

JAMES A. HERNE'S LAST EXIT

Author of "Shore Acres" Dies at His New York Home.

PROSTRATE SINCE STRICKEN IN CHICAGO

Illness that interrupted his tour before the company reached Omaha never allowed him recovery of strength.

NEW YORK, June 2.—James A. Herne, actor and playwright, died at his home in this city this afternoon of acute bronchitis and pneumonia, after an illness of eight weeks.

Mr. Herne was born in Troy, N. Y., February 1, 1835. He made his first appearance in a small traveling company, which he remained but a few weeks.

Once Arizona's Governor. NEW YORK, June 2.—Richard McCormick, died at his home in Jamaica, L. I., today.

Rev. Thomas H. Hearne. CINCINNATI, June 2.—Rev. Thomas H. Hearne, aged 81 years, and for sixty-one years a minister in the Methodist church, died at his home here last night.

Hobson's Tutor. KNOXVILLE, Tenn., June 2.—Information of the sudden death of Rev. J. M. Otis, D. D., of Greensboro, Ala., has been telegraphed here, where Dr. Otis was recently pastor of the Third Presbyterian church.

South Omaha News

Within a short time the county assessors and the city tax commissioner will have completed the work of making the 1901 assessment.

Commissioner Fitzgerald is working his force hard to complete the city assessment soon. It is thought the valuation this year will be about \$2,225,000.

Another matter expected to come up is the selection of a superintendent of public instruction. The teachers' committee has taken Dr. Wolfe at his word and has not considered him an applicant for the position.

Shringley's Report. City Clerk Shringley has prepared a report which he will submit to the council tonight, showing the condition of the funds.

Nothing will be done tonight about the High school, as bids for the structure will not be received until June 7.

The Whole Truth!

There's nothing so bad for a cough as coughing. There's nothing so good for a cough as

Ayer's Cherry Pectoral

The 25 cent size is just right for an ordinary, everyday cold. The 50 cent size is better for the cough of bronchitis, croup, grip, and hoarseness.

Three sizes: 25c, 50c, \$1.00. If your druggist cannot supply you, send us one dollar and we will express a large bottle to you, charges prepaid. Address, J. C. AYER & CO., Lowell, Mass.

SCANDINAVIANS BUY MORE

Uncle Sam Discovers Denmark, Sweden and Norway's Preferences.

EXPORTS MORE THAN TREBLED SINCE 1890

In Ten Years Have Increased from Nine to Twenty-Nine Million Dollars in Value—Denmark the Leader.

WASHINGTON, June 2.—Frank H. Hitchcock, chief of the foreign markets section of the agricultural department, has prepared a comprehensive article on the growth of the trade between the United States and the Scandinavian countries—Denmark, Sweden and Norway—during the ten years from 1890 to 1900 inclusive.

The real estate market here is booming and transactions of considerable importance may be recorded before the week is over.

Building permits continue to come in and it is thought the building season here will be a busy one.

The city council will meet in monthly sessions tonight, but there is nothing of importance to come up, as far as known now, except the resuming of general bonds.

Sheep Butchers' Strike. According to rumors, the trouble now said to exist between the sheep butchers and the packers will be settled one way or the other today.

Magie City Gossip. Rev. W. H. Waggoner is conducting a missionary institute at the Christian church.

There will be a reception at the Young Men's Christian association Tuesday night for H. M. Overton.

Mr. Charles Dana Gibson finds that the average American girl is growing taller at the rate of two inches every ten years.

King Phillips on King Corn

His Tribute to the Great American Cereal.

George H. Phillips of Chicago, corn king of the Board of Trade, contributes to the Saturday Evening Post a paper on "Corn: Its Meaning to America." Mr. Phillips writes a few things about corn and frequently raises it in the Chicago corn pit.

Meantime from corn has grown an industry of large proportions and national importance, the manufacture of grape sugar, or "glucose." This recent industry consumes from 50,000,000 to 60,000,000 bushels of corn each year, or more than double the capacity of all the glucose plants in existence five years ago.

All of these recent developments in the demand for corn for commercial uses may be regarded, speaking by comparison, as merely incidental to the main volume of increased demand in population and the consequently increased consumption.

The value of the country's corn crop in 1900 was \$751,000,000 at farm prices; the total wheat crop was valued at \$324,000,000 and the value of all the cereals in the United States, including wheat and excepting corn, was \$1,000,000,000.

Not more than 25 per cent of the corn raised on American fields goes, in its natural state, out of the counties in which it is grown.

Beginning with the middle of the last decade of the last century a marked increase in the commercial uses of corn began.

Without our magnificent corn crop this achievement would be an impossibility. One of the most important facts to be noted in attempting an adequate estimate of the significance and the future of American corn is this: The area suitable for corn production in this country is today almost wholly utilized.

Practically speaking, we feed the meat eaters of the civilized world. We consume more beef, pork and mutton than any other nation and provide vastly more of these products than does any other country.

Without our magnificent corn crop this achievement would be an impossibility. One of the most important facts to be noted in attempting an adequate estimate of the significance and the future of American corn is this: The area suitable for corn production in this country is today almost wholly utilized.

NATIONALISTS HAVE HAVANA

Carry Cuban Capital by Safe Majority Over All.

ALSO ELECT EIGHTEEN OF COUNCILMEN

Republicans Land but Four and the Democrats Only Half that Many—Winner is the Next Mayor.

HAVANA, June 2.—The predictions of the Havana nationalists over the outcome of yesterday's municipal elections are verified. Senator Miguel Genes, the nationalist candidate, was elected mayor of Havana, receiving 11,115 votes, against 7,355 for Senator Mora, republican, and 2,311 cast for Senor Carlos Garcia, the candidate of the democratic party.

The nationalists elected eighteen members of the municipal council, the republicans four and the democrats two.

There seems to be no good reason why women should not become successful solicitors of insurance, but comparatively few have essayed that role.

RECORD FOR HOMING PIGEONS

Pocahontas Establishes It by Flying 400 Miles in Nine Hours and Forty-One Minutes.

LOUISVILLE, Ky., June 2.—Pocahontas, a pigeon owned by S. J. Schreck, broke the local homing pigeon record today by flying from Alligator Lake, Miss., a distance of 400 miles on an air line, in nine hours and forty-one minutes.

Cyclists Go Along Some. NEW YORK, June 2.—A crowd of more than 7,000 persons saw exciting contests of speed today at the meet on the Vailsburg board track.

Quarter-mile, professional, flying start; Frank Kramer of East Orange won; Floyd McFarland of San Jose, Cal., second; H. Freeman of Portland, Me., third. Time: 6:24.45.

Five-mile, professional, handicap; H. B. Freeman of Portland, Me. (50 yards), won; Tom Cooper, Detroit (scratch), second; F. A. McFarland, San Jose (scratch), third; Hardy Downing, Los Angeles (100 yards), fourth. Time: 11:23.5.

Seasonable Fashions

Fashion Hints by Mary Lamb. Our opinion in 1889 was 2,112,000,000 bushels; in 1895, 2,151,000,000, and in 1900 it fell back to 2,105,000,000.

Our opinion in 1889 was 2,112,000,000 bushels; in 1895, 2,151,000,000, and in 1900 it fell back to 2,105,000,000. These figures show a decrease of 70,000,000 bushels in the corn crop for the last five years, wholly apart from the increased demand for the yellow cereal as an article of human food.

Very little acumen is required to see from this showing that we shall never again return to the old prices for corn. In my opinion, 40-cent corn will represent the minimum figure for the future.

The farmer side of the corn question may be stated in sentence. The farmers in the corn states of America are more prosperous, have more ready money, better homes, better farms, and enjoy more desirable social conditions than the farmers in any other agricultural belt in the world.

The value of the country's corn crop in 1900 was \$751,000,000 at farm prices; the total wheat crop was valued at \$324,000,000 and the value of all the cereals in the United States, including wheat and excepting corn, was \$1,000,000,000.

Not more than 25 per cent of the corn raised on American fields goes, in its natural state, out of the counties in which it is grown.

Mechanics' Shoes

are necessarily made of much heavier leather and with heavy soles, on account of the rough usage they are bound to receive.
