LESSON TAUGHT BY THE TRANSVAAL WAR

Eava Capitalist Has Neither Nationality Nor Conscience.

Brands Democracy as a Delusion So Long as Labor is Economically Ensiaved and Invokes the Interference of Nations.

(Copyright, 1901, by Press Publishing Co.) LONDON, May 4 .- (New York World Cablegram-Special Telegram.)-Keir Hardie, home in United States square. This time M. P., leader of the English workingmen's there was a sort of Venetian fete, half outparty, has given the following signed statement to the World on the effect of J. Pierpont Morgan's trust enterprises and his view of how they should be encountered

Considerable alarm has been caused by the action of J. Pierpont Morgan in stretching his paw across the Atlantic and clutching our steel and shipping trades in

"The trust constitutes the modern menace to progress. It places the producer and the consumer alike at the mercy of the over-rich. The trust is more rapacious than the robber barons were of old. It is a bandit of commerce, the vampire of trade, bowelless and rapacious.

"The trust is a veritable daughter of the horse leech, and like hell and the grave can never be satisfied. The trust is dangerous to national life and destructive of freedom of the individual. Its operations can only he successful through intimidation of the workingman, corruption of the press and control of politics. These form the stock in trade of the trust system. Eng-land has found that fact out to her cost through the war in the Transvaal, a war of financiers seeking to secure higher dividends through reducing the wages of white workers and enslaving the black workers. "Part of the means by which these ends are to be secured is the crippling or de-

struction of trade unions. "Cromwell broke the power of kingcraft by beheading one of the Stuart gang, and now a power more to be feared than that of the Stuart race is growing up in the midst of us. The old kings claimed to rule by right divine; the trusts rule by the right of Mammon. The capitalist has no nationality. Acting through the trust, he has no conscience. The world is his field of operations and every race his victim.

What is to be done? I reply that either the agtion must own the trusts or the trusts will own the nation. Democracy, by which is meant the rule of the common people, is a sham and a delusion so long as labor is economically enslaved. Socialism offers the only way of escape. Monopoly is inevitable, and the question at issue all over the world is whether this monopoly in the means of life is to be privately owned and controlled and conducted solely and exclusively with the object of putting money in the pockets of the shareholders. or is to be owned and controlled by the nation and conducted so as to produce the highest possible happiness and the greatest personal freedom. Socialists advocate the latter as the better way."

WOMAN A HURDLE TO FAME

Paris Takes Seriously American Pro fessor's View of the Kiss as a Fac to Success

(Copyright, 1961, by Press Publishing Co.) PARIS, May 4-(New York World Cablegram-Special Telegram.)-"Good" Prof. Algie Crook of Chicago, who says he never has kissed a woman or a girl, is the subject of much comment in the French society papers. Leading novelists and scientists have been interviewed. Some pronounce the Chicago instructor foolish or monstrous, but a powerful clan upholds his theory that love for women, even love of the ideal type, seriously impedes a man who would be great and learned. Henry Fouquier in a long article adduces in support of this view Darwin, Goethe, Kant and Schopen-

hauer. Fouquier writes: "Victor Hugo in private letters repeatedly asserted his belief that if he had had the courage to resist woman's charms he would have surpassed Shakespeare and Voltaire. He believed that woman's company numbed his highest faculties. Bacon, too, asserts that marriage retards a man's success."

Fouquier finally quotes an interview given by Lord Kitchener to a Figare reporter when he passed through Paris after the Khartoum victory. Kitchener brutally asserted that he "wouldn't cross the street to win the most beautiful woman in the world, because he meant business in life and woman always wasted a man's time and destroyed his energy."

The funniest feature of the debate was introduced by Liberte, a Paris newspaper, which published the statements and photos of three girl students in the Lutin quarter, where Prof. Algie Crook is still well remembered. Each girl pretended that "Algie," as they called him, had misrepre sented the facts, though they admitted that his "temperament may have changed.

"Algie was renowned here," say the young women, "as the most ardent American male flirt in Paris. daciously, right and left." Each girl winds up her statement by trying to approximate the number of times she personally was kissed by the "good" Chicago professor.

FIRE NEGLECTED WHEN FIRST NOTICED

Proprietor Cleveland of Fiber Company Explains that Workmen Saw. but Were Indifferent to Warning Smoke.

JACKSONVILLE, Fla., May 4 .- Jacksonville's great fire which began yesterday has burned itself out. One hundred and forty-eight blocks of a beautiful city have been laid waste. The loss will not be known even approximately for a week, but it is believed it will amount to \$10,000,000. There are many rumors affeat of loss of life, but as every undertaker in the city was burned out it is impossible to obtain an official re-

One story which is persistently reiterated is to the effect that a party of men and women were driven to the docks by the fire and were compelled to jump into the water and that several of them were drowned Mrs. Hogan, a negro woman, was burned in her house and her charred remains were buried by friends this afternoon.

The burned district is thirteen blocks wide and two miles long and extends from the St. Johns river, where it burned ten docks, to Catherine street on the east, Orange on the north and Davis to the west, This immense area was swept as clean as floor. The city is under martial law and, all of the available state militia is on duly in the streets of Jacksonville. Some order is being brought out of the confusion. Jack sonville is facing the emergency caimly and

has organized for relief work. Ten thousand people are homeless and many of them left on the afternoon and night trains for St. Augustine and other near cities and nearby towns, while numerabout 100 other Chio citizens who are to our river craft took many to little places en the St. Johns river. Supply stations have been established in various parts of the cars, one being a dining car and the other by the hungry. The prompt action of Secof the barracks at Fort Barrancas, near St. Augustine, was received with gratitude on Central passenger station here Governor every side. The east coast trains leaving here at 5 o'clock this afternoon, carried to St. Appetstine over 2,000 people with hope to receive temporary shelter from the gov-

Telegraph Governors for Tents. A committee was appointed at a meeting of citizens this afternoon to telegraph the governors of various states to send all the tents they can spare to Jacksonville. It will be weeks before anything like permanent shelter can be provided for the homeless thousands, and Jacksonvile for some time to come will be a city of tents.

The relief fund raised by citizens of Jacksonville at a meeting this afternoon amounts to \$15,000. This was augmented tonight by telegram from the Armour company of Chicago instructing Mayor Bowden to draw for \$1,636. Other subscriptions are being received from many places. Jacksonville has not yet made any official application for aid. There seems to be some objection to this, but it is mainly based upon the assertion by many leading citizens that Jackonville and Forida can meet the emergency

The following telegram was received from the governor: TALLAHASSE, Fla., May 1.-MacWilliams, Adjutant General: Your call for Gainesville, Orleando and Stark companies approved. Flave appointed Lengle, B. R. Ward and Rogers special relief committee, placing \$20,000 at their disposal.
