CORN FIRM DESPITE HEAVY RECEIPTS

Date Strong on Demand from Country Interests-Main Feature of Provisions is Strength of Lard. Which Closes Higher.

CHICAGO, May 20.—Corn and oats ruled strong today, closing %glyc higher for July lelivery, but wheat lost its early advance and closed unchanged. Provisions closed by to be up.

In response to the Liverpool market alling to follow Saturday's advance on this lide. and closed unchanged. Provisions closed 172c to 19c up.

In response to the Liverpool market falling to follow Saturday's advance on this side, May wheat opened by lower to unchanged at 72½c to 72½c. During the foremoon the price rose to 18½c. This was based chiefly on the purchase of approximately 2,009,000 bushels by a single firm, although the statistics were sufficiently bullish to aid materially in changing the values. Traders, who were short of July in most cases, covered on the advance at 72½c, the advance. At 72½c the advance was checked by the heavy sales of an influential operator. Shorts by this time were in a more secure position and this operator succeeded in unloading only a small portion of his long line, estimated at 2,009,000, at 73c or better. He sold till the price reached 72½c and then apparently having disposed of his burden, he stopped and the market closed steady. July unchanged at 72½c. May exhibited strength at times, but the buying seemed to be side play for the purpose of helping July. From various parts of the spring country came word of the need of rain, but Kansas prospects were said to be highly satisfactory. The domestic visible decreased 3,285,000 bushels. World's shipments last week were 7,302,000, 1,500,000 bushels under the previous week, while the quantity affoat showed a decrease of 1,008 bushels, the decrease in shipments was due to a failing off in Russian exports. Seaboard clearances in wheat and flour were equal to 507,000 bushels last year. Minneapolis and Duluth reported a total of 315 cars against 806 last week, and 38s a year ago. Local recipts were 37 cars, 1 of contract grade. Corn held firm in the face of heavy recipts. One firm bought a quantity for shorts. May was also in demand by shorts, who saw fit to secure profits, and as there was not much on the market the price was beld well above Saturday's level. ceipts. One firm bought a quantity for shorts. May was also in demand by shorts, who saw fit to secure profits, and as there was not much on the market the price was held well above Saturday's level. July sold between 4½c and 45½c, and closed ½6½c higher at 44½c. May ranged between 4½c at the opening and 48c and closed at the latter figure 1½c over the previous close. Receipts were 852-431 of contract grade. Trade was fairly active.

Oats were active and strong on a demand from country interests believed to reflect the backwardness of the season. This class of buying caused covering by local people who were short and the result was an advance in prices. July sold between 28½628½c and 29c and closed ½6½c higher at 28½c. Offerings at the top were liberal, but not sufficient to appreciably lessen the demand. Receipts were 29c cars. Strength in the price of lard was the feature in speculative trading in provisions, An advance of 12½c in May was taken as an indication of an improved demand. The market was also helped by the corn strength. July pork closed 7½c higher at \$14,92½; July lard 10c up at \$8.17½, and July ribs 507½c higher at \$1.92½; July lard 10c up at \$8.17½, and July ribs 507½c higher at \$1.92½; July lard 10c up at \$8.17½, and July ribs 507½c higher at \$1.92½; July lard 10c up at \$8.17½, and July ribs 507½c higher at \$1.92½, on head.

London, particularly the latter. Prices there rose £2 is on spot and £3 los on futures before the demand subsided. The close was strong with spot quoted at £125 is 6d. On receipt of this information values here advanced about 60 points and are now about the same as London figures, not counting freight charges and other expenses. The market here was not as active as in London, but showed considerable strength, closing strong at \$25.006,28.00, despite the fact that supplies in this country are still heavy. The improvement in London was due to active movement, rather than to consumptive demand and still higher values are looked for. The volume of business in London reached large proportions. The rest of the metal list was in strong contrast to tin, as prices on mostly all grades were largely nominal. Copper ruled dull at \$1.00 for Lake Superior and \$15.03% for casting and electrolytic in the local market, while in London it had a steady to firm start, but closed easy under realizing with spot quoted at £50 los 20 and futures at £70 s 9d. Lead ruled unchanged both here and in London, closing at \$4.37%, £12 2s 6d respectively. Spelter, while displaying some steadiness abroad, prices advancing 2s 6d to £17 los, was quited and unchanged here. Domestic fron markets ruled duil, but nominally easy at old prices. Pittsburg reports very quiet markets in fron and steel. Last Week's Strength is Not Maintained Throughout the Day.

NEW YORK, May 20.—The upward move ment of stocks last week failed to continue today, although there was some resistante at times in the way of strength of individual stocks. There was a progressive decline in the influence of those special movements and the day closed with the market quiet, active and decidedly at about the lowest of the day all around. There were one or two unfavorable new features during the day, but there were also some developments which had a favorable interpretation. The market gave growing coldence of its abandonment to the class of professional operators with the public evidently not a factor in the market and disinclined to respond to the temptation of price movements. The market opened irregular and then yielded all around to the realizing, but recovered strongly in response to a movement in the coalers. There was some strength also among the southwesterns, apparently on the score of published reports of a projected new steamship line from a Mexican port to the Orient.

A movement in the coalers was apparently speculative. The strength in St. Paul was not explained by any news, out the buying was called good. The stock yielded, however, in the late weakness and closed at a net loss. The weakness in Union Pacific was an effective factor in upsetting the market. Allegations of a further issue of convertible bonds to finance the purchases of Northern Pacific stock were the prime factor in the stock's weakness. It closed at par, 7 points below Saturday's close and at the lowest of the day. Other notable weak stocks were Atchison, which lost 4½: Consolidated Gas, as much; Sugar, 35; Manhattan, 3½; Louisville, 2½; Amalgamated Copper, 3½, and several other stocks from 1 to 2 points. Minor industrials showed notable changes, although there best prices were reduced by the late weakness. Among them were the International Paper stocks, American Linseed, United States Rubber, National Lead and the Rubber Goods stocks. Coffee Market.

NEW YORK, May 29.—COFFEE—Spot Rio, quiet; No. 7 invoice, 44c; Cordova, 84c. Early firmness gave way to weakness before the close and speculation failed to materially broaden. The opening was steady with prices 5 to 19 points higher on room covering and fair foreign buying based on higher markets abroad. One report had it that some 20 per cent of the remaining coffce in Brazil was to be burned in order that prices might be advanced, and doubtless a considerable proportion of today's strength in speculative markets resulted from this story. Yet liquidation and room profit-taking carried prices off toward midday and on the break rumor had it that not a bag of coffce was to be burned in Brazil or anywhere else. The close was quiet, with prices not unchanged to 5 points lower. Total sales were but 12,250 bags, including July at 5,5695,56c, August at 5,5895,56c; September at 5,9965,75c; October at 5,693,75c; December at 5,95c; January at 5,956,60c, March at 696,15c, April at 696,20c.

Buyers started out this morning and tried to buy the cattle a little lower, but sellers held on for good strong prices and in most cases they succeeded in selling out at about last week's quotations. In other cases, however, they thought they did not do quite as well so that the market could best be described by calling it steady to a shade lower. The trade ruled fair, active and everything was out of first hands in good season.

There were very few cows and helfers on sale today and the market held just about steady all around. Packers seemed to want all there was on sale and more, too, and

HOGS—There was a good average Monday's supply of hogs here today, and as advices from other points were rather unfavorable the market here was a shade lower. Some hogs sold steady with Saturday, while others were 2½c lower, so that the market could be quoted a shade easier. The long string today sold at \$5.724, with a few of the choicer loads at \$5.75, and from that up to \$5.80. The lighter and commoner loads brought from \$5.70 down. It was not a particularly active market, but still the builk of the hogs soon changed hands.

The close of the market was a little but still the bulk of the hogs soon changed hands.

The close of the market was a little better than the opening, or about steady with Saturday. Sellers were able on the close to sell out strings at \$5.72½ that they could only get \$5.70 and \$5.72½ for in the morning. As a result of the activity on the close everything was out of first hands in good season.

A glance at the sales below will show that the bulk of the hogs today were of very fair weights and the quality of the offerings was also good for Monday. Representative sales:

PRESIDENT KEEPS FULLY INFORMED

Secretary Root Advises Him of Negotistions as They Progress for Acceptance of the Platt Amendment.

SAN FRANCISCO, May 20.-The president and the members of the cabinet are watching with interest the reports which the Cuban commission who visited Washington will present to the Cuban constitutional convention today. Secretary Root has kept the president fully advised of the movements in Havana, and the president is in communication with leading senators upon the subject.

The question of this government's acceptance of the action of the constitutional convention as a "substantial" compliance with the term of the Platt amendment will, of course, not be formally raised until the constitutional convention acts upon re-ports submitted to it. But there is good reason to believe that the members of the cabinet here are satisfied with the developmente.

The majority report is considered a surtual acceptance of the Platt amendment and the minority report could perhaps be interpreted as a strong protest designed to meet the demands of local sentiment in Cuba and "save the face" of its authors. Public questions which arise are being daily discussed by the president with the members of the cabinet. Nor formal cabinct meetings are being held at the Scott

residence, but matters relating to the various tranches of the government are talked over informally. Secretary Hay and other members of the cabinet will remain until Mrs. McKinley is able to travel and they will all go east together. The physicians have not been able to fix a date when Mrs. McKinley will be strong enough to make the trip. but a week is their present approximation.

Three of Injured Die.
YOUNGSTOWN, O., May 20.—Three more victims of the accident at 6 o'clock yesterday evening, at the Ohio plant of the National Steel company, died of their injuries during the night. They are: Thomas Maxwell. John Soulterez, Paul Washaw. Three other employes who were injured will recover. The exact cause of the explosion has not yet been determined, the supposition being that either the bottom of the converter dropped out or water got into the wind box.
