COMMERCIAL AND FINANCIAL

dtion to control the market. The selling position to control the market. The selling was general, but in small lots, much of it July, which was let out by St. Louis interests. Smale primary receipts and the continued buying by Phillips later started shorts to lidding, and as longs suddenly evinced a disposition to hold tight, or had sold out, the market recovered sharply to 42%c, the highest price obtained this season for May delivery. Some sold-out longs came in again on the reaction. This bulge met renewed pressure from longs, who had withdrawn on the earlier dip, and the market again sagged, May closing easy, 4374c under yesterday at 424,3424c. Primary receipts were 421,330 bushels, compared with \$25,000 bushels a year ago. Local receipts were 281 cars, thirty-three of contract grade.

The market for wheat was very don and the trade of a scalping character, which offered nothing of interest. Sentiment was still bearish, but the impulse to sell was bridled by fear of a bull corn market. Climatic conditions and the cash situation were still arrayed against an advance, sematic conditions and the cash students were still arrayed against an advance, secounting for the humor of the pit, where small raillies were accepted as invitations to scaip a small profit or to escane with a slight loss. May opened unchanged to belower at 75%c to 75%c and dropped early to 75%c. Business for a time was at a standstill, but later in sympathy with the cornstrength shorts covered and sent May up to 75%c. Following this, and also in sympathy with the coarse cereal, the market eased and May closed \$25%c lower at 75%g. Exporters reported only twenty loads taken. Scabboard clearances in wheat and flour were equal to 25,000 bushels, while primary receipts were again targe, 624,000 bushels, compared with 95,000 bushels has year. Minneapolis and Duluth reported 38 cars, against 357 last week and 483 a year ago. Local receipts were 157 cars, six of contract grade Bradstreet's statement showed an increase of 57,000 bushels in the world's visible.

Aside from listless trading by scaipers, the oats market was entirely overlooked.

Aside from listless trading by scalpers, the oats market was entirely overlooked. May sold between 2507514c and 2174725c and closed 14c lower at 25c in sympathy with corn. Receipts were 27 cars.

Provisions were quiet, but averaged steady on light hog receipts and higher prices for hogs. The market was a triffe casier early on selling by commission houses, but packers took care of the moderate offerings of this source. The pressure was mostly on May pork, which, having opened 10c higher at \$15.80, was sold down to \$15.60; it closed unchanged at \$15.70. Lard and ribs were comparatively firmer on local buying; May lard sold between \$5.0215, and \$8.0715, and closed 715c higher at \$8.0715, and May ribs between \$7.55 and \$8.0215, with the close 215076c better at \$8.0078.0215.

Estimated receipts tomorrow: Wheat, \$5 cars; corn, 155 cars; outs, 125 cars; hogs,

rars; corn, 155 cars; oats, 125 cars; 7,000 head.
