Differ on Amount of Liabilities. FORT SCOTT. Kan., March 14.—Supreme officers of the Order of Select Priends, the fraternal insurance society that has been declared insolvent, place the liabilities at \$16,000, but many connected with the order assert that it has unpaid claims of \$50,000 and perhaps more. Officers are blamed for having kept their books open longer than conditions of the order are said to have warranted, but no charges of misappropriation have been made. The loss will fail principally upon the older policy holders. The younger members will have no trouble securing admission to other orders and will lose practically nothing, but the former, besides losing iff they have paid in, will be barred by age from joining any other order.
