UNITED COMMERCIAL TRAVELERS' SESSION

Grand Connell for Nebraska Elects New Officers and Selects Grand Island as the Next Place

to Meet. Every train which came into Omaha yesterday brought United Commercial Travelera to attend the fourth annual session o the Nebraska grand council of that order. Visitors were welcomed at the stations by committees from the Omaha council and escorted to the headquarters at the Millard hotel. At 11 in the morning the first

ses ion of the council was called together in he Royal Arcanum hall, Bee building. ayor Frank E. Moores welcomed the ngers to the city and C. F. Cherry of ings responded. All the officers of the gi d council were present and the meetin, immediately began the consideration of business. A brief adjournment was taken

In the afternoon the following choice of officers for the coming year was made Grand counselor, T. A. Walton, Grand Island; grand junior counselor, J. H. Hershberger, Lincoln; grand secretary, C. M. Cruncleton, Beatrice; grand treasurer, W A. Brooks, Beatrice; grand conductor, W. H. Howland, Hastings, grand page, C. A. Sigafoos, Fremont; grand sentinel, Ed Get-

Officers All Promoted. Thomas F. Bartlett of Lincoln was the officer who retired. All the other officers of last year were promoted. Ed Getten of Omaha was the only new officer chosen. C. Green of Norfolk and C. J. Miles of Hastings were named as delegates to the meeting of the supreme council, which will be held in Columbus, O., early in June. For three years C. J. Grand Treasurer W. C. Brooks spoke on "The State of the Order." Robert M. Joyce of Lincoln gave a humorous toast on D. P. Owen of Norfolk told of the ups and downs of traveling men. "Our Expense Account" fell to M. L. Dolan of Grand Island, who responded in a happy vein. G. E. George of Fremont spoke on "Counting the Ties." The last speaker was D. K. Clink of Chicago, grand counselor of Illinois. His

subject was "Fraternalism as Exemplified by the United Commercial Travelers." Business meetings will be held by the counsel today until 4 o'clock in the afternoon, when the United Commercial Travelers will accompany the women of the party on a trolley ride through the city. This evening there will be a theater party at the Creighton Orpheum.

Neither of these men numbers among his clientele many of the regular patrons of the drama. Their work appears to a different class altogether, a class of big-hearted, wholesouled, every-day people who like to go to the theater once or perhaps twice a season to see an old favorite. Mr. Sully has been before the American people well nigh a offered the opportunity. The train crew score of years and with his dry, droll were given a schedule which called for

year. It had been two years since this sterling old Irish actor was seen here, and unfortunately his play then was a failure. This season, however, he has a play that in the parlance of the street, is a winner. Above all, it is clean and wholesome from beginning to end. Through it runs the thread of a pretty little love story. It has its pathetic side as well as its humorous The frolicsome spirit predominates to such an extent, however, that the audience is given little time for tears. Mr. Sully, in the character of a priest, is the much-needed peacemaker, and the character is not only one to his liking, but also one that fits him in every way. The supporting company as a whole is good and Omaha's fire department has responded the production praiseworthy. Mr. Sully's

pathos he has succeeded in making hosts of friends, therefore it was not at all sur-

well filled, considering the season of the

engagement was for a single performance.

Congested Business of Union Pacific Causes Renewal of Clamor for Enlargements.

Omaha freight house of the Union Pacific causes the renewal of the request for more It is probable the three platforms 000, whose contents were worth \$132,750, will be extended at once and the extension making a total of \$405,750. The actual loss of the freight house may be given due at-

could be handled with better satisfaction to all concerned if more room were at the dis-

posal of the force. It has been learned definitely that the authorities are considering some relief. but it is probable that the (emporary relief will come in the extension of the platforms. The house is of a permanent character, the roof being heavily trussed with bridge steel, which would require time for its preparation. The extension of this may follow, for the indications are that all of the room will be needed by the time the

building could be enlarged.

MAKES RECORD BREAKING RUN Daniel Sully is a household word among Union Pacific Goes Better than a Mile a Minute for a Run of One Hundred and Fifty-Six Miles.

A record of 156 miles in 153 minutes was made by the Union Pacific Friday afternoon. This was just three minutes better than the best. The conditions were good for some fast

running and the delay of the fast mail

the speed, and Mike Decker, whose turn comedy methods and his heart-reaching it was to preside at the throttle of the big 1800 engine, smiled as he pulled out prising that Boyd's theater was unusually the lever and replied, "Well, we'll show them a thing or two today." The train swept sast from Grand Island. The first calculation showed that Decker was making about sixty miles an hour. After a while he pulled the lever to seventy-mile notch, then to a seventy-five

mile notch and when he got by North Bend

he had the bigmonster pounding the rails

at an eighty-mile clip. This was repeated

between Elkhorn and Millard. Several stretches were covered in the seventy-five mile clip The train rolled into the Union stat'on at 5:40 and five minutes later it was at the end of the line at the Union Transfer n Council Bluffs, completing the 156 miles

n 153 minutes. Owing to some trouble on the Central Pacific the trains from that connection continually keeping the attractive lounging were all late. This was the first section of the mail trata carrying the mail and only a part of the passenger traffic. FOR A LARGER FREIGHT HOUSE engine was the regular 1800, with Mike Decker and Fireman Andrews in the cab. Conductor Parks, belonging to the freight

service, was in charge of the train. The schedule for No. 102 calls for some fast work every day, but the public knows The present congested condition of the nothing of it unless some curious passenger happens to pull his watch out and count the mile posts as they fly by. It is no out that the train is jogging along at seventy miles an hour.

It frequently happens that considerable time is made up after the train strikes this division at Grand Island. The record for that run, 156 miles, has stood at 156 minutes, just a mile a minute, until Friday afternoon. Thursday the train made up forty minutes between North Platte and Omaha, a distance of 291 miles, and that

was accomplished in a few spurts. SERGEANT WHELAN IS

3803 Kimona or Lounging Robe, 32. 36 and 40 in. bust. Woman's Kimona Lounging Robe, No. 3803 .- Nothing that we have imported from Japan has taken a firmer hold on feminine fancy than the kimona robe, and nothing those interesting people have to import is more needed than the lessons of quiet and rest the gown suggests. Yet we prefer the modified forms of the garment to exact replicas of the originals and, it is to be feared, have imbibed their teaching only in feared, have imbibed their teaching only in part, but habit accomplishes a great deal and association is a potent influence. By robe at hand even American nerves can be partly rescued and something of Japanese calm and peace induced by hours of com-

fortable rest and relaxation. The attractive example illustrated is made from flowered silk of genuine Oriental make in duil rose tints, in white, with borders of plain white, but in addition to all the lovely silks offered, cotton crepes, wool crepe de chine, simple Scotch and French flannel, cashmere and albatross are all used as well as such washable fabrics as strange thing for such an inquirer to find cheviot, madras, percale, dimity and foulardine. The garment is absolutely simple and includes shoulder and under-arm seams only. Both back and fronts are laid in tucks that run to yoke depth and provide fullness below, while the latter are turned back at the neck to form, revers.
