"Quincy Adams Sawyer" Promises to Be the Book of the Season.

AN ENGLISHMAN'S LOVE LETTERS

Imogen Clark Writes a Story of Dutch New York—Choirs and Church Music—Cornelle's Life and Work.

During the last week a large number of new volumes, many of them more than usual importance, have put in an appearance, but unquestionably the book of the week, and the one that will be read and talked about for a good many weeks to come, is "Quincy Adams Sawyer."

A curious copy has been made as to the authorship of "An English Woman's Love Letters," which has already attracted an enormous amount of attention.

A quotation from Browning's "Pippa Passes" gives its name to Imogen Clark's latest story "God's Puppet."

of the character of this young man is a study in heredity and selfishness. The story throws a flood of light on the narrow, parochial life of early Dutch New York, which is contrasted with the broader worldliness of the ruling English set.

"Old Bowen's Legacy" by Edwin Sax Dix is a new book by a young author whose first novel, published a year ago, is already in its eighth edition.

"Choirs and Church Music" by Arthur Mees, has been added to Scribner's Music Lover's Library.

Among French authors of the past no name stands out more prominently than that of Corneille, who was the first to make a French drama a thing of art as well as of action.

McClure, Phillips & Co. have just brought out in appropriate form a revised edition of Ida M. Tarbell's "Life of Napoleon."

STRIKERS AS THEY BEGAN

Shaffer and Jarrett Agree to Conditions that Obtained Before.

W'KEESPORT PLANTS RESUME MONDAY

Old Contract Clauses Governing Working Conditions and Wage Scale Will Be Observed Until First of July.

PITTSBURG, April 18.—There will be no strike in the plants of the American Sheet Steel company. The trouble that broke out in the Dewees-Wood plant in McKeesport last week and which for a time threatened to cause a general strike of all union iron and steel workers in the country has been settled in an amicable manner.

During the morning session of the executive board John Jarrett, acting for the American Sheet Steel company, appeared with a proposition for the members to consider regarding a settlement of the difficulty.

We have discovered, after a careful examination of the contract, that as usual, mistakes and misunderstandings underlie the trouble at McKeesport, and we reach the conclusion that every wire to the advantage of all parties concerned in the Wood plant will be the old contract on next Monday.

The company officials, on the other hand, say that so long as the local among their men does not try to force recognition and the men work under the personal agreement with them they would not allow any feeling against the men.
