THE OMAHA DAILY BEE: SATURDAY, JUNE 1, 1901.

10 ceived was the fact that settlements were being made with the Londen bears in Northern Pacific at 150 for the stock, and that the fortnightly account, which begun Wednesday, was being carried out without the dreaded complications. Up to this time our market's duliness was attended by a neavy tone in the general list in spite of the firmness of a few issues is which manipulation and reports of coming deals had an effect. The bearish operators were also more active and the appearance of the market justified to some extent the ex-pectation of a further decline. More favor-able indications at London had, however, a good influence, which was supplemented by decided influence, which was supplemented by decided influence, which was supplemented by decided influences that the contending factions in Northern Pacific had reached a satisfactory settlement as to the control of that company and the bearings of the Bur-lington deal. eral fund, exclusive of the \$150,000,000 gold reserve in the division of redemption, shows: Available cash balance, \$161,75,562, gold, \$93,016,140. Misfortune has also overwhelmed cotton plantations, according to the pessimistic views circulated by traders and factories who are endeavoring to sustain prices in the face of heavy receipts and unsatisfac-tory conditions at New England mills where print cloths have been sharply re-duced to 2% in order to dispose of the accumulation, which is said to reach 2,000,-000 pieces. Heavy brown goods have steadied under better Chinese inquiry, but local retail and jobbing trade is restricted by unfavorable weather. Although it is between seasons with the silk trade, there is a good demand and available stocks of the more desirable lines are reported light. The ribbon trade continues brisk, despite lowering skies. Carpets and upholsteries improve and in staple clothing woolens there is more ac-tivity. This brings out raw wool more freely, but there is not sufficient demand to advance, prices in the face of heavy stocks and a large new clip coming for-ward. Coffee Market. NEW YORK, May 31.-COFFEE-Steady; No. 7 Rio Involce, 64c. Mild, quiet Cor-dova, 84@124c. Lower prices and hear specialation were the features of today's market. The opening was quiet, with prices 5@10 points lower, under selling for foreign and domestic accounts, started by serious declines abroad, heavy receipts in the crop country and disappointing demind for spot coffee in the street market. Ab-sence of speculative support made it easy tor the market to further settle after the call. Operations were pretiy well scat-tered through the list, though the near months were most active. The close was logible lower. Total sales 31.150 bags. In-cluding: June 5.20c; August, 5.35c; Septem-ber, 5.46c; October, 5.50; January, 5.75c. Wool Market.

BOSTON, May 31.-WOOL-The Commer-cial Bulletin will say in tomotrow's report of the wool trade of the United States: The market is filling in rapidly with heavy re-ceipts of both domestic and foreign wool. The demand is small this week and ship-ments are failing off. The medium wools are weak. Medium territory has been sold on a basis of Sic clean. Ohio half-blood unwashed was sold at isc. A big line of Irish wool is the only notable sale. Though of excellent guality these super wools brought but 26c. Fine wools, on the other hand, are firm. The advance of Ohio de-laine to 29e is maintained.

steady prices, and even the thin, common grades sold without difficulty at steady prices. The supply of cow stuff was light, and as has been the case all the week, the demand was in good shape and everything changed hands in a hurry at good steady to strong prices. Bulls, if of good quality, were also in active demand at tully steady prices, but the commoner grades were a little neglected. Stags did not show much change from yesterday, and yeal calves sold just about steady. There were almost no feeders in the yards today and not near enough to fill orders. It is practically impossible to quote the market, as there has not been enough on sale for some little time to make a test, but it is evident that there is quite a de-mand for good cattle weighing trom go to sto pounds. There is also some call for the heavier weights showing quality. Rep-resentative BEEF STEERS. No. Av. Pr. No. Av. Ft.
