I have served with him on the judiciary committee, one of the impertant committees of this house, and early learned to respect and admire him. His sense of justice, his opposition to that which he believed to be wrong, his fearlessness in defending that which he believed to be right, were characteristics of the man that early in our acquaintance impressed me.

There are men-they may be in public life—when it is necessary to culogize, but David Brown was not one of them. His daily life, his amiable character, his sterling integrity, his many acts and deeds of kindness and pure beneficence, give tone and character and shed a halo of glory around a pure and consecrated life, to which no words of tongue or pen can add one single gleam to heighten its luxler. But he has gone from among us, his bright smile, his hearty laughter, his cordinal greeting will be ours no more this side the snow-capped hills, wrapped in purple haze and overhum with nearly clouds that glow with capped hills, wrapped in purple haze and o'erhung with pearly clouds that glow with amber and flush with crimson over beyond where the carth and the heavens seem to

## BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin.

To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove per manently the ugly blotches and the red, disfiguring pimples.

Eternal vigilance is the price of a beautiful complexion when such remedies are relied on.

Many women suffer untold misery because the nature of their disease is not correctly understood; in most cases they are led to believe that womb trouble or female weakness of some sort is responsible for their many ills, when it fact disordered kidneys are the chief cause of their distressing troubles.

Neuralgia, nervousness, headache, puffy or dark circles under the eyes, rheumatism, a dragging pain or dull ache in the back, weakness or bearing down sensation, profuse or scanty supply of urine, with strong odor, frequent desire to pass it night or day, with scalding or burning sensation,—these are all unmistakable signs kidney and bladder trouble.

If there is any doubt in your mind as to your condition, take from your urine on rising about four cunces, place it in a glass or bottle and let it stand twenty-four hours. If on examination it is milky or cloudy, if there is a brick-dust settling, or if small particles float about in it, your kidneys are in need of immediate attention. Other symptoms showing that you need Swamp-Root are sleeplessness, directness, irregular heart, breathlessness, sallow, unhealthy complexion, plenty of ambition but no strength.

Swamp-Root is pleasant to take and is used in the leading hospitals, recommended by physicians in their private practice, and is taken by doctors themselves, because they recognize in it the greatest and most successful remedy that science has ever been able to compound.

If you are already convinced that Swamp-Root is what you need, you can purchase the regular fifty-cent and one-dollar bottles at the drug stores everywhere.
