ALBANY, N. Y., May 18.-The great street rallway strike, lasting twelve days, requiring the presence of 3,000 members of the National guard in the city, costing the lives of two prominent merchants and entailing an expense to the county of Albany of over \$39,000, is amicably settled and if the agreements are kept there will be no trouble for three years at least. The ominous calm which followed the killing of two inoffensive citizens two days ago, by National guardsmen defending property. was succeeded this evening by hysterical enthusiasm when public bell towers and ity newspapers proclaimed that the twelveday strike on the street railways of five citles had been settled. Flags flying from public and private buildings, horses and wagons decorated with bunting and the national emblem, citizens carrying small flags in their hands and enthusiastic youths and otherwise dignified citizens chasing after the cars, marked some of the earlier

scenes of the afternoon. The repair wagons left the traction company's barn with its old union crew aboard and going along Pearl street, received an It was decorated with flags and escorted by a joyful crowd, very different from the angry mob that had followed the cars the last few days. Tonight several of the lines are running in this city and all of them in the other cities, and by noon tomorrow all the lines will be running on schedule time with union men.

The first information of the settlement of the strike came at an early hour this morning from Troy, where it was announced that the Troy division of the Railway Employes' union had agreed to sign the agreement presented at last night's conference. Following this notification the other divisions met in Albany, and after they had signed the Traction company officers signed it, and at 11 o'clock this morning it became binding.

Concessions for Each. As is usual, both sides to the controof the agreement it is evident that the striking men won these concessions:

Increasing night men and extra men's

wages to 20 cents per hour. Granting men the right of appeal from ecutive board.

No discrimination against strikers who have not committed violence. The Traction people obtained these con-

cessions: That men who were on strike and com

mitted violence shall not be reinstated CAMBON LIKELY TO unless proven guiltless. That the road may hire or discharge any man without reference to his affiliation

or otherwise with a union. That no proposition to strike shall be acted upon until forty-eight hours have elapsed from the time of notification, and that if a strike is ordered it shall not take

effect until six days. The withdrawal of the Guards was as expeditious as was their coming here. When General Oliver was informed of the agreement orders were issued to the Secend and Ninth regiments to prepare to leave immediately, and they had taken in PARIS, May 18 - (New York World their details and broken camp before General Oliver received word from Sheriff McCreery that the troops were not needed any more. The Second regiment was ready to go to Trey by 4 o'clock and at 7 o'clock tonight the Ninth of New York had also left the city. The Tenth battalion was ordered to disperse about 7 o'clock, as was also the Third Signal corps, and the only armed force here is the Twenty-third Brooklyn, which will leave tomorrow morning. The nonunion men wil be sent back to the cities whence they came.

The funerals of the two victims of the soldiers' bullets will take place tomorrow

Le Matin simply announced that it was about to send Gaston Stiegler out to ascertain by actual travel how long it would take, using only the means accessible to the ordinary tourist. But next day Le Journal announced that one of its own men. Henri Turot, would start in an opposite direction, by way of New York, and try to beat the time of Le Matin's reto start at the same time as the other two. Finally, yesterday, Rumor, an English paper, announced that it would enter the race. The conditions preclude chartering railway and steamship routes. The bet-
