Returns from His Visit to National Capital and New York.

ENTERS INTO DISCUSSION OF AFFAIRS

New Statesman Says There Will Be No Immediate Changes Among Nebraska Federal Officeholders.

Senator Millard is back at his desk in the Omaha National bank after a visit to Washington and New York. Speaking of his trip

the senator said: We were warmly received by the president and members of the cabinet, but had little time to consider matters, as it was a very busy season in Washington. The president and his official family were making preparations for their tour and there were many other things to occupy their attention. The Cuban delegates were at the capital at that time and received considerable attention. The president gave them a banquet, to which Senator Dietrich and I were invited. The delegates seemed to be able and pleasant men, who had the interests of their people at heart. They appeared to be energetic and thorough in their methods, but whether they are competent to govern the people of Cuba is a question yet to be solved.

Confronted by Problems.

There are many grave and intricate for \$60. problems to confront the administration during the coming year, but there is a universal feeling that the president and his advisers are able to meet all questions and settle them in the manner most advantageous to the United States. There probably never was an administration in which there was such universal confidence in all sections of the country and no president ever had the support as nearly unanimous, regardless of political bias.

We left the matter of federal patron age in Nebraska largely to be discussed at another time. There was little opportunity to, enter into this matter with the heads of departments, and there is really little occasion to bring it up at this time, as none of the terms of the present officeholders have expired. I can say that as a rule there will be no changes in the important offices in the state until the present officers have served their full term, and there remains plenty of time to consider the applications of those who desire to succeed them.

Senator Talks Finance.

"I have been in New York many times, but never was I there when there was such excitement in the stock market. On every hand you hear of fortunes made in a few hours by men who have purchased stocks, and the fever of speculation has entered the veins of nearly every class. There is a feeling that there will be no reaction, and as far as I can see this feeling is based upon sound logic.

There is a revolution in money matters in this country, and it is probable that investors will speedily come to be satisfied with smaller returns for their money. Three and 4 per cent per annum is nov looked upon in New York as an adequate return for money. With this fact in consideration the great rise in price of Union Pacific and Burlington stock assumes new phase, and the appearance of abnornew phase, and the appearance of abnormal 'boom' disappears. Burlington stock has been for some time paying a dividend of has been for some time paying a dividend of 8 and 9 per cent, while Union Pacific stock is paying almost as much. There is no reason to believe that there will be any reduction in the earning power of these roads, which are now beginning to be looked upon as parts of great transcontinental systems which will control a large part of the shipping of the country. With these stocks at 200 per cent they will pay from 4 to 416 per cent on the investment. which, as I have said, is considered a fair return in New York today."

Bee May 8; \$1,500 in prizes.

FOR A HUNDRED MILLION

Mortgage with \$50,000 of Revenne Stamps Goes on Record in This County.

One hundred million dollars is the amount of a mortgage filed in the office of the Douglas county register of deeds. is the first lien mortgage and deed of trust from the Union Pacific Railroad company to the Mercantile Trust company of New York, given to secure the payment of an issue of \$100,000,000 of 4 per cent gold bonds, dated April 15, 1901, and due May 1,

The original mortgage was not left with

the register of deeds, but it was brought there by a Union Pacific employe, so that the register might certify on its face that a true copy of it had been filed. Copies will have to be filed in every county in Nebraska, Kansas and Colorado which the Union Pacific railroad touches. The fee for filing in each county in this state is \$26. The original mortgage is an interesting document on account of the \$50,000 worth of revenue stamps it bears. There are fifty stamps of the \$1,000 denomination, twelve

on each of the first four pages of the mortgage and two on the fifth.

Homeseckers' Excursions. On Tuesdays, May 7 and 21, the MIS-SOURI PACIFIC RAILWAY will sell round trip tickets at very low rates to points in Kansas, southwest Missouri, Arkansas Oklahoma, Indian Territory, Texas, etc Also to certain points in the south and southwest. For information write to or call on the company's agents, southeast corner 14th and Douglas Sts., Omaha, Neb. J. O. PHILLIPI, T. F. GODFREY, A. G. F. and P. A. P. and T. A

IF YOU ARE TORTURED

By Diseased Kidneys, Don't Delay a Moment, but Take

CRAMER'S KIDNEY AND LIVER CURE. In cases of kidney trouble, the blood leaves the kidneys in a worse condition than it enters them, and instead of flowing on to other parts of the body pure and lifegiving, it finds its sluggish way to the other vital organs surcharged with deadly poisons that make havoe wherever they may be carried. This strong endorsement from Mr. Gordon ought to convince the most skeptical that Cramer's Kidney and Liver Cure is the medicine you want.

"For many years I had a terrible time with my kidneys and liver. No digestion; could not work and was miserable; going to change climate-everything I tried seemed to do me no good. A friend advised me to try Cramer's Kldney remedy. Without much faith I bought a bottle; saw a little improvement; continued to take i until I recovered completely. In justice to you and in gratitude for what it has done for me I give you this endorsement. Respectfully Yours.
