The asphalt paving on Sixteenth, Douglas and Cuming streets will not be repaired this year unless the owners of adloining property petition for the improvement and signify their willingness to pay for the repairs.

At last night's meeting of the city counsil the members of that body refused to approve the contract for repairing the streets in question and declared that they out of money. The young woman teleneed resurfacing and must be improved at the expense of the owners of property adjacent to the paving. The contract was rejected by a vote of five to three. Counnilmen Trostler, Burkley, Hascall, Hoye and Zimman voted in the negative. The affirmstive votes were cast by Councilmen Lobeck, Whitehorn and Karr. Councilman Mount was not present.

The following resolution was adopted by the council:

Resolved, That all annual reports which have been filed with the city clerk, in accordance with section 104 of the city charter, be, and the same are, hereby referred to the city comptroller for such examination and checking as he shall deem necessary and proper in accordance with his duties as are enumerated in section 89 of the city charter. And further, that when the above reports have been so checked and examined that they be published in accordance with section 40 of the city charter and that the reports be returned to the cierk. Does the wilful passing of Mexican money and the receipt of change in American coin constitute a crime?

This question is up against the police department as a result of the arrest of F. P. Robinson, a man who has acquired much notoriety and not a little coin through this process. Robinson was arrested Tuesday evening by Detectives Heelan and Johnson after paying for a glass of beer in a lower Douglas street saloon with a Mexican dollar and receiving 95 cents of Uncle Sam's good money in change. rangements have been completed for borrowing money for relaying the pavement on Twenty-fourth street and bids for this work will be advertised for soon. It is the intention of the city officials to use the stone from the city rock pile to lay the concrete base, the work to be done under the direction of the city engineer and the street commissioner. By doing this the city will save a considerable amount. At the present time about a dozen men are employed on the rock pile and as fast as vagrants appear before Judge King they are sent to the pile to do their stunt in order that there may be plenty of broken stone to work with when the work on Twenty-fourth street is commenced.

The street commissioner is also engaged in fixing up sidewalks in the business part of the city, and especially on the streets where the fair will be held. ## The diseases most feared are those which are inherited—handed down from generation to generation, and family to family. By far the most destructive of these is Cancer, which finds the greatest number of its victims among the children and grand-children of those whose blood was tainted with this dreadful malady. You may carry this poison in the blood for years, but as the vital powers begin to wane a slight bruise or cut, wart or mole, sore or pimple may develop into Cancer. From middle life to old age is the time when the slumbering poison is most apt to break out, a sore or ulcer often degenerating

into Cancer, and Tumors become more progressive and ulcerate through the skin, the sharp, shooting pains causing the most intense suffering.

remedies fail, and the sore shows no sign of healing. The impurities that have

been accumulating in the system, perhaps for generations, cannot be eliminated nor the poisoned blood made pure by salves, washes and plasters. The proper treatment

is to purify and build up the blood, remove the cause, when the sore or ulcer heals.

tiny ulcer came, just under the left eye. It began spreading, and grew worse rapidly, destroying the flesh as it went. As Cancer is hereditary in my family I became thoroughly alarmed, consulting the best physicians and taking many blood medicines, none of which did me any good, when one of our leading druggists advised me to try S. S. S., and by the time I had taken the second bottle the Cancer began to show signs of healing, the discharge grew gradually less and finally ceased altogether, the sore dried up and nothing remains but a slight scar. I feel that I owe my life to S. S. S."

wait until the blood is so polluted and the system so thoroughly saturated with the poison that no medicine, however efficacious, can check the progress of the disease. If there is a taint in your blood get it out at once, don't wait for some external evidence of it, the appearance of a tumor or ulcer. We have prepared a special book

on Cancer which we will mail free. Our physicians are ready to help you by their advice and such direction as your case requires. Write us fully and freely—no charge for medical advice. THE SWIFT SPECIFIC CO., ATLANTA, GA.
