Assistant Superintendent C. M. Talcott, of the Pullman company, said that his company's damage would amount to about \$1,500, fully covered by insurance.

'In the building used by the Pullman company,' he said, 'were the linen, the fine wines and the cigars, the silverware and the china for the Union Pacific dining cars, and this was all practically lost. All of our records of the stock went up in the fire, so that we have no means of telling here definitely what was on hand. The system of the company is so complete, however, that the office in Chicago can tell exactly what was in the stock.

"Fortunately, the bulk of the linen was at the laundry and thus escaped. The fire may inconvenience us for two or three days, but we will telegraph the office in Chicago that the stock is a total loss and a duplicate stock will be forwarded at once."

TO FIGHT PACKING HOUSES

Butter and Egg Dealers Assert Their Rights Are Being Assailed.

CONVENTION AND ENCAMPMENT CONFLICT

Minnesota to Adopt lows School Methods-Death of Veteran Editor -Council Bluffs Man Delegate to Tuberculosts Congress.

DES MOINES, Ia., April 18 .- (Special.) A special meeting of the Iowa Wholesale Butter and Egg Dealers' association was held in this city today for the purpose of taking up the question of the invasion of what they consider their exclusive field by certain large packing firms, notably Swift's and Armour's. The association represents in itself thirty-five firms and individuals engaged in the butter and egg business in Iowa. It maintained an asso ciation for self-preservation for a number of years and has succeeded in holding the field for itself against all outsiders. The last year both Armour and Swift opened houses in the cities of the state to handle butter and eggs and are taking a good share of the business. The lowa dealers insist this is not fair. The packing companies are better able to do the business than the smaller dealers. They have storage houses refrigerator cars and freight lines and are in touch with the market for the product. The Iowa dealers in butter and eggs have determined upon warfare against the pack ing firms and met today in secret session to agree upon plans and methods. They have also induced the representatives of most of the fast freight lines running into the east to join with them, and a number of the owners of large storage houses in castern cities are interested and will give support to the dealers in any movement they may make to retaliate upon the packers. Conflict of Dates.

It is feared the conflict of dates between the republican state convention and the brigade encampment of the Iowa National to many. The encampment is scheduled to begin the same day as the state convention. A good many of those wno usually attend encampments also go to the state conventions. They will have to miss one or the other, in whole or part. The Cedar Rapids people are asking that the date for the first brigade encampment at Dubuque be changed from late in July to a date in June, so that it will come about the same time as the rifle practice meeting of the guard in Cedar Rapids.

If this should be done then the date for the second brigade encampment could be changed to late in July, at the time the first was to have encamped, and no conflict would follow. The other weeks in August were objected to in the state committee meeting because of the Knights of Pythia: grand lodge in Cedar Rapids the second week in August and the holding of district courts the latter part of August. I is probable some change will be made in encampment dates, which have not yet been officially promulgated, though it is not decided how this will be made.
