REVERSE SMELTING CASE

Court of Appeals Allows Injunction Against American Smelting and Refining Company.

TRENTON, N. J., March 28.—The court of errors and appeals this afternoon by a vote of 5 to 5 decided to reverse the chancery court's decision in the American Smelting and Refining company's case.

Today's decision orders the issuance of an injunction restraining the American Smelting and Refining company from taking any further action in the matter of increasing its capital stock or acquiring the property of the Guggenheim plant.

TRENTON, N. J., March 28.—The decision is looked upon here as one of great significance with respect to the incorporation of companies under New Jersey laws in the future.

The practice of acquiring properties and paying for it in stock has been very general and heretofore it has not been the policy of the state to inquire into the value of the property purchased or the amount of stock issued on account of the purchase.

It is feared that the decision may have the effect of causing corporations to go elsewhere to become incorporated, although this view is not entertained by all corporation lawyers.

TRENTON, N. J., March 28.—President Nash of the American Smelting and Refining company tonight made a statement concerning the court proceedings at Trenton, in which he said:

"The decision will not prevent a union of the two interests. The desire of the stockholders is almost unanimously in favor of this trade. The court has said that the bargain is an advantageous one for the American company's stockholders."

"All that the court of errors decided is that the plaintiff in the present suit are allowed to have a trial before the present plan is carried out. But it does not follow by any means that we need adhere to that plan and suffer any loss of money."

"The decision was not intended to, and will not interfere with an effective combination of the two interests on lines that are now being considered."
