ST. CLAIR'S DEFEAT WAYNE'S VICTORY

Author of "Windiammers" Has a New Novel-Maurice Thompson's Earlier Work-Orations of Edward John Phelps-Nature Books.

No better example of a novel which reand bred. The scene shifts between a few states only: Maryland, Connecticut, Obioand New York. In time the action covers, including prologue, but fifty years, beginning in the early '20s and closing in the '70s. a period which, on one side, embraces the fading colonialism and, on the other, reaches well into the strenuous commer cialism of the century just passed. The action begins with humor and spirit, showing how Emily Orkney makes her debut at a ball in Baltimore, routs the older belies and imprisons the affections of Harry Gaunt, one of the chief figures of the hour After a short residence in Baltimore the couple move to Belle River, on the eastern shore of Maryland, where some ten years later the acene reopens with a characteriatic card party at Windrift, the family home-Here are introduced Dr. Magog Captain Brace, Colonel Spott, Cousin Troutman and, as a lad of 12 or 13, John Gaunt, subsequently the hero. During succeeding pages the progression is rapid and the unfolding of plot and motive absorbing. While his father, already shattered by the morphine habit, grows weaker. John develops in strength of body and mind. The most appealing passages are perhaps John's awakening to consciousness the dawning of his soul-and the death Emily Gaunt, both episodes being full of touching, poignant beauty. "The Wilderness Road: A Romance of St. Clair's Defeat and Wayne's Victory." is by J. A. Altsheller, author of "In Circling Camps," which was received last year with many marks of favor. Mr. Altsheller, pictures the most thrilling scenes of the movement for expansion, when at the end of the eighteenth century the men of Kentucky and the old frontier were pushing westward and northward to gain new territory. He sketches the division of an empire before it was won, the advance of trained soldiers and their terrible fate in the wilderness and the subsequent stirring campaign which secured the new country. His hero, a soldier with a romantic history, which keeps the reader in suspense, plays with St. Clair a part not unlike that which Washington acted with Braddock. A fascinating story of love and aspiration runs throughout the vivid scenes on the frontier and in the wilderness. The winning of the heroine by dauntless courage and self-surrender forms a series of vivid and dramatic pictures which absorb the reader's interest throughout. D. Appleton & Co., New York. Works of Fact. No recent American jurist has stood

higher than Edward John Phelps, diplomat and statesman. He was president of the American Bar association, professor of law at Yale and one of the government counsel in the court of arbitration in the Bering sea controversy. His last great public service, in which he especially distinguished himself, was as United States minister to Great Britain. The distinguished positions held by the man at different times, as well as his scholarly attainments, render the collection of his "Orations and Essays," which have just been brought out in book form, of more than passing interest. The work has been carefully edited by J. G. McCullough, while John W. Stewart contributes a memoir. The orations and essays of Mr. Phelps contained in this volume have been selected from a large number of his posthumous works. They cover a wide range of subjects, professional literary and biographical, all treated with the same free hand and with his customary clear, eloquent and forceful style. The selections illustrate his style, his intellectual fiber, his unflinching courage, his strength, his lofty and independent bearing in thought and action, and constitute a fitting memorial of the man. It is a volume that will be of great interest to every student of American history and may be read with profit by all. Harper & Bros., New York.

Bradford Torrey has published a handsomely bound and illustrated little volume of 100 pages concerning the common birds of the north, such as we see and hear every pleasant day of the year in the woods and meadows of the country. "Every Day Birds" is the apt title given to the work by the author. The illustrations are in colors and executed in such a manner as to give one a very good idea of the appearance of the birds, in fact a better idea than could be conveyed by mere words. The work is elementary in its character and suited to the requirements of young students. It might be added that the illustrations are from Audubon, the first considerable reproduction of the colored drawings from the "Birds" of that author. Houghton, Mifflin & Co., Boston. Price, \$1.

Young Wife Hears Shot and Hastens to the Side of Her Dying Husband -Accident Theory is Advanced.

Dr. George S. Nason, a promising young lentist of Omaha, committed suicide at his home, 2507 Farnam street, early Thursday evening by shooting himself through the head with a pistol. Death resulted almost instantly. There was no one in the house at the time, save Mrs. Nason, who, hearing the muffled report of the pistol, rushed upstairs and found her husband lying in a pool of blood upon the bed.

Dr. Nason had been helping to entertain some of the dentists from out of town who were attending the convention of the Nebraska State Dental association, and about a o'clock he took three of them to dinner with him at a downtown hotel. While there he telephoned to his wife to

Root, the Great Kidney and Bladder Remedy. To Prove what Swamp-Root will do for YOU, Every Reader of The Bee May Have a Sample Bottle

The Wonderful Curative Properties of Swamp-

Sent Free by Mail, It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected ,and how every organ seems to fail to do its

If you are sick or "feel badly," begin taking the famous new discovery, Kilmer's Swamp-Root, because as soon as your kidneys are well they will belp all the other organs to health. A trial will convince anyone.

Among the many famous cares of Swamp-Root investigated by The Bee, the one which we publish this week for the benefit of our readers speaks in the highest terms of the wonderful curative properties of this great remedy. Mr. Robert Berner, 14 West 117th St. New York City, writes: "I had been suffering severely from kidney trouble. All symptoms were on hand; my former strength and power had left me; I could hardly drag myself along. Even my mental capacity was giving out, and often I wished to die, it was then I saw an advertisement of yours in a New York papea, but would not have paid any attention to it, had it not promised a sworn guarantee with every bottle of your medicine, asserting that your Swamp-Root is purely vegetable, and does not contain any harmful drugs. I am seventy years and four months old, and with a good conscience I can recommend Swamp-Root to all sufferers from kidney troubles. Four members of my family have been using Swamp-Root for four different kidney diseases, with the same good results."

fruly yours, ROBERT BERNER. Weak and unhealthy kidneys are responsible for many kinds of diseases, and if permitted to continue much suffering with fatal results are sure to follow. Kidney trouble irritates the nerves, makes you dizzy, restless, sleepless and irritable. Makes you pass water often during the day and obliges you to get up many times during the night. Unhealthy kidneys cause rheumatism, gravel, catarrh of the bladder, pain or dull ache in the back, joints and muscles; makes your head ache and back ache, causes indigestion, stomach and liver

trouble, you get a sallow, yellow complexion, makes you feel as though you had heart trouble; you may have plenty of ambition, but no strength; get weak and waste away.

In taking Swamp-Root you afford natural help to Nature, for Swamp-Root is the most perfect healer and gentle aid to the kidneys that is known to medical science. Many women suffer untold misery because the nature of their disease is not correctly understood; in most cases they are led to believe that womb trouble or female weakness of some sort is responsible for their many ills, when in fact disordered kidneys are the chief cause of their distressing troubles.

If there is any doubt in your mind as to your condition, take from your urine on rising about four ounces, place it in a glass or bottle and let it stand twentyfour hours. If on examination it is milky or cloudy, if there is a brick-dust settling, or if small particles float about in it, your kidneys are in need of immediate at-

NINE BOYS AND SEVEN GIRLS

Sixteen Brand New Infants Added to the City's Population in Twenty-Four Hours.

Sixteen births in twenty-four hours is not a bad record for a city the size of Omaha. Such is the birth record reported by the city health commissioner for the twentyfour hours ending at noon Thursday.

If the population were to increase at this rate during the 365 days of the year the total number of new Omahans would be 5,840. Granting that the city has a population of only 102,000, the rate of increase would be almost 6 per cent. Another unusual feature of the birth list

for the twenty-four hours mentioned is that boys numbered nine and girts seven. If this ratio of male to female children were to keen up Omaha would become a Mecca for unmarried women in a few years. Girl babies outnumber the boys the world over but Omaha does not seem to be in need of Dr. Schenck and his methods of regulating

Fremont Boy Runs Away. Eleven-year-old Clyde Peters ran away from his home in Fremont yesterday be-cause his mother interfered with his con-stitutional rights and refused to let him go

out nights. He considered this such a gross suspension of his personal liberty that he came to Omaha, where he thought small boys could do as they pleased. Clyde was arrested at the union depot by Patrolman Sargent and spent the night in the city jail. His mother was notified, but she said she had not decided what ought to be done with him.
