. SENATE KILLS NORMAL BILL

"I am opposed to the establishment" of

additional normal schools at any point," said the ex-governor, "and especially to these in the western section of the state. It is an astounding proposition, with the state already nearly \$2,000,000 in debt. There is no demand for schools whatever and I appeal to the conservative and thinking element of this body in behalf of the axpayers who cannot come here and speak for themselves. We are going education mad. Appropriations are asked for our university of over \$500,000. Think of It. Why do you put your hand in the pockets of the hard-working farmer and the mechanic to secure funds with which to educate a few? Are we to come here each year and loot the state's treasury under the guise of education? It is preposterous. God Almighty makes teachers. You can fill the heads of students with cube roots, square roots and other roots and still they are not teachers. Locate those schools where we guess they will be located and they would not accommodate onetenth of the population. You could not locate a state normal school in my county without my opposition, and yet you could draw a circle for twenty miles around the town in which I reside and it will enclose more people than you will find west of Broken Bow and Arapahoe. Why, it costs the state \$300 to graduate a student at Peru, yet the private normals of our state can do the same thing for less than \$100 and it cannot be denied that our private normals furnish a higher class of education than our state normal."

HOUSE ADOPTS A RATE BILL

Recommends Passage of Ollis Measure to Fix Freight Charges on

LINCOLN, March 12 .- (Special.) -- In committee of the whole the house this afternoon recommended the passage of Representative Ollis' bill to provide maximum rates for the transportation of live stock to and between points in Nebraska. As amended the bill provides for a reduction of all live stock rates to 10 per cent below the rates in force December 1, 1899, and prohibite any increase in the rates for transportation of miscellaneous commodities that were in force at the same time. Representative Evans' fish and game protection bill was passed during the afternoon session by a vote of 56 to 27. As it failed to receive the required two-thirds vote the emergency clause was defeated One of the amendments recently made to

this bill prohibits shooting of quail for a period of two years. A call of the house, demanded by Representative Armstrong, prevented the transaction of much business during the morning session. The call was asked for to obtain a full vote on house roll 111, to appropriate \$75,000 for a new building for the Peru Normal school, vetoed by Governor Dietrich. After the reading of the veto message the hill was taken up under the rules for another vote, which resulted, 37 for passage and 35 against. The call remained in force until a few minutes before the joint session. Final vote on the proposition to pass over the governor's veto was 49 for and 41 against, sixty votes being required.

On motion of Miskell the house concurred in the senate amendments to house roll 58, a bill to require payment of road taxes in actual cash.

In Committee of the Whole.

With Warner of Lancaster in the chair the house resolved into committee of the souri and Colorado and was carrying \$6.- York was ready to donate \$50,000 for a whole to consider house roll 255, by Ollis of Valley, to provide maximum rates for the transportation of live stock to and between points in Nebraska. In its origi-nal form the bill contained a proposed schedule of rates, but this section was stricken out today and in lieu thereof the following section was adopted:

The maximum rate for the transporta tion of cattle, hogs and sheep shall be 30 per centum of the rate which the railroad or railway company carrying the said cattle, hogs and sheep, published on the first day of December, 1899, as its charge for transportation of such live stock, as shown by its printed sheet of rates or tariff sheets.

On motion of Brown of Furnas the section was amended to provide against raising the rates for transportation of general commodities above those in effect December 1, 1899. Mr. Brown explained that the object of his amendment was to prevent the railroads from increasing the charged for the transportation of the general classes of freight to make up for the enforced reduction in the rates on live

Restaurants may be found in the large cities where no meat, pastry or coffee is served and the food crank is in his giory and arguments and theories galore ad vanced to prove that meat was never intended for human stomachs, and almost make us believe that our sturdy ancestors who lived four score years in robust health on roast beef, pork and mutton must have been grossly ignorant of the laws of health. Our forefathers had other things to de than formulate theories about the food they ate. A warm welcome was extended to any kind from bacon to acorns.

A healthy appetite and common sense are excellent guides to follow in matters of diet, and mixed diets of grains, fruits and meats is undoubtedly the best.

As compared with grains and vegetables meat furnishes the most nutriment in a highly concentrated form and is digested and assimilated more quickly than vegeta bles and grains.

Dr. Julius Remmson on this subject says Nervous persons, people run down in health and of low vitality should eat meat and plenty of it. If the digestion is too feeble at first it may be easily corrected by the regular use of Stuart's Dyspepsia Tablets after each meal. Two of these excellent tablets taken after dinner will digest several thousand grains of meat, eggs or other animal food in three hours, and no matter how weak the stomach may be, no trouble will be experienced if a regular practice is made of using Stuart's Dyspepsia Tablets hecause they supply the pepsin and diastase necessary to perfect digestion, and every form of indigestion will be overcome by

their use. That large class of people who come under the head of pervous dyspeptics should eat plenty of meat and insure its proper digestion by the daily use of a safe, barmless digestive medicine like Stuart's Dyspepsia Tablets composed of the natural digestive principles, pepsin, diastase, fruit acids and salts, which actually perform the work of digestion. Cheap cathartic medicines, masquerading under the name of dyspepsia cures are useless for indigestion as the have absolutely no effect upon the actual

digestion of food. Dyspepsia in all its many forms is simply a failure of the stomach to digest food and the sensible way to solve the riddle and cure the dyspepsia is to make daily use at meal time of a preparation like Stuart's Dyspepsia Tablets, which is endorsed by the medical profession and known to con-
