COMMERCIAL AND FINANCIAL

Lonking Rain is Deminant Factor in Day's Wheat Trade.

MARKET CLOSES BELOW YESTERDAY

Corn is Steadled by Prediction of Frost-Many Oats Selling Orders from Outside-Provisions Quiet, but Stendy.

CHICAGO. June 5.—A copious rainfall caused a weak wheat market today and July closed a shade up and July outs legit to cover. Provisions at the close were a shade to be higher.

A soaking rainfall in the spring wheat country, where it was most needed, was the dominant influence in the wheat trade throughout the session, although other items were at hand, at times countributing to the weakness, while others caused temporary checks to the decline. The fact that a leading commission house is believed to be manipulating the July delivery was apparently overlooked by the crowd. July opened 1/4% clower at 1/6/2/6/4 and sold quickly to 1/6/4c. A prediction of frost in the northwest and more fly damage reports caused a raily to 1/6/4 but a decline to 75% followed in short order. Later July, helped by reports of a better cash demand and a momentary cessation of selling, reacted to 75% 76%. As the session meared the end the anxiety to unload or to take the popular short selling side increased because of light export clearances and July dropped to 74%c. Here the market steadied as the selling ceased, but the close was weak, July 1%c lower at 16c. September was supported chiefly by shorts, who dreaded the effect of a frost, and this delivery closed at 17%c, only a shade under yesterday. Local receipts were sixty-nine cars, one of contract grade. Minneapolis and Duluth reported 420, against 18 last week and thirty-one a year ago. Seaboard clearances in wheat and flour were equal to 274,000 hushels, while primary receipts were \$5,500, compared with \$61,000 bushels last year.

The corn trade was rather dull. The opening was easy on the rains and in sympathy with wheat. The prediction of frost, however, caused buying which steadied prices, although the frost is only a possibility, July sold between \$140. Receipts were 244 cars, forty-one of contract grade, and closed a shade up at 44%c. Receipts were 284 cars, forty-one of contract grade, and closed a shade up at 44%c. Receipts were 284 cars, forty-one of contract grade, and c 000 head. The leading futures ranged as follows:

June. July... 78 604 764 764 8ept... 714604 724604 724604 June. July... 444604 44604 446604 4 4414.014 4414.015 4414.015 2814 27366664 2656 2614 14 55 14 5236 14 55 14 6736 14 65 14 6736 14 5214 14 6214 7 85 7 85 7 8739 7 8259 *No. 2.

MOVEMENTS IN STOCKS AND BONDS.

Ipward Spart in Rock Island is Prominent Feature of the Day.

NEW YORK. June 5.—The strength of the stock market, which was quite marked at one time during the day, diminished decidedly after a while. When the check was first decisively established there was a notable failing away in the volume of dealings, but there was a resumption of activity before the close. The progressive decline in the strength of the market is probably due to the completion of realizing profits on various heavy lines of stocks. This profit-taking was clearly in evidence all flay, every demonstration of special strength in individual stocks being taken advantage of to prosecute the selling. Elsewhere stocks which have shown greatest strength recently were naturally most affected by the realizing. The sharp advances scored in a number of low-priced stocky during the earlier part of the day pointed clearly to manipulation in the interest of the realizing crowd, but there was also notable strength developed in the market in high grade stocks. The most sensational upward movement was in Rock Island. The late spurt in that stock to 1754 had a noteworthy influence in stiffening the list after it had touched the low points of the day to that time, but as soon as it was perceived that the Rock Island movement was without effect the selling was renewed with redoubled force. The admission of interests to the directory of Rock Island was pretty clearly foreshadowed, but the extra stock Issue was an entire surprise to the street.

The movement in Atchison was more

terests to the directory of Rock Island was pretty clearly foreshadowed, but the extra stock Issue was an entire surprise to the street.

The movement in Atchison was more gradual and on larger dealings. Rumors of a lease to Union Pacific persisted, and the admission to the directory of the banking firm which represents the northern lines of Pacific railroads was regarded as significant of the progress being made toward community of interest in that territory as a result of the adjustment of the Northern Pacific quarrel. Atchison's extreme rise was 4%. The story of Missouri Pacific's control of Southern Pacific and the rumor of the exchange of Missouri Pacific stock for the Denver & Rio Grande stock were an influence in that group of railroads. Pennsylvania was affected by the published explanation of an executive officer lately returned from Europe, of good prospects of coal export trade. Executive changes in the Eric were taken as foreshadowing improvements in operation. The strength of Illinois Ceniral was based on comparison of its low prices with railroad stocks in the same category. Amalgamated Copper suffered from the granting of a new injunction against its proposed absorptions. Advances of from it of 4 points in a number of low-priced railroads and industrials were unexplained by any news. The advance in Canadian Pacific and its affiliated lines was designed to lift the stock in proportion to the advance of other stocks of northwestern Pacific lines.

The bond market was irregular in sympathy with stocks. Total sales, par value, 35,515,000. United States bonds were all unchanged on call.

The Commercial Advertiser's London financial cablegram says: Business on the Stock exchange here today dwindled to almost infinitesimal proportions. There was a general exodus to witness the Derby. What dealings there were today were centered in the American department. Denver & Rio Grande led a raily on what was generally assumed to be Gould buying. Atchison also spurted on buying for the New York account. The close

PEACHES FROM GOLDEN GATE First Consignment of California Fruit Reaches the Omaba

The first consignment of California peaches, plums, prunes and apricots was received yesterday morning. It arrived too late for the early market and sales were made over the telephone. Crates of peaches weighing twenty pounds.

containing from six to nine dozen, sold at \$1.50 to \$1.75; plums, \$1.50 to \$2 per fourbasket crate, prunes at \$2 per crate of the same size and apricots at \$1.75 per crate. The strawberry market was strong on good stock yesterday the price being \$2.25 for good shipping crates and \$2 for good stock for immediate consumption. Soft express stock sold at \$1.57.

One car of express stock was received which was in such shape as to call for the rejection of a large part of the consignment. It came from Sarcoxie, Mo., and the ice was permitted to melt without being replenished. M. J. Davidson, agent for the Gandy Strawberry association of Sarcoxie, met the car when it arrived and imme-diately made a demand on the express company for damages which will amount to about \$250, the difference in the price paid for good stock and that at which he was forced to sell the damaged berries.

Building Permits. The city building inspector has issued the following permits: Reichenberg-Smith company, wholesale building, Sixteenth and Harney, \$10,600; W. H. Sanford, double brick dwelling, 316 and 318 North Seventeenth, \$5,500.

MASONS IN ANNUAL SESSION

Nebraska Grand Lodge is Called to Order at Masonio Temple.

BRINGS MANY VISITORS TO THE CITY

Most Important Question for Consideration to the Action of Washington Authorities Relative

to Claudestine Lodges.

The twenty-fourth annual communication of the Masonic grand lodge of the state of Nebraska was held in Masonic hall yesterday afternoon. The annual address of Grand Master A. W. Crites of Chadron was presented. The grand master con-gratulated the members upon the growth of the order in the state and its solid financial standing; reported the laying of corner-stones and other official acts, and ceasured the officers of a lodge for conducting a raffle for the purpose of raising funds for the finishing of a lodge room. During the last year the grand master has made fifty decisions, which he submitted to the grand lodge for its consid-

The report of the grand lodge treasurer showed cash on hand May 31, \$27,306.98. The report of the grand secretary was exhaustive, showing each item of receipt and expenditure. Forty members of the order in the state have been placed on

the retired list during the last year. The report of Robert E. French, grand custodian, showed that he has, since taking the place made vacant by the death of James Allen Tulley, visited twenty-six lodges and held eighty-eight sessions of official schools of instruction. Members to the number of 1,276 have been added by these sessions. The custodian desired his report referred to a special committee, so that he could communicate to the lodge matters in connection with the office which could not be submitted in a formal report. The report of the trustees of the or-

phans' educational fund showed that the fund had increased \$1,561,59 in the last year, the amount on hand at this time being \$34,327.06. The report of the committee on returns showed a total membership of 12,767 in

the state, a net gain of 406 during the year. The gross gain was 1,204, the loss At the evening session the address of

the grand orator was made, touching upon points of interest to the members of the lodges in the state, after which work in the past master's degree occupied the time until adjournment. The most interesting question for consideration at this session of the grand lodge is

one not referred to in the grand master's address. It will come up on the report of the committee on jurisprudence and is the matter of the grand lodge of the state of Washington and its recognition of the so-called negro Masons. The question was presented to the Nebraska grand lodge two years ago, but action was deferred. with the understanding that the Washington grand lodge would change its rule for the recognition of negro lodges. A change was made in the rule, but not according to the ideas of the Nebraska Masons, so in his address as grand master one year ago W. W. Keysor reported that while a change was made, in his opinion it was reaffirmation, in a more insidious form. of the position previously held by the Washington grand lodge, and a position which could not be concurred in by the grand lodge of this state. As he did not believe that communication with the Washington grand lodge should be discontinued without due consideration he referred the matter to the grand lodge for action.

The principal contention seems to be over landestine lodges the Washington grand lodge holding that it should judge the standng of al! Masons who apply for admission inder its jurisdiction while the grand lodges of the majority of states hold that each grand jurisdiction should have the right to declare any lodge within its borders landestine, and that all other grand lodges hould be bound by this action. They claim that under the Washington rule a member of a clandestine lodge in Nebraska can go to the state of Washington and gain a certain Masonic standing by being recognized as a Mason by the lodges of that state which

are recognized by the grand lodge of the state of Nebraska. The recommendation of the grand master last year was referred to the committee on foreign correspondence and that committee nade a report sustaining the position of the master and recommending that fraternal relations with the grand lodge of Washington be discontinued. This report was not acted upon, the matter being referred to the committee on jurisprudence which near the close of the session asked for further time to consider. The time was granted and on the report of the committee the matter will come up at this meeting. Judge Keysor, the grand master who made the recommendation, is chair-

man of the jurisprudence committee, which will report tomorrow. The delegates to the present grand lodge number about 600 persons coming from 235 active lodges in the state, all but one of

which have reported. At 11 o'clock this morning there was a meeting of the Nebraska Veterans' associaion, at which five new members were admitted. The meeting was followed by a banquet at noon.

Invaluable to Mothers. Malt-Nutrine is especially beneficial to nursing mothers. It not only insures a speedy convalescence, but makes the baby fat and healthy. It makes rich, healthy blood and a strong and vigorous constitution. Prepared only by the Anheuser-Busch Brewing Ass'n, St. Louis, U. S. A.
