Legislature Fails to Give Relief in a Most

Important Matter. HOUSE SIDETRACKS THE SENATE BILL

Arouse the Representatives to the Secessity for Action at This Session.

LINCOLN, Murch 27 - (Special.)-1: nos an assured fact that there will be no new ballot law enacted by the present lexislature, the Edgar bill having been side tracked over in the house, and the Wil kinson bill, prepared by a special commit tee on ballot laws in the house. The defeat of the Edgar bill is most unfortunate innumuch as it provided for just what the state press has been clamoring ever since the present awkward bailet was introduced. The Edgar bill provided for a return to what is known as the "blanket-sheet" ballot which is one whereon the tickets of the different parties are printed in separate columns, and not in one long column, as provided for by the present law. It also prohibits fusion, inasmuch as no one name can appear on the ballot more than once. The bill was laid aside after it reached the house for the purpose of giving the Wilkinson bill preference, but this bill never reached the senate and the result is that when the legislature adjourns tomorrow will do so with the same ballot law on the statutes which has been so obnexious to the people of all parties.

Investigation Asked.

In a resolution presented today, Fenato Krumbach asks that a committee of three EXPLOSION DESTROYS EYE be named for the purpose of investigating charges made against Senators Krumbach, tinn Goes Off While Jerry Crouse of Weber and Meredith, all fusionists, in a recent issue of a Lincoln paper. charges referred to are to the effect that the senators named had gone to the storeroom and had a large lot of goods, comprising almost everything kept in the storehouse, from a rubber band to a doormat or cuspidor, packed in hoxes with the intention of having them shipped to their homes. The gentlemen referred to claim that an injured about the face. Investigation will show that these supplies were not solicited by them, but that they were taken at the suggestion of an employe, who told them that it was customary for the members of the legislature to supply themselves with these articles at the close of each session, and the claim is made that a thorough investigation will show up the fact that many other memters are implicated in this kind of work. committee named for the purpose of making this investigation will probably make its report some time tomorrow.

Makes Game Bill Effective.

The bill for the protection of game, fish and birds in Nebranka, which has already become a law, is at last to be made effetive, the appropriation which the bill itself failed to provide having been provided for to an amendment tacked onto the general appropriation bill. The fact that the origthat bill, in which such general interest is taken, failed to carry with it the necessar; appropriation to make it effective, ha caused the friends of the bill considerable worry, for it was well known that without the necessary money to defray the expenses of the commission the bill would be ineffective, and the fact that this has been pro the bill throughout the state.

The fond mother dreams great dreams of baby's future as she holds the sleeping little one in her arms. But the dreams will never come true unless she has given him a strong body and a healthy mind. Children die in hosts, or live to struggle through life feeble of body and of mind because the mother was unfit physically and mentally for moth-erhood. Women who use Dr. Pierce's Favorite Prescription endow their children with strong odies and bright minds.
It is every medier's duty to give her child the advantages of a healthy body and mind. A weak or sickly woman cannot do this. "Favorite Prescription" makes weak women strong and sick women well.

Mrs. Orrin Stiles, of Downing, Dunu Ca. Wis. writes: "I have been intending to write to you ever since my haby was born in regard to what your 'Favorite Prescription' has done for me. I cannot praise it enough, for I have not been as well for five years as I now am. In July last I had a haby boy, weight it pounds and I was only sick a short time, and since I got up have not had one sick day. I have not had any womb trouble since I got up. I was not only surprised myself but all of my friends here are surprised to see me so well."

Get Ahead of the Spring Rush For Offices.

April and May are the months when most people do their moving. The prospects are that the demand for offices in Omaha was never so great as it will be this spring. There are not a great many rooms vacant in

The Bee Building

but there are among them several which are particularly choice; one directly in front of the elevator on the 5th floor; one on the 1st floor next to the entrance to The Bee business of floe; a suite of three rooms on the 3rd floor, and a very large office and vault on the ground floor facing 17th street. Besides these, there are four or five smaller rooms in various parts of the building.

The rents are reasonable and the service perfect.
