Bad Circulation is the cause of 1 ost of the ills that come with old age. With advancing years there is a decline of strength and vigor—the machinery of the body moves with less speed and accuracy. Because of the weak and irregular action of the heart the blood moves more slowly, becomes impure and loses much of its life-sustaining properties, and muscles, tissues and nerves literally starve for lack of nourishment. A sluggish and polluted circulation is followed by a long train of bodily ailments. Cold feet, chilly sensations up and down the spine, poor appetite and digestion, soreness of the muscles, rheumatic pains, hard and fissured skin, face sores, chronic running ulcers on the lower limbs and other parts of the body—these and many other diseases peculiar to old people are due to a lack of healthy blood and imperfect circulation. Restoration to health must come through the building up and purification of the blood, thus adding strength and tone to the vital organs and quick, healthy action to the circulation.

S. S. S. being strictly a vegetable blood remedy and the best tonic, makes it the meet valuable and efficacious of all medicine for old records. It is free from all

of every character, even those inherited or contracted in early life. As the system gets under the influence of S. S. S. there is a marked improvement in the general health, and as richer and purer blood begins to circulate through the body the appetite improves, and there is a softness and elasticity about the skin that you have not noticed for years; sores begin to heal, pains in muscles and joints gradually cease, and you find that it is possible to be happy and healthy even in old age. Our medical department is in charge of physicians who make a study of blood and skin diseases. If you would like to have their opinion and advice in your case, write them all about it and you shall receive such information and advice as you want. This will cost you nothing. Others have found our medical department of great benefit to them—their cure being much more rapid as the result of some special directions received from our physicians.

Gompers Considers Pittsburg Project Unnecessary in Addition to American Federation of Labor.

WASHINGTON, April 27. - President Gompers of the American Federation of Labor today gave out the following statement referring to the Pittsburg project for the organization of a central labor council: "It seems to me that it is useless to attempt the formation of a new general or-

ganization of labor, for, as a matter of fact, never in the history of labor has there beer as there is today under the banner of the American Federation of Labor. Anything that the organized workers can do can be done most effectually through the already equipped American Federation of Labor. It is simply a question whether the mem bers and organizations will it so."

If elected governor he will hope to secure a democratic legislature, in which event he will seek an election to the United States senate to succeed years acted as city clerk. He was 45 years Governor Dietrich, whose term will expire in 1905. From the best information I can get I really believe that Mr. Bryan will not look for the presidential nomination in 1904.
