Decision of the Government Not to Alaska Isn't Accept Their Constitution Not Expected.

HAVANA, May 31 .- The decision of the United States government not to accept the Cuban constitution as adopted by the constitutional convention caused great surprise and keen disappointment to those members of the convention who voted in favor of the constitution as adopted. Two leading conservatives who were interviewed tonight on the subject said in substance that they had reason to suppose that the constitution would be acceptable to Washington, or otherwise they would not have voted for the majority report as authorized. They also pointed out that in order to prevent a possibility of rejection the majority report had been changed at the last moment by striking out the interpretation at the end of the clauses and outting these in the form of a resolution by thomselves, thus accepting the Platt amendment as passed by congress.

"It is true," said one of the conservatives in question, "that the committee's interpretations of the explanations of the Teller resolution which were offered by Governor General Wood and Secretary Root, together with the Washington commission's report, were included with the view, namely, to accept the Platt amend-

Both delegates expressed regret that a doubted that the convention would now reconsider its action, as the fight had been hot, the victory had been won by only one vote and those who had tried to do their duty toward their country had been bitterly assailed as traitors and perjurers.

General Wood in the course of a brief interview said: "I never understood that the explanations of Secretary Root would be incorporated in the acceptance. I always considered that the convention considered these explanations as explanations only and they would not form part of the acceptance."

WASHINGTON, May 31 .- The director of the census today issued the first half of the final census report on population, showing the aggregate population of the United States by states and territories, the density of population, the center of population in its medium point, the population of Alaska and of the Hawaiian felands, the number of representatives apportioned under the recent act of congress and also the population of the states and territories by minor civil divisions, the population of cities having 25,000 inhabitants or more in 1900, the increase of population in the same and the populations of incorporated cities, towns, villages and boroughs in the year 1900.

This report is issued in the form of a monograph and comprises about 500 pages. The other portion of the final report on population will be issued during the early fall, putting the entire volume in the hands of the public at least four years in advance of any previous census.

> KIOWAS ARE TO COUNCIL Are Persisting in Effort to Secure De lay of Opening the Oklahoma

WASHINGTON, May 21. - Lieutenant Colonel Randlett, Indian agent in charge of the Kiowa Indian reservation, tele graphed today from Anadarko, Okl., that the Klowa delegates, who recently filed a protest at the Interior department against the opening of Oklahoma lands, are arranging for a council of the tribe to consider the matter.

Their attorney here, former Representative Springer, has given notice that he will appeal to the president to withhold issuance of the proclamation opening the Kiowa, Comanche, Apache and Wichita lands to settlement until congress has had time to act on a proposition to repeal the act authorizing the opening and to send the agreement with the Indians as amended by congress back to them for ratification. An application to the courts here to enjoin the secretary of the interior from proceeding with the opening may be filed soon.

Ministers at Pekin Discussing Sub-Jeet-United States Holds Out Against Russin and France.

WASHINGTON, May 31.—Having settled upon the amount of indemnity and the rate all likin duties on foreign goods. of interest to be put upon the bonds, namely, 4 per cent, the ministers at Pekin are now negotiating respecting the difficult subject of guaranty. The Chinese plenipotentiaries are not concerned at this stage. The ministers must first agree among them selves as to the method of guaranteeing the loan and this task promises to be difficult of disposition. The United States government is pressed by Russia and France to make the guaranty international and joint, but it is firm in its declination to do this. basing its arguments upon constitutional limitations upon the legislative branch of the government, which are not easy of comprehension to European minds.

For China to Guarantee Indomnity Payment Seems Difficult.

FOREIGN COLLECTORS NOT FAVORED

If Suggested System of Collecting Revenne Were Established Two Thousand Officials Would Have to Be Salaried.

PEKIN, May 31.-China's unconditional acceptance of 450,000,000 taels as the indemnity to be paid the powers has caused great satisfaction among the foreign ministers, as it only leaves practically a few minor details to complete the negotiations.

The phrase in the joint note "to the satisfaction of the powers." may cause some delay in the evacuation of Chinese territory, as the ministers fail to see how China can guarantee payment and all the ministers believe it would be a mistake to have a large body of foreign officials collecting revenue. Were revenue thus collected over 2,000 officials would be required and the aggregate salaries of these men would be very large and amount to more than the ordinary Chinese "squeeze." The majority of the ministers now favor raising the customs to 10 per cent and taking 5,000,000 taels yearly from the likin tax. This method would give, after the payment of interest on foreign debts now existing about 23,000,000 taels a year. The ministers would agree to this system if China will discontinue the collection of

The understanding is that the withdrawal of troops will be speedily followed by the return of the emperial family to Pekin, although before this can be done some of the quarters burned daring the foreign occu-pation must be restored and there must be much overhauling of the palaces, which of late have served as barracks for soldiers. FOUR FALSE ALARMS OF FIRE Criminal Conduct Likely to Resalt in Arrests and Severest Punish-

Four false alarms of fire were turned in during May, the last being sent at 3:30 yesterday afternoon from the tailor shop at 414 North Sixteenth street. When the department responded no trace of fire could be found and the tailor said the alarm had been sent over his telephone by a boy whom he did not know. The boy remained undiscovered.

The first two false alarms were sent from box 36 at Thirteenth and Chicago streets, both being turned in on dark nights about midnight. The third was from Eighteenth and Cuming streets. Chief Redell has evidence that all four alarms came from the same source and is making a thorough investigation with the determination of punishing the guilty parties.

"It seems that some people do not realize the danger there is in false alarms of fire." said the chief. "It is not the extra work caused the department that is complained of, but a run to a false alarm not only places in jeopardy the firemen, the horses and the apparatus, but is also a menace to the lives of citizens and the safety of vehicles which may be upon the streets and a half-hour day. A meeting of the brough which the run is made. Not only hat, but while the department is wasting time in responding to a false alarm a fire may break out in a large building and gain sufficient start before the department can get there to cause an immense property loss and perhaps of life also. There is no punishment too severe for the person who wilfully sends in a false alarm of fire."

Cattle Sheds Damaged by Fire. The cattle sheds at the Willow Springs distillery were damaged by fire to the extent of \$100 late yesterday afternoon. Sparks from a passing locomotive set fire to the hospital shed and the flames quickly spread to the other sheds, but were extinguished before any of the buildings were reached. Distillery employes who attempted to put out the fire made the wrong connections with the private water system and flooded the cooper shop, causing nearly as much damage by water as had been done to the

MACHINISTS STRIKE BEGINS

More Than Thousand Men Quit Worl in Shops at Chicago-Employers Refuse the Agreement.

CHICAGO, May 31.-The Chicago machin ists' strike began today, more than 1,000 men quitting work in various shops and factories because the employers refused to sign the agreements proposed yesterday for 1215 per cent increase in wages, a ninehour day and extra pay for all time over nine hours. When the force of 280 machinists gathered at the works of Fraser & Chalmers early in the morning they were met by W. J. Chalmers, who told them they might as well go home if they expected him to sign the agreement. The machinists accordingly dispersed. Similar scenes were enacted in many other plants, though a few managers signed the agreement.

The machinists' strike situation assume more grave aspect with the threat of the allied trades to declare a sympathetic movement at once. With the exception of six shops, none of those to which the agreement was presented have signed. It is expected that by tomorrow nearly 2,000 men will be out. The situation is called a strike. but in reality it is almost as much a lockout, since many shops made no pretense of permitting the men to go to work today. Early in the afternoon the strikers were joined by 150 machinists, who quit at the struck at the Bibson Spring company's plant.

An important development in the situation was the inauguration of a sympathetic cording to official statements made by this strike by the metal workers. In response to an order by Business Agent Otto Nowack 150 metal workers quit at different shops formed the subject of the criticism. Thereto aid the machinists in their fight. Others fore it is probable that this government that their help would be effective.

It is expected that the sympathetic movement will spread to other trades, but large numbers of men in allied unions who work in conjunction with the machinists will be forced into idleness soon by lack of material. It is estimated that this will swell the number of idle men in the machine see, who awaits him there. The departure shops of this city to 10,000 within a week.
