A Fearful Struggle.

Harper's Bazar: "There goes a man who is having a fearful struggle with his appetite."

"What, that clean-cut, healthy-looking chap over there?"

"That's the one."

"Why, he doesn't look like a slave to any appetite.

"He is, though: and be's having an awful time of it. He grits his teeth and succeeds in subduing it for a whole day, maybe, but the very next it conquers him and he's just as bad off as ever."

"What is it—whisky?"

"Oh no! He never drinks."

"Morphine?"

"No. indeed."

taken to mean that the Redwater Mining company intends to do something out there titis senson in the way of building a smelter, The Hardin companies have been consolidated and it is the intention some day to erect large smelting works on Redwater river, one of the largest streams in the Black Hills. The ere will come from the mines ir the Two Bit district, which are being developed. There are immense bodies of low grade pyritte ore in the Original Hardin mine at the present time and work has been resumed in the shaft of the Chicago and Two Bit company. The Hardins intend to lay out a town on Redwater, where they have 3,000 acres of choice farming land. There will probably be some rail. road building in that direction this season,

Big Deal at Garden City. A big mining deal is pending in the Garden City district at the Realization group of claims, owned by E. May and associates of Lead. A shaft and crosscuts have opened a big shoot of silicious ore that runs high enough to values to pay well for cyaniding. The workings have all been pumped out and eastern parties are expected to make a thorough examination. There will probably soon be a consolidation of the Burns & Little Mining company and a number of other properties in the district, all of which show ore exposed in large shoots. This would

mean a cyanide plant for the district. Rushes the Golden Slipper.

J. B. Safford of Chicago is rushing work at the Golden Slipper mine east of Hill City, He has purchased a boiler and steam hoist velopment from the grass roots to the 300foot level, the ore averaging about \$15 per

ton gold. A number of Chicago capitalists are interested in the mine at present, There is considerable speculation at Keystone whether or not the Holy Terror Min-is asserted that the ore is richer than ever. There is not much credence placed in the

rumors of the shutting down. The Holy Terror mine has paid good div-idends up to within a few months, when the work was done on half time only, waiting the result of the pending trial. Twenty and those who are familiar with the property assert that the cleanups are as large as ever. McCarty of Rapid City gets an

interest in the property that is valued at \$40,000 or \$50,060. Howell Clevenger of Rapid City, a stu-dent of the State School of Mines, will soon start up the little cyanide plant at the old chlorination works, near the School of Mines building. Last summer he experi-mented with the old tailings from the chlorination plant and found that he could cyanide them at a good profit, making from \$5 to \$6 per ton. He put in a number of cyanide tanks and cleaned up over \$1,000 in his first few runs. It is stated that he will increase the capacity and will run dur-

It is expected that the Golden Reward company will begin work on the erection of its 200-ton cyanide plant in Deadwood in few days. The company has an immense amount of cyaniding ore in its Bald mountain mines. The Imperial company of Pennsylvania will also commence this mouth the erection of a 100-ton cyanide piant, probably within the city limits of Deadwood. The mining property in Blacktail gulch is developing into a big proposicut that give as good average value. There are several thousand feet of the ore, as de-termined by former development work. A railroad will be built up Blacktail gulch this season, in all probability. Another new cyanide plant will soon be in course of construction at Ragged Top by the Colorado-South Dakota Mining company. Rev. C. E. Giddings has organized this company, having interested a brother in Colorado and Omaha parties. The annual election of offi-cers of the company will be held the fore-part of this month, at which time final arrangements will be made for the erection of the new plant. A large amount of ore has airendy been blocked out that is rich enough to cyanide well. In this same district a new Colorado Springs and Denver company has bonded a big block of ground and there is little doubt but that the deal will be consummated this month and a cyanide planti
