DISPOSITION OF PRISONER A QUESTION

May Be Tried and Executed, Punished with Less Severity or Receive Complete Amnesty—Bryan Interviewed.

MANILA, March 28.—(Special Telegram.)—General Funston, with the assistance of a number of Maceabe scouts, has captured Aguinaldo in the country near Casuaran, some miles from Balera, on the northeast coast of the island of Luzon.

Months ago letters were captured by American troops showing beyond peradventure that the rebel leader was hiding in the northwestern part of the island.

General Funston immediately conceived his bold plan to capture him and this received General Marshall's approval.

When the supposed prisoners were brought by their alleged captors before Aguinaldo they suddenly appeared in their true character, seized the Filipino and made their way back to the coast where the gunboat Vicksburg, which had conveyed the party, awaited their return.

The adventure was a desperate one, as treachery was always possible, and General Funston had no absolute means of knowing how many men Aguinaldo had with him.

Display Their True Colors. When the supposed prisoners were brought by their alleged captors before Aguinaldo they suddenly appeared in their true character.

The United States gunboat Vicksburg, Commander E. B. Barry, with General Funston and Aguinaldo aboard, arrived here this morning.

WASHINGTON, March 27.—Official news of the capture of Aguinaldo has not reached the War department up to a late hour tonight.

The capture of Aguinaldo will be a source of great satisfaction to the president and his advisers.

What's to Be Done with Him. The disposition of Aguinaldo, now that he has been captured, will be an interesting event.

HOW THE TRICK WAS PLAYED. Funston's Chosen Party Had a Long Tramp and Took Great Risks.

WASHINGTON, March 28.—The province of Isabella, where the capture of Aguinaldo is reported to have been made, is about 200 miles northeast of Manila and several miles northeast of Balera, on the eastern coast, which place was made memorable by the capture of Lieutenant Gilmore and party from the Yorktown.

General Funston and his small band went a short time ago. It was a part of the island that had never before been visited by American troops.

"Second—The population to decide by vote whether to remain Danish or be transferred to the United States.

"Third—If the vote is favorable to the United States then the inhabitants are to become not only American subjects, but American citizens.

"Fourth—Products of the island to be admitted to the United States free of duty."

It is said here that Washington will not readily accept the third and fourth conditions.

SINCE THE WORLD WAS YOUNG

Explorers Discover Egyptian Records, Inscriptions and Tablets Dating Back to 1800 B. C.

BOSTON, March 27.—Rev. Dr. William C. Winslow, vice president of the Egypt Exploration fund, has just received official word that Prof. Petrie has unearthed at Abydos the records of kings before Menes, the founder of the first dynasty, nearly 4800 B. C.

"We have found," writes Prof. Petrie, "the names of Narina, Ka and a king named by the Egyptians as 'the king of the gods, Deb and Sam of Kna, and those of earlier kings. There are about thirty inscriptions and a heavy strip of gold with the name of Aha (Mena). In the tomb of Khasekhem were found stone vases, each with a gold cap and an inscribed label. Also two broad bands of gold and a dinner service of a dozen pans and dishes, with 160 models of ivory then is evidenced by the discovery of forty inscribed ivory and stones and two lions out in ivory."

NEW COUNCIL BLUFFS RECORD

Ride Through Iowa and Illinois Puts Up a High Mark for Railroads to Beat.

CHICAGO, March 27.—With a ride through Iowa and Illinois that established a new record for passenger travel from Council Bluffs to Chicago the Chicago Commercial club tonight brought its \$8,000 pleasure journey through the Pacific coast states to a close.

Ten hours was the time that was taken in hauling the six heavy coaches the 498 miles of the trip. It beat the record for the coastbound trip of a passenger train over the line by a full hour and equalled the best that an engine with a light special of two cars had ever done.

There were ten stops for water and coal and at terminals, and covering the stops on the running time were 400 minutes, an hour straight through.

ENGLAND MAKES A PROTEST

Enters Formal Objection to China's Making Territorial Agreement with Other Powers.

WASHINGTON, March 27.—The British government has protested against China's making a convention with any power touching territorial or financial matters in formal opposition to the signing of the convention by China with any power, pending the settlement of the Chinese troubles.

The course of Great Britain is the more significant from the fact that that government and Germany have a written alliance relating to Chinese affairs.

The occurrence of the protests probably explains why the Manchurian agreement has not been signed. There was no definite information received here today at the State department or at any of the foreign embassies to whether the agreement had been signed or rejected.

There was something of a stir in diplomatic quarters over the report coming from official sources that the United States was considering the advisability of addressing Russia directly on the subject.

Heretofore American objections to the Manchurian agreement have been addressed to China. Copies were furnished the Russian authorities, though the protest in form has been to China and not to Russia.

Several of the foreign reports advised their governments that this step was contemplated by the United States, but there is no official information available as to how far the consideration of the movement has proceeded.

HILL COVERTS BURLINGTON

Still Seeks Its Control for the Northern Pacific and Great Northern.

WILL MAKE THREE PROPOSITIONS. Prepared to Bid High Cash Price to Lease at Specified Rental or Change Stock for New Bonds.

NEW YORK, March 27.—The Evening Post says: Burlington and Northern Pacific shares were strong and active today on the revival of reports that there would be a lease of the Burlington by the Northern Pacific and Great Northern railways. No official confirmation of these reports could be obtained today and important stockholding interests in Burlington deny having seen any report that any offer had been made for the Burlington.

A strong effort is under way, however, to secure control of the Burlington and to turn it over to the Northern Pacific and the Great Northern. These proposals originate with President J. J. Hill and the negotiations are entirely in his hands.

It is said that Mr. Hill is prepared to bid a high cash price for the Burlington, to lease it at a specified guaranteed rental, or to change the stock for new bonds, as the Lake Shore & Michigan Central was accepted by the New York Central.

Mr. J. P. Morgan has taken an active part in the negotiations, as he did in those to secure the St. Paul & Northern Pacific in securing the Burlington and the option is offered to the Northern Pacific to share with the Great Northern any guaranty, or to join in the purchase, it will undoubtedly be accepted.

Definite Offer This Week. President Perkins is understood to be on the way east to Boston and it is believed a definite offer will be made to the Burlington board this week.

If the directors refuse the offer (and heretofore they have been opposed to passing control), the success of any effort to lease the Burlington to any western road will be jeopardized.

While New York reports are largely in the hands of heavy holders of the shares, the stock is widely distributed throughout New England and it would be difficult to induce these investors to part with their holdings.

Holdings of Burlington is said to have been about seventy shares, largely in New England. It may be said that President Hill has a strong following in New England and is in a better position than almost any other interest to secure control of the Burlington.

CONTROL NOT TO BE CHANGED

NEW YORK, March 27.—The Commercial Advertiser says: Officers of the Chicago, Burlington & Quincy and of the Northern Pacific railways companies say there is no foundation for the story that an offer has been made on the part of the Northern Pacific for control of the Burlington.

It is conceded that New York capitalists have lately acquired a large interest in the Burlington, but the present management insists that the control will not be changed.

Fireman Donnellan of the freight escaped death by jumping. The baggage and smoking cars were thrown sideways off the track, the front end of the baggage car being wrecked. Most of the injured were taken to St. Vincent's hospital at Green Bay.

Mrs. Doremus was arrested on a mittimus and taken to the criminal court building to give bail. The jury also recommended that the grand jury investigate how it happened that City Boiler Inspector Schlacks and his inspectors failed to have the boiler registered on their books so that it would be regularly tested.

Another provision of the jury's verdict recommends that the city council pass an ordinance providing for the appointment of a special commission to complete a list of the boilers in use in Chicago, so that they may be systematically examined.

Coroner Traeger announced that he would prepare an ordinance protecting engineers in the discharge of their duties and confining their labors strictly to the care of the engines and boilers under their charge and submit it to the city council.

LINCOLN, March 27.—(Special Telegram.)

The last joint session of the legislature but one was held today, but adjourned with the same monotonous proclamation by Lieutenant Governor Savage: "No one having received a majority of all the votes cast for United States senator, I therefore declare it an election."

The only incident of the roll call out of the ordinary was the written explanation offered by Senator Arends, which as read by the secretary stated that inasmuch as the short term for the United States senator, late M. L. Hayward, had been lost, Ward, that right that the unexpired term should be awarded to another Oteo county man and hence cast his vote for Judge Paul Jensen instead of for D. E. Thompson.

This was the first instance of a departure by anyone who had participated in the short caucus from the caucus choice, but no one followed Arends out of the Thompson ranks. Judge Jensen received five votes altogether, the other four, however, being Evans, Olson, Stevens and Whitmore, all known as pronounced anti's, and decreasing by that number the size of the Hinshaw column.

The absence of Gallogly took another vote from Mr. Thompson, so that he stood at fifty-seven. The fusionist vote, however, changed, although two transfers took place. O'Connell and Spencer coming to him and Johnson and Steinmeyer leaving. One went to Meiklejohn and the other to Baldrige, who took Vanhook's vote from Meiklejohn.

Currie, too, on the joint ballot lost Ward, going to Crouse, making Crouse, Currie and Hinshaw seven each.

Effort for Second Ballot Fails.

After the ballot had been announced an interesting spectacle was produced for the edification of the members and spectators, as the vote present in greater numbers than at any time in the history of the fusionist party, a motion to proceed to another ballot was interrupted by a motion to adjourn, on which a roll call was ordered, pending which came a demand from the fusionists for a call of the house.

Scarcely had the hands been raised to raise the roll call and, viva voce vote, the lieutenant governor declared the motion carried and the call raised. A dozen fusionists were on their feet to protest and to insist on roll call.

"The rules provide that sixty-seven members alone can raise a call of this joint assembly," shouted Taylor. "How does the chair know without a roll call that sixty-seven have voted to raise the call?"

"The decision of the chair is questioned," dryly responded Lieutenant Governor Savage. "The clerk will call the roll on the appeal from the decision of the chair. The question is, Shall the chair be sustained?"

That cut it off short and the roll call proceeded. The so-called anti's who had voted with the republicans against the motion to adjourn, divided on this question, half of them voting with the fusionists, and the other half with the anti's. The anti's, however, were not present in greater numbers than at any time in the history of the fusionist party, a motion to proceed to another ballot was interrupted by a motion to adjourn, on which a roll call was ordered, pending which came a demand from the fusionists for a call of the house.
