Today's session was secret and probably sessions will continue during the discussion of the two reports. Senor Cieneros moved that Alejandro Rodriguez's seat in the convention be declared vacant and that his alternate be appointed the regular delegate. Finally, however, it was agreed that Rodriguez did not come under the rule regard-

ing delegates accepting office. Senor Cisneros took occasion to say that the commissioners who went to Washington did not investigate public feeling in the United States regarding the Platt amendment as they should have done, but they allowed themselves to be "steered" by administration sympathizers, and took no opportunity to hear anything contrary to the amendment. He asserted that he was in receipt of letters from New York advising the convention not to accept the amendment and assuring him that public opinion his end. Hawslinn Legislators, in Extra Session. Cut Down Government Expense.

HONOLULU, May 13 .- (Via San Franciaco, May 20.)-The extra session of the legislature called by Governor Dole for the consideration of appropriation bills is now in session, and the committee work done so far shows the expected general slashing into salaries of government officials. A large number of clerks and other minor officials will probably be left unprovided for altogether, and the heads of all departments are cut.

On the first day of the extra session the home rulers passed a resolution asking the governor about the county government act, which was left in his hands at the end of the regular session, and which fell a victim to a pocket veto. The passage of the resolution to make this inquiry was preceded by a very flery debate, in which Representative Emmeluth declared that the governor must be removed. In response to the resolution the governor s secretary replied that no action had been

taken with regard to the bill. The executive reply brought forth a resolution of "want of confidence" in Governor Dole. The resolution, introduced as a concurrent resolution by Representative Emmeluth, passed the house by a vote of 12 to 11.

The Hawatian Bar association has asked President McKinley to appoint another circuit judge for the territory, as provided for by the act passed by the legislature, calling for three judges in the first circuit. The act was passed on account of the overcrowding of the calendar.

Carnegie Giver Nearly Ten Million Dollars to Establish Free Education in Universities.

LONDON, May 20 .- Andrew Carnegie has given £2.000.000 (\$10.000.000) to establish free education in four Scotch universities, Edinburgh, Giasgow, Aberdeen and St. Andrews. He stipulates that the beneficiaries be his "Scottish fellow countrymen" only, no English, frish, colonists or foreigners. under the scheme. Mr. Carnegie desires that all Scotchmen and Scotchwomen shall enter the universities on an equal footing, hence the money is not given to the students to pay their fees, but to the universities themselves. The system is made perpetually free and will probably be under government aus-pices. According to the educational authorties, the administration of Mr. Carnegie's at 11:30 tomorrow morning." gift presents considerable difficulties and for this reason the Scotch papers, for the present, are rather looking the gift horse in the mouth, while the English press is inclined to cavil at the method of Mr. Carnegie's munificence.

Does Not Intend to Leave Railroad at the Mercy of Wild.

NEW YORK, May 20 .- In the course of a long interview relative to the situation in China, cabled to the Herald from St. Petersburg, a Russian of high rank, presumably Count Lansdorff, the minister of foreign affairs, is quoted as saying in answer to the question, "What About Manchuria?"

"The time to make objection was when the concession was made years ago. Does any one suppose that any country is going to build a railway through such a country and leave it unprotected or to be wrecked wherever wild hordes of brigands choose to operate? Besides, I consider that the Si berian railroad is of the highest importance to the commerce of the world.

"And especially to America?" "Yes, especially to America. The Americans are a shrewd and clever race. They show it in their policy, which I call sensible policy. The Siberian railway being, be of great assistance to American com merce, which already flourishes here in very successful manner."

Suspected of Villifying Edholm, He Owns Having Written the Circular.

UNITED STATES AUTHORITIES MOVE

Investigation Brings to Light Conclusive Evidence of Authorship and Leads to the Arrest of the Writer.

Authorship of scurrilous and anonymous circulars and publications containing charges against Albert Edholm, a well known Omaha jeweler, has been traced to G. C. Porter, an attache of the editorial de partment of the World-Herald. Porter has admitted having written the

anenymous attacks upon Mr. Edholm. to hold him until information is filed by the wife." She was closeted with Captain federal authorities, charging improper use Donahue for over two hours and he took charge was issued for his arrest Monday to the station. finding him.

Draws Gun on Inspectors. Leading up to the sensational arrest of Porter Sunday night was a lively scene Saturday in the office of the postal inspectors in the government building. The authorities had Porter in the "sweat box" and made it plain to him that he had been detected in his infamous and dastardly work against Mr. Edholm. It is said that Porter became enraged and threatened violence. He was disarmed, but allowed to go free, No explanation is forthcoming as to why he was not at that time taken into custody, other than that the postoffice inspectors were not quite ready to take him on the government charge and that they had no authority to arrest him for brandishing firearms. No attempt was made to call a policemen for that purpose, and Porter walked BWRY. Ramifications are Numerous.

This story of Porter and his attacks upon Mr. Edbolm has countless ramifications and chapters of it have been written at intervals for two years or more.

Briefly summed up, Porter has tried bodily violence on Mr. Edbolm-one assault being a matter of record and another

One of the most dastardly features of the work, was the fact that Mrs. Edholm-a bride of a few weeks-was aroused from her sleeping apartments in the Millard hotel at mid-

night to receive one of them. Too Vile for Publication.

The contents of the written attacks upon Mr. Edholm cannot be repeated in a reputable newspaper. The word "warning" appeared at the top of the circulars in bold, black type and the signature was "Business Men's Committee."

The circulation of the unclean circular was widespread, the author evidently having copied the names of the Ak-Sar-Ben membership, which includes almost every business man in Omaha. Rewards aggregating \$900 were offered by Mr. Edholm and others for his apprehension, but found
