Brief Blography of General Grant-A Sailor's Log-Valuable Text Book of Astronomy-Review of the Last Century.

Although the summer season is near st band, when people are popularly supposed and exciting incidents are blended in this to do less reading than usual, the presser of the great publishing houses are busily employed in turning out books of all kinds. During last week a number of notable volumes came to hand, some of them of more than usual importance.

An admirably told story of colonial days in Maryland and Virginia is "Sir Christopher," by Maria Wilder Goodwin. It is a romance of a Maryland manor in 1644, and some of the characters who figured in Mrs. Goodwin's "The Head of a Hundred" are also seen in this story. This new romance shows a marked improvement in the handling of a plot, and the first half, which deals with the unsuccessful suit of Sir Christopher Neville for the hand of Mintress Elinor Calvert, contains some dramatic passages. The two had been boy and girl together in England, and Sir Christopher follows Eliner to the colonies because he cannot get her image out of his mind. He finds her a young widow, with one son, as beautiful as when he first knew her in England, and he persuades her to accept him as tenant for the large farm in Maryland which has descended by inheritance to her son. She is glad to see Neville again, but on their first meeting, at the house of her cousin, he quarrels with a sour-tempered priest and thus revives Gray, David Dudley Field and Waype Macthe old differences of religious faith that originally separated them. Sir Christopher sets out at night to beg the priest's pardon. but is attacked by a panther and loses his knife in slaying the beast. The priest being found slain with Neville's knife Sir Christopher is arrested by the governor and formally charged with the crime. How he is spirited away from the jail, and by what strange fortune, after a year, he returns in time to save the life of Elinor's child and to make her happy, it would be unfair to the reader to tell. It must suffice to say that the mystery of the crime is well preserved almost to the end. What Mrs. Goodwin has done exceptionally well s to picture the manners and customs of the colonies in the middle of the seventeenth century. Little, Frown & Co., Bostop. Price, \$1.50.

The heroine of "Her Mountain Lover, by Hamlin Garland, a romance of today, is a Chicago girl and "Her Mountain Lover" is one of nature's nobleman, who has been a cowboy, but is now a Colorado miner. On his way to England to sell an interest in the gold mine which he and her uncle own Jim meets her for the first time and falls an easy victim to her simple charms, but being sadly inexperienced in affairs has published a valuable text book of asof the heart he does the same thing in the case of a clever irish novelist, who throws paring a text book it has been necessary to berself at his head in London. How the omit much matter interesting as well as tangled thread of his affections is straightened out in the long run, the reader will though he has endeavored to concentrate enjoy discovering for himself. Suffice it attention upon those parts of the subject floor length, full length or elbow sleeves. to say that the story is related vividly and that possess special educational value. In A dainty lounging robe that is sufficiently directly; that the broad-shouldered, manly other words, he has written a book for the tasteful to allow of receiving her intimate miner is a very real and charming char- use of students rather than for popular friends is essential to the comfort of every acter; that the story of his love-making reading. The illustrations are very fine woman of refined taste. The very charmabounds in picturesque incidents and effec. and are worthy of as careful study as is the ing example illustrated is peculiarly tive contrasts, and that its atmosphere is text, the books being especially rich in star adapted to just such use and can be made resh and invigorating throughout. No knot was less than perfect or the first blush of youth writes: "My little sister had the croup as a master of fiction. The Century com- Century Text Books." D. Appleton & Co., pany. New York. Price, \$1.50.

A recent addition to that most excellent series known as "The Riverside Biographical Series" is "Ulysses S. Grant." a sketch of the life and public services of the great commander, by Walter Allen. It is a little volume of only 150 pages, but within that brief compass is told the story of the lifework of a man whose name is inseparable from the history of his country. It relates the salient features of his early life and manhood and of his various campaigns during the war of the rebellion, besides a very good review of his services as president of the United States. It is no easy matter in such brief space to relate in an interesting manner the events of a life fraught with so many and such great actions, but the author has accomplished his task in a commendable way. Readers with insufficient time to attempt the more exhaustive works will find this little volume well suited to their needs. Houghton, Miffin & Co., Boston, Price, 75

"A Sailor's Log," by Admiral Robley D. Evans, is the most picturesque book of the sea which we have had of recent years. Admiral Evans, who is known to every American, has been in active sea service almost throughout a long and stirring career, which has included two wars, a near approach to war in Chili, an exciting campaign against piratical sealers in Alaskan waters and adventures and strange experiences in every quarter of the globe. His earlier years afford a charming picture Virginian life before the war, from which the reader passes to thrilling incidents of Indian fighting and buffalo hunting on the plains while the boy was on his way to Utah to qualify for an appointment at Annapolis. The approach of the war, the varied phases of service, the bloody and dramatic assaults upon Fort Fisher and the picture eketched incidentally of the gallant young officer, undaunted by wounds, offer chapters of most vivid interest. In the pages which follow the reader passes from hunting trips his constituents. The fact is grudgingly and it keeps the alderman in touch with the found a number of property owners who in Chins, adventures with cobras in Singaadmitted by city hall mossbacks that Honore people he is serving. pore, or war clouds in Japan, to tales of Palmer is setting the pace for his associshoets in the Mediterranean and land ates as a practical common-sense official. cruises in Liberia and southern Africa. An inner view is given of the acute Chilean difficulties which so nearly led to war and another fresh chapter of history is told in the graphic accounts of the clever strategy and ceaseless vigilance which demoralized the pirates of the north on the sealing The reader is introduced to the sception of the new navy, to the development of the ordnance department and work of the lighthouse board and to other phases of professional work, which are sketched language singularly eloquent, simple and graphic. At the opening of the Kiel canal Admiral Evans saw much of the Ger- ings and treated the opening very much as at it in a businessitie way. "Young men man emperor and personal recollections a social function. The fact that the first are so entertainingly ambitious, you know. of the kaiser all many most entertaining caller was a subscription solicitor was pages. A poem by Kipling and a fresh deemed especially amusing. But the people sketch of intimate experiences in the of the ward liked the idea. It was gratify, aldermen are new giving personal attention Spanish war are among the many brilliant features of this remarkable book. "A found; it was a satisfaction to know that wards, and Alderman Scully of the Thir-Sailor's Log" depicts the old navy under there was a place where all legitimate comsail and the transition to the navy under plaints would receive immediate attention; steam and the modern battleship. As a it was easier to go to the ward office than for his inspection trips. Such is the effect midshipman Admiral Evans learned to go to the city hall to see about matters that of example. There is today a real rivalry aloft and furl sails; as a captain he has directly concerned the ward. Here was a nanded the cruiser New York and the place where needed improvements could be battleships Indians and lows. His book discussed and the necessary action planned. most for his ward. It should not be unsuggests the extent and value of a naval It made the ward more of a unit than it derstood that they were totally neglected officer's work. It is a book of historical ever had been before.

importance and it is a peculiarly infimate, very best use possible of the 582 pages at vivid and personal story of a most varied their disposal. Harper & Bros., New York. and picturesque career. D. Appleton &

Mr. White, who is a new American writer, Pressed with presents a fresh and delightful romance of the creatures youth in his new work, "The Claim Jumpers." The central figure, a conservative HAMLIN GARLAND'S MOUNTAIN LOVER eastern type, is placed among the novel and picturesque environments of a western tures develop his manify qualities and prove manner, that he is at bottom a workless and prove that he is at bottom a worthy American in pluck and staying power. The love story that runs through the book suggests the poetry and romance of youth rather than introspective analysis, and it is full of sympathetic human interest. Humorous types fresh and most entertaining story by a writer whose first novel will be cordially welcomed. The volume forms a part of that interesting series of fiction, "Appleton's Town and Country Library," the general excellence of which has made it deservedly popular with readers. Price, \$1.

> A very interesting book is "If, or Turning Points in the Careers of Notable People." The author is James W. Breen, a veteran newspaper man of Phisburg. The title page indicates the character of "Lucky and Unlucky or ! the Lottery of Life, Is Ability or Opportunity the Determining Factor of Success?" Under the heading "Chances in War" we find explanations relative to the exact point at which success came to Napoleon. the duke of Wellington, Admiral Dewey William T. Sherman, Von Moltke, Washing ton and other military beroes. Under the caption "Chance in Politics" are discussed Theodore Roosevelt, Thomas B. Reed Grover Cleveland, William McKinley, Salmon P. Chase, James G. Blaine, Samuel J. Tilden and Speaker Henderson, Senator Quay and Chauncey Depew. In law he discurses, among many, Attorney General Knex, Supreme Court Justices Shiras and Vengh. In real estate Mr. Breen confines himself almost exclusively to Pittsburg characters. In literature and journalism he discusses Thackeray, Sir Edwin Arnold, D. Howells, John Hay, John Brisben Walker, Cardinal Newman, James Gordon Bennett and Oswald Ottendorfer. In religious matters he cites Cardinal Gibbons. Cardinal Manning, Cardinal Satolli and Archbishop Ireland. Pittsburg Printing Co.

"In Love and Truth" is a novel by Anita Clay Munez. It is a portrayal, under the guise of a story, of the ins and outs of Christian Science, which is now attracting so much attention. The characters are drawn from life and are sharp and graphic The literary spirit pervades the book, and while the conclusions reached are strongly adverse to Christian science, yet the dislogue is conducted without rancor. The public is seeking for books on this subject pro and con. The Abbey Press, New York

Numerous writers have essayed to tell of the achievements of the nineteenth century in various fields of progress. A new volume along similar lines, but far more is at hand, entitled, "The Progress of the Century." Instead of being the work of one man, as was the case with most books of the kind. "The Progress of the Century" represents the combined efforts of fifteen specialists. The book includes the following: "Evolution" by Alfred Russell Wallace: "Chemistry," by Prof. William Ramsay: "Archaeology." by Prof. W. M. Flinders Petrie: "Astronomy, by Sir Joseph Norman Lockyer: "Philosby Edward Caird: "Medicine," by ophy." William Osler: "Surgery." Keen: "Electricity," by Prof. Elibu | 24, 36, 38, 40 and 42-inch bust measure. Thomson: "Physics." by President T. C. Merdenhall: "War." by Sir Charles Dilke:
