Asserts that the Church Suffers from Defective Management and Blames Phicgmatic Temperament of Germans-Report Sent Back.

(From a Staff Correspondent.) DES MOINES, June 3 .- (Special.)-There was a lively controversy in the Lutheran synod this morning, when Rev. Dr. E J. Wolfe of Gettysburg, Pa., a missionary worker of many years and recognized as an authority in the Lutheras church, read a report on the condition of most lamentable jeremiad ever delivered before the synod. No sooner had Dr. Wolfe finished reading the report than he was met with a remonstrance from many persons and mittee had not signed the report. This was acknowledged, but Dr. Wolfe claimed the members had authorized him to make the report as he saw fit. Essential features of the report follow:

These cheering signs should not blind us to some lamentable and extremely discouraging conditions which obtain among us, chief among these is the spirit of self-satisfaction. We are inclined to boast of our sufficiency.

Our beneficence has not kept pace with the increasing competence of our people, especially have our men of wealth settled down into a condition of appalling indifference and apathy toward missions and education, the supreme agencies for discharging the obligations of the Christian church. We seem to be retrograding. The excitement continues at Walcott and every foot of ground in the vicinity has We seem to be retrograding.

Our lack of common sense is shown in trying to keep affoat three weekly church papers, when by uniting the capital and energy we could have one good one in place of the three 'weakly' ones, as now.

There is within our pale not a single strong educational institution, endowed, manned and patronized like similar schools in other denominations, whose temporal resources are more limited than ours.

Our comparative failure in beneficence may grow largely from defective management, from our short-sighted, narrow-minded methods, our wretched lack of combination and conception.

Our church has suffered seriously from defective government and as long as loud voices are heard for individualism and unbridled liberty, as long as the general good must be subordinated to the rights of private judgment, our progress must halt and our institutions languish.

Much of our trouble may be ascribed to the phlegmatic temperament, the incriness of mind, inherent from the German, Lutherana are characteristically conservative. What is pre-eminently lacking now is spirituality. The fire on the altar is burning low. There is a low state of piety among us. The love of many has grown cold. There is no disguising the prevalent laxity and barrenness; the low estate of piety among us. The love of many has grown cold. There is no disguising the prevalent laxity and barrenness; the low estate of piety among us. The love of many has grown to defend the substitution of the Sunday papers for the scriptures, the intrusion of the flesh into the domain of things spiritual, the prevalence of factional schemes, malignity of party spirit, are so many cankers ghawing at the vitals of the church.

What to do with the people's money is the great question now, rather than how to get their offering.

Unsanctified wealth abounds in the church.

The church may be strengthened by losses and made weaker by accessions. The secretary made an extensive report, The report showed that since the society was organized the sum of \$71,905.52 had been received and \$56,814.56 expended; that there is a balance on hand of \$14,090.56. The past decade records but an inconsiderable advance in our theological in-

stitutions.

The spectacle of our higher educational institutions spending their time in a losing struggle for existence is a humiliating commentary on our deviation from right principles.
Our ministry is under paid. The pastors' salaries are fixed according to the scale of wages received by the illiterate day laborer, less than that received by commercial clerks. Policy and principle alike mercial clerks. mercial clerks. Policy and principle alike cry out against this wrong. If our church wants a cheap ministry, a cheap ministry it shall have.

After some persuasion I drank the Postum Coffee and that night was the most peaceful night I had enjoyed in months, and when I awakened in the morning I found the Grape-Nuts package on the table near my bed, and I had some for breakfast with

some Postum Coffee. "I at once began to feel better and discarded all kinds of medicine, stimulants, narcotics, and used only Grape-Nuts four times a day with Postum Coffee. At the end of thirty days I left my bed and after three months building up on Grape-Nuts Food and the famous Postum. I have taken up my literary work, working harder than

Do you wonder we believe in the famous food?"

There is a reason why the Postum Coffee and Grape-Nuts are towers of strength in times of trouble. Anyone can learn the fact and the reason if they care to make searching inquiry. The company furnish the details, but it is sufficient to most people to know that whereas they have been poorly treated, and perhaps wrecked with disease from improper food, the change to Grape-Nuts and Postum has made them

While the report was denounced in most quarters, some spoke in favor of its adoption, one clergyman saving pessimistic and darkening as it was the synod wanted the truth and not a Fourth of July oration, and so he favored its acceptance. The election of Dr. Freas as president, however, shows the old administration has a majority of the synod and no change may be made.

The Board of Home Missions pominated as follows: Rev. M. W. Hamma of Washington, D. C.; Rev. George H. Reen of Columbia, Pa.; Rev. George W. Enders of York, Pa.; Rev. D. L. Rev. Dr. N. F. Yeiser's case occupied the entire session of the synod this afternoon. The foreign mission board had decided not to return him to India as me sionary on account of his health. The "liberal" element in the synod said it was on personal grounds and the matter was discussed at leagth. Dr. Yeiser bought the ice machine for the India mission, which has caused so much criticism, but Luther Kuhlman denied that this was the reason for not returning Dr. Yeiser to India. Certificates were exhibited showing that it would be dangerous to his health for him to return.

A resolution was adopted that it is the sense of the general synod that the general board of foreign missions in declining to return Rev. N. E. GETS LAWYERS INTO TEDIOUS TANGLE GOOD

Are Still Disputing Nature of Ques tions to Be Put to Him When Court Adjourns for the Day.

BOSTON. June 3.-The trial of the libel suit of Mrs. Josephine C. Woodbury sgainst Mrs. Eddy, head of the Christian Science church, which was begun last week, was resumed today. There was additional interest in the case because it was understood that Judge J. Hanna, the reader of the First Church of Christ Scientists, who last week could not be found by the court officers, had returned from a vacation and would appear as a witness. Judge Hanna

He was the last witness of the day and said he had been away from the city seven weeks. He had been a county judge at Council Bluffs, Ia., and was now a student of Christian Science. Mr. Hanna said he was first reader of the church, subject to Mrs. Eddy's approval, as provided by a bylaw. He is editor of the Christian Science Journal and of the Sentinel. Mr. Peabody handed him a copy of the May (1899) Arena and called his attention to an article in it written by Mrs. Woodbury.

Over this afticle the lawyers had a long argument as to its admissibility, Mr. Elder for the defense alleging irrelevancy of the article to the promise of Mr. Peabody that he would connect Mrs. Eddy with the excommunication of Mrs. Woodbury. Mr. Peabody argued that the Arena article was an incident bearing on the relations of the two women, that it constituted a motive in Mrs. Eddy's mind, that it tended to prove that Mrs. Eddy attacked and for revenge

Judge Hanna Questioned.

The court refused to admit certain ques tions relating to the Arena article. Mr Peabody thereupon questioned Judge Hanna on other articles and the witness said Mrs. Eddy refused to grant permission for a reply to the Eddy article. The lawyers were disputing over forms of question to be put to witness in the article in question when court adjourned for the day. W. B. Johnson, secretary of the board of

directors and clerk of the First Church of winds. Christ Scientist, in resuming the stand today expressed a wish to correct an answer made while testifying last week. He did receive a letter from Mrs. Eddy between the time of the reinstatement of Mrs. Woodbury and her excommunication. The cross-examination of Mr. Johnson

was resumed. Mr. Elder, counsel for the defendant, objected to a question as to the meening of the wer's "mystery of dalquity." contained in the alleged libelous message from Mrs. Eddy to the church. The court ruled that the question might be answered, but the answer should have no weight to show what was intended by Mrs. Eddy. Judge Bell said the plaintift must prove

two things, namely: that the defendant intended the language used to apply to the plaintiff and that her hearers and leaders understool it. The question was then repeated to Witness Johnson, who said: "By mystery' is meant something which has never been solved. As regards 'injusty,' that is something which the courts and church people have tried unsurcessfully for generations to define, and I am, therefore, not able to explain what is meant." Mr. Penbody then took up a letter writ-
