HOLLEMAN & RIPPEY.

Shortage, but no advance have been reported.
Prices on window glass were marked up again on Saturday, as was expected by those posted on the situation. The advance minounits to about 7 per cent, and with the association factories will close down the association factories will close down the same lime in October. They usually close during the summer, but this is about a month earlier than usual. This scitton on the part of the manufacturers of course has a tendency to strengthen the market and those who are in a position in know say there is no possibility of lower prices for at least six months. Phite glass continues in good demand and prices remain unchanged. The market on paints lineed oil and turpentine also holds just about steady.
Many Buyers Arriving.

So far as the leather goods trade is con-rerned there is not much new to be said. Very few sizing-up orders are being te-tailers have not sold enough stock as yet to make the buying of more goods necess-mary. Traveling men are all husting for fail orders and are meeting with excep-tionally good success. Everything at pres-ent points to a very nine receiter business in summer lines and an elegant trade in winter goods. About the only thing there is for rubber

winter goods. About the only thing there is for rubber men to do is to sell rubber clothing and they are doing that with good success. Re-tailers are taking hold in an encouraging manner and it looks now as though more advance orders would be taken than ever here in some sections of course ever before. In some sections, of course, con-siderable stock is being carried over from hast year and in those cases it is impos-sible to sell more goods at this time.
