Society Has All in Prespect and Not Much in Realization.

FUTURE BIG WITH UNCOVERED EVENTS

When House-Cleaning and the Like is Finished the Omaha Homes Will Be More Lively Than for Months.

Though the early spring season ordinarily affords ample amusement for at least the femin'ne portion of society, another week has passed with only a card party or so and a half dozen small, though very elaborate, luncheons to liven it up and those who know give little promise of any greater activity for at least two weeks to come. To be sure, this is the season when even society has to exchange its furs for its dusting cap and give a thought to the rearrangement of things preparatory to the months that matron and maid and such of the men as can get away will spend out of town. Even so, this season has come early this year and it is disappointing to not a few that so many of the fashionable homes are being rearranged and furnished at the expense of almost everything social. Dame Rumor, however, gives the whispered consolation that there is method in this unusual domestic activity, in a few cases at least, and that early June, at the furtherest, will bring ample proof of it.

Out at the Country club everything is being gotten in readiness for the summer and every day, when the weather will permit, parties go out there for a game or to look the place over and the Benson road is again becoming the popular drive for those of the smart set that have fast horses or still care for wheels.

One of the prettiest features of the week was the celebration, on Tuesday, of the 80th birthday of Madame Powell. A resident of Omaha for many years, she has been identified with nearly every prominent woman movement of the city, having also figured prominently in its social life, and on guest next week Miss Mary Burke of Chi-Tuesday afternoon and evening, in spite of the weather, many friends, especially from the older families of the city, called ou Friday to visit their brother, Mr. S. The New Discovery for Catarrh Seems to Possess Remarkable Megit.

A new catarrh cure has recently appeared which to far as tested has been remarkably successful in curing all forms of catarrh, whether in the head, throat, bronchial tubes or in stomach and liver.

The remedy is in tablet form, pleasant and convenient to take and no special secreey is maintained as to what it contains the tablet being a scientific combination of Guaiacol, Eucalyptol, Sanguinaria, Hydrastin and similar valuable and harmless anti-septies.

The safe and effective catarrh cure may be found at any drug store under name of Stuart's Catarrh Tablets.

Whether the catarrh is located in the nose, throat, bronchial tubes or stomach, the tablets seem to act with equal success removing the stuffy feeling in head and nose, clearing the mucous membrane of threat and traches from catarrh secretions, which cause the tickling, coughing, hawking and gagging so annoying to every ca-

Dr. Eaton recently stated that he had suc cessfully used Stuart's Catarrh Tablets in old, chronic cases, even where ulceration had extended so far as to destroy the septum of the nose.
