Henry Grobe, a wealthy farmer near Minden, James township, discovered yesterday morning that thirty-three of his fat cattle were missing from the pasture. He had not counted the cattle for a week, but yesterday morning noticed that some of them seemed to be missing, so he rounded them up, with the result that the herd was graduating class of the High school will be found to be thirty-three short. A second preached this morning at the First Congregational church by the pastor, Rev. J. the thirty-three head missing were the pick of the herd.

Later investigation led to the belief that the cattle were stolen Wednesday night and were driven to Yorkshire, a small station on the Chicago, Milwaukes & St. Paul railroad, whence they were probably shipped to Chicago, though it is possible they may have been shipped to Sioux City, via Manila, or to South Omaha. Tracks from the pasture showed that the cattle had been driven on the county road between James and York townships, thence north toward A man accompanied by a dog was seen driving a herd of cattle answering the description of the missing animals through Minden about daybreak Thursday. CUNNINGHAM WANTS HIS PAY.

Little Bill for Seven Thousand Is a Forerunner of Others. The carrying out of its contract with F. M. Cunningham, the tax ferret, entered into November 18, 1899, is now up to the Board of County Supervisors. Following the decision of Judge Wheeler of the district court, in which he held that the contract was valid, Cunningham yesterday presented to the supervisors his bill for \$7,055.94. This amount is based upon the compensation agreed upon in the contract, which provides that Cunningham should receive a sum equal to 50 per cent of all moneys recovered into the county treasury through his efforts in ferreting out property which had been omitted or concealed from taxa-
