Will Not Narrow Lower Broadway. The committee of the whole of the city council has decided that it will report adversely on the recommendation of City Engineer Etnyre that lower Broadway about to be repayed, he narrowed by reducing the roadway on each side by four feet. The aldermen are of the opinion that if this was done the thoroughfare would be too narrow, owing to the space occupied by the street railway tracks.

The committee will, however, report in favor of Engineer Etnyre's plan to construct a system of subsoil drainage before the street is paved, in order to prevent the paving and curbing settling.

City Courcil Quick'y Undoes Its Work as Ecard of Review.

ACTION ROUSES MUCH CRITICISM

Mayor Condemns It as Child's Play-Assessoe's Books Delayed Without Public Benefit-Realty Men Object.

The city council spent three weeks, meeting almost nightly as a board of review, during which time it increased materially the assessment as returned by City Assensor Everest, and then in about as many hours undid its work, with the result that the total assessment will fall short about \$90,000 of the original assessment as made by Everest. Of this amount \$60,000 represents the exemptions to which the old is made up of reductions in the assessments made by the board.

The delay caused by the board's action will prevent City Assessor Everest having his books ready for the board of supervisors at its meeting on June 3. Assessor Exercise stated yesterday that he had listed a large amount of property which he had discovered since his report to the board of review, so that he thinks the total assessment will not be much below that reported. The total assessment last year was about \$3,300,000 and this year Assessor Everest exitingates it will be between \$3,500,000 and the horizontal assessor Everest as to receive the new property which he had listed was begun before Judge Wheeler. He has not footed up his books yet, so is unable to give the exact figures.

Mayor Jennings is not at all satisfied with the action of the board in practically reducing again all the assessments after it had raised them to what was considered a fair and equitable figure. He designated it as child's play. Owners of real estate take exception also to the board's action in failing to assess moneys and credits. They claim that the failure to do so leaves the burden of taxation on the shoulders of the persons who own real estate, which is assessed for its full value. The burden,

One property owner in discussing the matter yesterday said: "I see no reason why stocks of goods that could be turned into money within thirty days at the most should be assessed at only 20 per cent of their value, while real estate is assessed at its full value. Real estate cannot be sold for its full value in the same time or like a stock of goods can." He also said that he could not understand the action of the board in reducing assessments when no protest had been filed, as has been done in at least one case.

VERDICT FOR PERSONAL DAMAGES. REDUCES TAX ASSESSMENT Henry Branz Awarded Twenty-Two

In the personal injury damage suit of Henry Branz against the Omaha & Council Bluffs Railway and Bridge company before Judge Thornell in the district court the jury yesterday afternoon brought in a verdict awarding the plaintiff \$2,250. Branz, a former employe of the motor company, sued for \$15,000 to compensate him for the fracture of both his collar bones and several ribs while coupling a motor to a flatcar last September. The motor company's defense was contributary negligence on the part of Branz. The attorneys for the motor company state the case will be taken to the supreme court. The jury was out about four hours. tial assessments in which justice shall be done.

Respecting my candidacy for governor I have only this to say: If nominated as our party's candidate I shall do my best to continue to meet your good opinion and commendation. The office of chief magistrate of a state wherein 2,000,000 and more of freemen live and thrive, where industries flourish and vast and growing wealth abound, is a position filled with grave responsibilities. Able and distinguished men seek the honor of the nomination. If the lot falls to me and I am called to the office the state's business and the state's welfare will receive all my time and all my energies in unatinted measure. If I may judge the future by the past the law's intent and the people's interests will be my only concern and the object of all my official acts. It is not my purpose to secure the honor of my party's nomination under any false pretenses. I do not and I will not represent special or particular interests.

The skin is sometimes most dreadfully affected, eruptions breaking out on all parts of the body. Scrofula destroys bone, tissue and flesh; no part of the human system escapes its withering, benumbing touch.

When nineteen years old, and about one year after the birth of my first child, the glands on the left cide of my neck began to swell. Four of the places were lanced and became open running sores; risings came under my left arm, and the sores; risings came under my left arm, and the discharge was simply awful. The beer that made Milwaukee famous

You drink some beers that cause bilious headache. Perhaps

you think that all beers do. The cause of biliousness is the lack of age - too much haste to put the beer on the market. To ferment beer thoroughly requires a process of months. Without it the fermentation takes place in your stomach. That is the cause of biliousness.

Hurried beer is unhealthful. Schlitz beer is kept for months in refrigerating rooms with a capacity of 265,000 barrels-kept almost at freezing point until it is well fermented. Schlitz beer is never marketed until thoroughly aged.
