CORN GIVES WAY TO WHEAT

Increased Acreage of Winter Wheat in Kansas—Corresponding Decrease in Corn.

The Kansas Board of Agriculture June 7 issued a report covering the crop situation in every neighborhood June 1, but dealing more in detail with the wheat, oats and corn.

Based upon 100 as an entirely satisfactory condition the winter wheat situation for the whole state on the date mentioned was 82, a decline of 17.8 per cent since the report of April 5...

Commenting upon matters relative to the crop, Secretary Coburn says: "All recent figures received indicate that the present Kansas winter wheat acreage is a very considerable per cent larger than has at any previous time been officially estimated..."

Whatever may be the cause of the increase in wheat and the corresponding decrease in corn, the result is well known...
